NO. 173—SIXTY-THIRD YEAR | VICTORIA, BRITISH COLUMBIA, WEDNESDAY, JULY 6, 1921 | EIGHTEEN PAGES

DEFENCE POLICY WILL WAIT OVER FOR NEW ACTION

Not Likely to Be Dealt With Until Question of Armament Limitation Is Either Considered or Thrown Aside—Dominions Will Govern Their Own Courses.

COMMUNICATIONS WITHIN EMPIRE TAKEN UP AT MEETING YESTERDAY

LONDON, July 5.—Problems of military and air defence engaged the attention of the Dominion Premiers today. Field Marshal Sir Henry Wilson and Air Marshal Sir Hugh M. Trenchard, supported by a formidable coterie of experts and officials, made lengthy statements outlining the Empire's position respecting both land and air. Questions were asked and answered, and the committee, on which Canada is represented by Hon. Hugh Guthrie, Minister of Militia and Defence, was empowered to further inquire into both subjects and report back to the conference later on.

As the action thus taken may lead to the belief that the conference contemplates some decisive action in respect of defence, the Canadian Press correspondent is in a position to state that nothing more is expected of it than the usual resolution that has marked practically every Imperial Conference during the last twenty-five years. Indeed, the Dominion Premiers have made it perfectly plain that matters of naval and military policy, as far as they concern the Dominions, must be decided not in London, but by the respective local parliaments. That was the position Premier Meighen took before leaving Canada, and it is the position he has taken here.

Takes New Position

The British Government's attitude of six months ago, as voiced in Parliament by Lord Lee of Fareham and Premier Lloyd George, namely, that the present conference must deal with the question of Imperial naval policy on a co-operative basis, appears to have been altogether abandoned. In its stead there is practically a unanimous agreement that a decision on the naval problem can well be delayed for the present, and that in any event the matter is to be determined by the various parliaments and not by any conference. The plain truth is that unless and until the attempt to secure a disarmament conference fails, very little will be heard for some time of either British or Dominion naval schemes.

Empire Communications

A great deal of today's discussion hinged around the desirability of securing cheaper communication between various parts of the Empire. Much was made of the fact that for every line of Empire news carried by the British press there were pages and columns of sporting and divorce news, and Premier Meighen took occasion to point out that since landing in England he had not seen more than half a dozen of the most meagre dispatches concerning Dominion affairs. The matter, however, was referred to a committee for a report, and if one may judge from the fate of similar acts of former conferences, it is not likely to get much further for some time.

German Reparations

Tomorrow the conference meets Sir Robert Horne, Chancellor of the Exchequer, who will explain the position with respect to German reparations. It is a matter of no little interest, but in view of the fact that the reparations amount has been considerably whittled down since the time when Sir Thomas White confessed that Canada need not look for any large amount, it is hardly likely that anything of a substantial character will be forthcoming for the Dominion.

With the exception of Gen. Smuts, the South African Premier, who was represented by Sir Thomas Smartt, all the Premiers and several of their Ministers were present at today's conference. As a result of the protest made by Premier Meighen on behalf of Canada against secrecy, a short outline of the proceedings was issued.

JAPAN EXTENDS MILITARY WORK

Army Manoeuvres This Year to Be More Elaborate Than Before—Fortresses at Inland Sea Entrance

TOKIO, July 5.—The annual army manoeuvres this year will be more extensive than ever before. Eight divisions are expected to participate, as compared with the usual four divisions. The manoeuvres will take place in November in the district adjacent to the sacred Mount Fuji, and will last four days.

Tests will be made of all new weapons and armament, including those invented or improved after the Great War. The entire aviation corps will take part in aerial operations. As on previous occasions, foreign military attaches and officers will be invited.

Military authorities have decided, says The Asahi, to fortify the south entrance to the Inland Sea by constructing fortresses at Saganoseki and Satamisaki peninsula, confronting the Bungo channel, between Kiushu and Shikoku, in accordance with the policy of fortress readjustments.

An artillery regiment will be stationed at Saganoseki.

The district then will be one of the most important defensive positions of Japan.

KEMAL IS NEAR CONSTANTINOPLE

Nationalist Turks Reported to Have Occupied Nearly All Ismid Peninsula — Protest Against Greek Destruction

LONDON, July 5—The Turkish Nationalists have occupied almost the entire Ismid peninsula, and some of them have entered the neutral zone, says an Exchange Telegraph dispatch from Constantinople today. It is said that a private meeting of the Allied High Commissioners in Constantinople discussed the question of asking Roumania to send troops to defend Constantinople against the Nationalists, if necessary, this dispatch adds.

CONSTANTINOPLE, July 5.—The Sublime Porte has delivered a sharp protest to the Allied High Commissioners here regarding the destruction committed by the Greek troops in the Territories they have evacuated. The note calls the attention of the Allies to "special cases of wilful incendiarism carried out by the Greek fleet on the Ismid peninsula."

Great clouds of smoke over the peninsula were observable from here.

WHISKY SMUGGLERS CAUGHT NEAR BORDER

MOUNT VERNON, Wash., July 5.—Dixon Hines, of Tacoma, and Norman J. McDonald, of New Westminster, B. C., were held in jail here today on open charges for alleged participation in a whisky running expedition which came to grief here at 11 o'clock last night.

A seven-passenger auto containing fifteen cases of whisky, in which seven men were said to be riding, was captured after one of the rear wheels had been damaged by revolver bullets fired by officers who pursued the machine south of here.

The men fled to a grain field, and five escaped after a revolver battle had been fought with the officers.

FALLS FOUR STORIES WITH LITTLE INJURY

LOS ANGELES, July 5. — Four stories from the roof of a downtown building to the pavement was the plunge Fred Watson, a painter, took when his foot slipped today. Terrified autoists, despite his struggles, hurried him to the reviewing hospital.

"Can't you guys let a fellow be?" he said. "Make them let me go, Doc, I want to finish my job."

The surgeon could find only a slight bruise, and Watson walked back to his work.

KRASSIN HAS QUERY FOR GREAT BRITAIN

LONDON, July 5. — M. Krassin, soviet minister of trade and commerce, last week asked the British Government whether it was true that the staff of the Russian trade delegation at Constantinople was arrested and deported, says The Daily Herald, the Labor organ, but up to the present has received no reply. The newspaper adds that M. Krassin now has received confirmatory information from other sources, and has made an official request for an explanation.

Late in June, Constantinople advices reported that British soldiers there had raided the offices of the Bolshevik trade delegation.

Former Service Men Come

WINNIPEG, July 5.—A party of 30 ex-Imperial service men, who were granted free transportation from England, arrived in Winnipeg last night. Practically all of these men are going to work on Manitoba farms for a year before taking up land of their own.

ASIATIC CHOLERA AFFLICTS RUSSIA

STOCKHOLM, July 5.—Asiatic cholera is spreading rapidly in the whole of European Russia, according to the public health recorder. Six thousand cases were reported up to June 25.

Recently Petrograd and Moscow have become infected, the disease spreading quickly and being propagated by the unusually hot weather and refugees who have fled from the famine districts.

ENDEAVOR TO STOP BATHING ON SUNDAY

TORONTO, July 5.—In response to a rumor that an effort would be made by the Lord's Day Alliance to stop Sunday bathing at the beaches, Mayor Church said:

"The police will take no action, law or no law, in such weather. The people have a right to live and breathe without any permit from these people, and no interference will be tolerated with the city's bathing stations."

HAMILTON, July 5.—The Lord's Day Alliance is planning to stop Sunday bathing in Hamilton, but is meeting with scant sympathy from members of the city council. "Ridiculous," was the expression some of them used when they heard of the attempts of the Alliance.

CANADIAN LOAN MATURES AUG. 1

Notes to Amount of $15,000,000 Must Be Met in New York at That Date—Method Not Yet Known

NEW YORK, July 5.—According to a local financial news service, New York bankers expect that Canada is going to pay off the $15,000,000 loan which matures here August 1. The Dominion has that amount of 5½ per cent notes due here at that time, the report says.

"Some time ago it was not known whether Canada would pay the loan or endeavor to raise a new loan in this market, part of which accommodation should be used in taking care of the August 1 maturity," the report continues. "Reports recently stated that Canada was negotiating for a new loan, but somewhere doubt it Canada will undertake to float a new loan here at this time, with the investing public marking time.

"Canada is understood to have fair balances in this country, which should be used in meeting the maturity; on the other hand the obligation may mean the shipment of gold to this centre. Bankers point out, however, that Canada will soon begin to market her wheat, which will place her in possession of additional funds."

OTTAWA, July 5.—Officials of the Finance Department this afternoon were doubtful as to whether any decision had been reached by the Government on what action it would take toward the loan of $15,000,000 maturing in New York on August 1. The loan will be met when it falls due, but just what steps will be taken toward meeting it have not yet been discussed, it was stated.

Sir Henry Drayton, Minister of Finance, said he had nothing to say on the matter at this time.

WILL NOT DECIDE WAGE QUESTION

General Chairman of Railway Brotherhoods Think It Should Go to Membership—Meet Railway Executives

CHICAGO, July 5.—General chairmen of the five leading railroad employees' associations today declined to shoulder the responsibility for accepting wage reductions which went into effect July 1. They stated that the entire matter should be "referred to the membership through the various general committees not later than September 1."

The organizations represented were the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, the Order of Railway Conductors, the Brotherhood of Railway Trainmen, and the Switchmen's Union of North America.

The general chairmen also authorized their chief executives to make arrangements, if possible, to meet a committee of railway executives "to consider, and if possible adjust, all matters in controversy."

The chief executives and committees that are handling these matters for the five organizations were directed in the resolutions "to place the representatives of the railway corporations clearly on record as to whether or not they will request further decreases in rates of compensation, the abolition of schedule rules or regulations, or the elimination of time and one-half overtime."

Announcement was made that the resolution will be immediately considered by the other recognized railroad labor organizations.

BRANDON, July 5.—The month of June just past was the wettest of any corresponding month since 1905 and the warmest June of any year since 1901, according to the records at the Experimental Farm here.

SENDS OUT NOTE ON OIL QUESTION

British Government Publishes in Form of White Paper Memorandum Transmitted to Sir Auckland Geddes

DENIES EXCLUSION OF FOREIGNERS

Outside Capital Is Not Hindered From Operating in Empire Territory—Great Production in U.S. Pointed To

LONDON, July 5.—A white paper on the oil situation was given out today. It is in the form of a note which Lord Curzon, the Foreign Secretary, sent to Sir Auckland Geddes, British Ambassador to the United States, under date of April 1, which enclosed for the Ambassador's information, in reply to his inquiries, a memorandum compiled by the British petroleum department, giving statistics on the oil resources of every part of the British Empire and showing an extremely small oil production and the absence of any general policy for the exclusion of foreigners from the oil-producing areas.

The memorandum says that in vast areas where there are no restrictions no foreign country has attempted to explore for oil except in British North Borneo, while in Canada and Trinidad, where restrictions are enforced, foreign capital has been working for many years.

"It can, therefore, hardly be contended that the restrictions imposed any serious disability on foreign enterprise," the memo argues as regards the closed door policy. "No real parallel can fairly be drawn between the British Empire, with its small and scattered production, and a country like the United States, producing two-thirds of the world's output within her home territory."

DEHYDRATION AS LOGAN SOLUTION

Managing Director of Laurel Canners, Ltd., at Public Meeting Points to Evaporation as Way Out

That dehydration may provide the solution of Saanich's loganberry problem was the most interesting point developed in the public meeting held last evening in the Royal Oak Hall for the purpose of making known the aims and objects of the Laurel Canners, Ltd., in which the promoters hope to get the fruit growers of the municipality financially interested.

There was an attendance of about sixty at the gathering and some twenty applications for stock were made during the evening, bringing the total of applications to over sixty.

In touching upon the practical end of the business, Mr. W. J. C. Ede, who is the managing director of the concern, pointed out that present plans called for the addition of two more evaporators to the one at present installed in the plant which the new company is to take over from Mr. Ede and his partner, Mr. A. C. Westgate. This equipment would handle two tons of fresh fruit a day.

Mr. Ede pointed out that dehydration cut out the cost of sugar and reduced freight charges to a minimum. The process took the water from the fruit which could be restored to its original state through being subsequently left in water for twelve hours. Dehydrated loganberries had proved popular on the prairies. Mr. Ede believed that two-thirds of the loganberries handled by the new firm should be dehydrated. They could be put up in cartons which would be much cheaper than cans.

Popular on Prairies

Mr. D. H. Bryce, a former Saskatchewan farmer, reported to the meeting that the dehydrated loganberries had proved popular on the prairies, but last year could not be obtained at the stores although they could be got from the T. Eaton Company.

Mr. J. B. Clearihue, solicitor for the company, told of California's grape problem which resulted in the great marketing campaign of raisins, and he thought that dehydration of logans might do for Saanich what raisins had done for the state to the south.

Mr. Ede pointed out that the various official bulletins issued in the

MONTREAL PRESSMEN RETURNING TO WORK

MONTREAL, July 5.—Striking Montreal pressmen returned to their work today, following the advice of their international president, Geo. L. Berry, telegraphed from Indianapolis.

The message stated that "It would be a serious mistake, in view of prevailing industrial conditions, for a strike to occur now." The men are advised "to retain peaceful relations in the interest of our organization and constructive leadership."

Following the receipt of these instructions, some 325 men returned to work at the old scale of wages and the same hours, namely, a 48-hour week at a wage of $36.

SINN FEIN LEADERS MAY SEEK MEETING ON DIFFERENT LINE

Times Correspondent Says It Is Surmised That De Valera Will Suggest Conference on Ireland Called by King George and Presided Over by Non-Government Man

GATHERING OF 1914 CALLED PRECEDENT

Question of Suspending Hostilities Is Apparently Not Decided, But Unofficial Truce May Be Observed—Matter Is Gingerly Treated—Sir James Craig on Ulster's Case

LONDON, July 5.—The Parliamentary correspondent of The London Times says that well-informed quarters expect Eamonn de Valera to reply to Premier Lloyd George with a counter-proposal. It has been suggested in some quarters that the Sinn Feiners would prefer, if they enter a London conference, to have it called by the King and have a chairman who is not a direct representative of the British Government, rather than Mr. Lloyd George.

The correspondent cites the Buckingham Palace conference in 1914 as a precedent. It was called by the King, and the Speaker of Parliament was in the chair. He adds that it is also suggested that the overseas Dominions be represented, with a Dominion premier occupying the chair.

Regarding the cessation of fighting, he observes that an unofficial truce, "an understanding binding on the leaders and enforced as far as possible on the scattered units," is thought more advisable than a formal cessation of hostilities. For some days past, the correspondent asserts, there have been no reprisals, official or unofficial, by the crown forces.

Government spokesmen are extremely guarded in their statements with reference to any diminution in Sinn Fein activities, being fearful lest any claim made of that nature might result in fresh outbreaks calculated to show that the power of the Irish republican army has not been impaired.

On both sides, it is pointed out, there are many difficulties in the way of arriving at anything more than a tacit truce, as it is believed unlikely that the Sinn Feiners could be persuaded from the execution of a long-sought spy, just as the crown forces could hardly be expected to refrain from arresting an important rebel who chanced to be located. Yesterday's Dublin conference, however, the authorities claim, has created a more favorable atmosphere, and there is a considerable lessening of the tension in both camps.

Sir James Craig, the Ulster Premier, left Belfast for England tonight.

The Daily Mail quotes Sir James as saying he is not aware of any renewed invitation by Eamonn de Valera to attend the conference in Dublin of Mr. de Valera and Southern Unionists.

The Ulster Premier declared, according to The Mail, that he and his colleagues were willing to explore any avenue of peace at the London conference, but that the Ulster Government was convinced the cause of peace in Ireland was bound up with the maintenance of the imperial connection and recognition of the existence of the Northern Parliament.

Several Outrages

BELFAST, July 5.—While shielding her brother from an attack near Newry, a girl school teacher named McAnuff was shot dead, says a message received today from Newry. The attack was carried out by a band of armed men, who called at their home and asked her brother to sign an undertaking not to participate in any ambushes or murders. He signed the paper and she also offered to sign, but was told that it was needless. A few moments later shots rang out and she fell dead.

DUBLIN, July 5.—It is officially reported that masked men took Peter Keyes, a laborer, from his home at Russin, Queens County, and shot him to death. Thomas McGorran, of Tarmonberry, Roscommon, was shot and dangerously wounded by masked men in his father's home this morning.

The engineer of a train conveying jurors to the Waterford assizes from Lismore today, finding the railway gates closed at Cappagh, drove through the gates, whereupon fire was opened from both sides of the track. There were no casualties.

Policy of Reticence

DUBLIN, July 5.—In view of the importance and delicacy of the situation, those concerned with the peace movement have decided that reticence is the best policy; consequently, aside from the fact that General Jan Christian Smuts, the South African Premier, has arrived and held private conversations with certain Irish leaders, there is virtually nothing known by the general public as to how matters are progressing.

Everybody is talking peace, and rumors that a truce is about to begin are current everywhere, but neither side has issued a statement. There is an evident slackening of the Government's repressive activities in some directions, while it is remarked that there has been no ambushing of crown forces in Dublin and the immediate vicinity for some days. As regards the continuance of tragedies in the country districts, it is contended these districts often are not in direct touch with Sinn Fein headquarters.

The Irish Bulletin, organ of the Dail Eireann, comments upon the significance of Monday's conference which de Valera had with the southern Unionists.

The fact that the conference adjourned until Friday after an interchange of views, says the paper, "is proof that Irishmen of hitherto widely divergent opinions can continue to deliberate upon the best means of showing a united front to England at this crisis."

BUTTER FROM CANADA PRAISED IN ENGLAND

OTTAWA, July 5.—The first shipment of butter this season to Liverpool by the steamship Melita has been much appreciated, according to the Trade and Commerce weekly bulletin. One firm remarked that while there was some variation in the quality, the best was as good as any on the market, and that if such quality could be maintained, no long time would elapse before Canadian butter would secure a high reputation.

The percentage of salt, says J. F. Smith, Canadian Trade Commissioner at Liverpool, was far too high, being from 3 to 4 per cent, where Danish butter contains less than one per cent, and never more than 2 per cent of salt. In the present shipment the milder butter probably will sell at four shillings per hundredweight premium over that containing more salt.

BOX DONATED IN NAME OF MELBA

For Benefit of Army and Navy Veterans' Production at the Willows Tonight — Tickets Will Be Auctioned

Dame Nellie Melba is deeply interested in the production of Massenet's "Manon," which is one of her favorite roles in the French opera, and her presence at the production in Vancouver has added much to the civic interest there. The great diva has donated a box at the performance to be given at the Willows tonight. This box will be auctioned off, and the name will be bulletined in The Colonist window this afternoon at five o'clock.

Victorians, it is hoped, will turn out in large numbers tonight to hear the first open-air production on the Pacific Coast of an opera, especially as it is being sung by artists who have made for themselves an enviable reputation in interpreting these fine bits of music.

Mrs. Sara Y. Peabody has a wonderful flute-like voice, full of pathos and melody, and her period recitals and scenes from the various recitals in which she has recently sung have won high praise by critics on the American side of the line. She is an artist of exceptional ability, with a charming personality.

Jacques Jou-Jerville, the French tenor, is an artist whose devotion to the rendering of fine classical operas will mean much to this Coast, as the stimulation and growth of the musical life of the country this side of the mountains will be very much assisted by the gallant soldier-artist.

A typical old Southern darkey will serve a famous Southern refreshment between the acts.

In the event of rain, the performance will be given in the ballroom of the Empress Hotel.

Those who have already secured tickets should call at Messrs. Fletcher Bros.' store and have the pasteboards numbered.

Canadian Cattle in England

LONDON, July 5.—The firm of Frank Devaney reports that Canadian cattle in Birkenhead are selling at 13 pence a pound for heavies and 14 pence a pound for lights. Trade is quiet.

Forest Fires Threaten Havoc in New Ontario

Two Lives Have Been Lost and Serious Damage Already Caused—Situation Like That of Ten Years Ago—Weather Is Extremely Warm and No Rain Indicated

COBALT Ont., July 5.—Bush fires sweeping over Northern Ontario already have claimed two lives and caused property damage running into millions of dollars. New Ontario is menaced by another conflagration such as visited the country ten years ago and only early rain can save it. Trainmen coming south from Porquis Junction brought news of the first casualty. Near Holland Station, two young men, whose names are unknown, seeking to escape the advancing flames, entered a dugout, and were burned to death. The fires are reported to be particularly menacing in the vicinity of Timmins and Iroquois Falls. In the lower Abitibi region 5,000 cords of pulpwood were licked up by the flames yesterday.

A considerable quantity of pulpwood as well as railway property has been burned at Hearst station, and in the region of Englehart, a great quantity of timber has been destroyed. Great destruction of property is also reported from the Larder Lake district. The transmission lines of the Canadian Associated Goldfields fell a prey to the flames for a distance of nearly two miles. The fires also have reached alarming proportions in the vicinity of Uno Park and Thornloe, and in the district east of Cochrane.

Camp Destroyed

SAULT STE. MARIE, Ont., July 5.—The Spanish River Pulp and Paper Company's camp at Millwood, Mile 122, on the Algoma Central, was destroyed by a bush fire which started there last Tuesday, when lightning struck a ridge of pines during a thunder storm. Seven houses, cook camp and barns are gone. The residents of the settlement have gone to Mile 136, where they are being housed temporarily, and 100 men are still fighting the fire, which has now reached the railway.

Breaking Out in Quebec

MONTREAL, July 5.—Owing to the prolonged spell of heat, and rainless weather, forest fires are breaking out again in various parts of Quebec, G. C. Piche, chief of the provincial Forestry Department, announced today.

SUDBURY, Ont., July 5.—Conditions very similar to those which preceded the big Porcupine bush fires of 1911 exist throughout Sudbury and Algoma districts today. For the past 120 hours the temperature has not been below 90 degrees by night, and has registered a maximum of 103. There has been absolutely no wind, and should one blow up without rain serious fires are certain. As it is, the slash in the cut-over areas is smouldering over many square miles. No valuable timber has yet been burned, but there is constant danger. The hay crop has been burned, and is almost a total failure, and this, added to the grasshopper plague, is making this season a disastrous one for the Manitoulin Islands farmers.

MAUDLIN SYMPATHY STRONGLY DENOUNCED

MONTREAL, July 5.—The sympathetic attitude of the public, especially among the more responsible classes, including clergymen and members of parliament, toward convicted criminals was denounced at today's session of the Chief Constables' Association of Canada by Inspector McKinney, of Toronto, who moved a resolution urging the Federal Government to make it compulsory for every condemned murderer to be removed to the penitentiary in this province immediately upon conviction and to be kept there until the time of his execution.

The resolution, which was seconded by Superintendent Crow, of Toronto, was unanimously carried.

"We are becoming a nation of sympathetic whiners, sending flowers to condemned murderers," declared Inspector McKinney, amid applause. "What we need is a saner attitude toward the criminal class, and the sooner people cease getting up petitions for the commutation of sentences the better."

"Gifts That Last" From the Gift Centre "Gifts That Last"

Toilet Cases for Traveling

To those who undertake more or less extensive travel, the convenience of a leather case containing the needed toilet articles appeals with particular force. The narrow confines of a steamer stateroom or railway dressing room causes much inconvenience, whilst the handy, compact, toilet case renders service on account of small size. For motoring trips it is an ideal companion. We have an excellent variety of these cases.

GRAIN CROP PROMISES TO REVIVE BUSINESS

WINNIPEG, July 5.—Revival of business in Canada is now assured. Western Canada's enormous grain crop has paved the way. Prospects in Manitoba and Saskatchewan could not be better. Wheat and oats are coming along fast, and cutting will start in three weeks. Today the Canadian Pacific Railway started preparations to move this bumper harvest.

The great shops at Weston will operate five days a week, from Monday to Friday, beginning this week, officials announced today. The shops have been closed since June 24. Prior to that date they were running four days a week. About 1,400 men are affected.

SOCIALISTS EXPELLED FROM DEFENCE LEAGUE

WINNIPEG, July 5.—All delegates from the Socialist Party of Canada to the Canadian Workers' Defence League, including Alex. Shepherd, chairman, were expelled at a meeting of that body last night owing to disagreement in the policy of the league in connection with the question of keeping a paid secretary. The Socialist members took the stand that the expense incurred was too great.

The committee decided to establish branches throughout the Dominion.

NEGRO MURDERER SHOT DEAD IN COURT

VICKSBURG, Miss., July 5.—Geo. Deal, negro, under indictment for killing a preacher, was shot to death in the courtroom here last night by Sheriff B. H. Shannon, when Deal tried to wrest a revolver from the hands of a deputy.

Court was in session, and the judge had postponed decision on the date of Deal's trial, when the negro arose and snatched Deputy Sheriff Martin Hobeler's gun from a table. Hebler grappled with him, and Sheriff Shannon, seeing that the lives of those nearby were in danger, fired three shots into the negro's back, the third killing him.

QUEBEC PROVINCE NEEDS HEAVY RAINS

QUEBEC, July 4.—L. Brown, Superintendent of the Provincial Government Demonstration Farms, who returned this morning after touring all the districts of the Province, said that unless there is a rainfall before another week, the crop of cereals and fruits will be practically ruined and the hay crop will be about 50 per cent less than last year.

Rain is needed in all sections, and many days of it, according to his report.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence,—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes,—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You're tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

NR TO-NIGHT—Tomorrow Alright Get a 25 Box

EVIDENCE SHOWS DISCREPANCIES

Witnesses at Inquiry Into Exchange Frauds Deny Statements Made by Others—Employees of Branch Testify

OTTAWA, July 5.—Denial of the evidence of yesterday's witnesses featured the hearing this morning before Commissioner Clarkson of evidence in the investigation into the alleged frauds in connection with the cashing of returned soldiers' cheques at par.

M. Hubbell, who was on the stand this morning, and P. V. Lowe, employees in the exchange branch, both denied statements attributed to them by previous witnesses. Hubbell declared that in making certain payments which were under review he had acted on instructions from Lowe. The latter in turn denied that he had given instructions regarding payments of any amount to A. E. Hill, ex-constable. With regard to the holding of English currency at the exchange branch, in some cases for weeks, J. D. Godfrey, counsel for the Government, said the suggestion was that this money had been handed out to people to again exchange it at par. Lowe replied that he did not see how this would work, as the accounts would not balance.

Lowe stated that R. F. Brown, chief accountant, had not made an inspection of the exchange branch, nor could witness give a case where Brown had interested himself in the branch. Lowe said he had required applicants to make a sworn declaration that the money they sought to exchange was from pay and allowances.

Though he had heard rumors of a discrepancy of $5,000 between cheques sent out and cheques coming in, witness said he knew nothing definite about it.

The investigation is continuing.

The first public sitting of the Clarkson commission came to an end this evening, when the commission, after hearing a number of witnesses, adjourned until tomorrow. No intimation was given as to when and where future hearings will take place, though it is supposed they will be held in Ottawa, and that the public investigation will take some time to complete.

Today evidence was largely a rebuttal of statements made by witnesses yesterday. R. P. Brown, chief accountant of the Militia Department, and M. C. Allen, his assistant, who were the chief witnesses of the day, admitted that they had not supervised the detailed workings of Lowe's office, where the exchange transactions took place, but said that they had been under such a heavy pressure of work that it was impossible for them to do so.

BRITISH TROOPS FORCED TO FIRE

German Mob in Beuthen, Silesia, Refuses to Disperse After Murder of French Officer—Some Are Killed

PARIS, July 5.—The killing of Major Montalliferes, of the French army, during a hostile demonstration by the German population of Beuthen, Upper Silesia, reported in Foreign Office dispatches, has created a most painful impression in French official circles, it was indicated today. The reported killing occurred after the Poles had withdrawn from the town under the evacuation agreement. The officer was in command of a small French detachment that had remained in Beuthen throughout the Upper Silesian troubles. The British troops that were assigned to occupy the town had not yet arrived, and the manifestants profited by this fact, the major being shot from behind by someone in the crowd, the report declares.

When the British troops arrived, the Foreign Office advices add, they were forced to fire in order to disperse the crowd, and some of the demonstrators were killed and others wounded.

German Version

BERLIN, July 5.—The version of the trouble at Beuthen, Upper Silesia, given by The Allgemeine Zeitung today, declares that the people of Beuthen began acclaiming the allies on the Polish withdrawal, but that when the inhabitants started singing patriotic songs the French attacked them with rifle butts. Some shots were fired, the account continues, a major being killed and several Frenchmen being wounded, whereupon the French lost control, with the result that several women and children were killed. Twenty prominent citizens of Beuthen were taken as hostages, the newspaper adds, and an inquiry was opened.

Early accounts of the incident given Monday in Oppeln advices to The London Daily Mail, declared a French battalion entered the town amid a hostile demonstration by the German population and that later the French major was shot dead by a civilian, who escaped when the crowd shielded him.

Shingle Mill Burned

REVELSTOKE, July 4.—Fire on Saturday night completely destroyed the shingle mill of A. J. Waskett, at Arrowhead. The cause of the fire is unknown, but it is thought to have resulted from spontaneous combustion. The loss is estimated at $32,000, only partially covered by insurance. More than six carloads of shingles were destroyed. The mill was running at half capacity, and ten men will be out of employment.

FAMOUS OLD MANSION MAY GO TO NATION

LONDON, July 5.—A house in Buckinghamshire, one of the most famous and palatial country homes in England, may become the property of the nation. It belonged to the Duke of Buckingham and Chandos, and passed on the death of the third and last Duke, in 1889, to Baroness Kinloss.

It was sold yesterday by auction to Harry Shaw, for £50,000, and he announced that he hoped, with the assistance of his friends, to present it with its magnificent garden and avenue, to the nation.

Built in Queen Elizabeth's time, the house has a facade of 916 feet and 700 acres of pleasure grounds. Its history has been associated with such famous literary men as Sir Richard Temple, Pope, Congreve and Thomson. It has entertained royalties and statesmen without number, and in it Queen Victoria, for the only time in her life, held court in a private house. Moreover, it has been famous for its treasures of art, books and furniture, although many of them have been already sold.

VETERANS FAVOR AMALGAMATION

Members of Dominion G.W.V.A. Executive Decide to Invite Delegations From Other Bodies to Convention

PORT ARTHUR, July 5. — The question of amalgamation of the various veterans' organizations of Canada was the principal and practically the only question under discussion at this forenoon's session of the G. W. V. A. executive conference.

After a somewhat extended debate, a resolution was passed whereby all known organizations of ex-service men will be invited to send delegations to the next annual convention of the Great War Veterans' Association, with assurances that they will be free to attend sessions and deliver addresses.

Another resolution set forth the G. W. V. A. idea of the necessary qualifications for any organization of ex-soldiers designed to be of service to members, and expressed the opinion that the G. W. V. A. was at present the foremost factor in aiding the returned men to solve the many problems before them. The Dominion executive was asked to do what it could finally to complete union of all returned men.

Among the matters under way is the preparation of a ritual of a semi-fraternal and military nature for use in meetings. The possibility of insurance benefits being connected therewith is being canvassed.

The choice of Port Arthur for the annual convention, which was postponed, having originally been set for this city, has to be confirmed.

The officers and representatives yesterday unanimously recorded their pride in and appreciation of the appointment of Lord Byng of Vimy as Governor-General of Canada, and expressed a wish that he will honor the Great War Veterans by accepting honorary membership in the organization.

The resolution further expressed the hope that Lord Byng may be able to visit the G. W. V. A. in annual convention in September.

EXPLORER AMUNDSEN ARRIVES AT SEATTLE

SEATTLE, July 5.—To live in Seattle for nearly a year while getting ready for another daring effort to drift to the North Pole with the ice pack, Captain Roald Amundsen, discoverer of the South Pole, conqueror of the Northwest Passage and the first man in history to circumnavigate the globe inside the Arctic Circle, arrived here from Nome, Alaska, on the steamer Victoria last night. Later in the Summer he will have his auxiliary-powered schooner Maud towed to Seattle to be equipped with a new propellor and to be outfitted for another attempt to drift to the Pole.

The famous explorer will leave Seattle in the Maud next June.

Discussing his plans, Capt. Amundsen seemed as convinced of the existence of an ocean current flowing from Siberia to Greenland as when, in 1913, he sailed north from Norway aboard the Maud and disappeared into the Arctic silence. He said he still considered entirely feasible his project to drift across the Pole on this supposed current. He expects to remain in this country a year, he explained, before proceeding with his voyage.

BELGIAN ROYALTIES GUESTS OF LONDON

LONDON, July 5.—King Albert and Queen Elizabeth of Belgium, amid pre-war splendor and old order ceremony, in the historic Guildhall, today received an address of welcome from the City Corporation.

Afterwards they were given a luncheon in the great hall, a large and distinguished gathering including the Duke of York, the Duke of Connaught, the Belgian Ambassador and members of the British Cabinet being present.

The journey from Buckingham Palace to the Guildhall was made in semi-state through cheering crowds.

SYSTEM OF AIRWAYS PLANNED IN STATES

WASHINGTON, July 5.—A system of model airways, covering the entire continent, is planned by the Army Air Service for the use of all operators or owners of aircraft. It contemplates various chains of well-organized landing fields, supplemented by frequent emergency fields and identification markers connecting the principal cities.

Because of the lack of Federal appropriations, Air Service officers said today it was their purpose to appeal to the chambers of commerce, aerial clubs and civic organizations to assist in creation of the airways.

The plan calls for the first of the model airways between Washington and Dayton, Ohio, with five main stations and twenty emergency fields.

FEAR DISORDERS AROUND TAMPICO

War Vessels Are Sent for Protection of U.S. Interests—Closing Down of Operations Leaves Many Idle

WASHINGTON, July 5. — The cruiser Cleveland and the gunboat Sacramento have been ordered to Tampico, Mex., to protect American interests in the event that they are jeopardized because of labor troubles growing out of the unemployment situation, it was said today at the Navy Department.

The Sacramento should reach Tampico today from Galveston. The Cleveland was ordered from Cristobal, Canal Zone, and probably will not reach Tampico before Thursday. Both vessels are assigned to the American special service squadron in South and Central American waters, Rear Admiral H. F. Bryan commanding.

It was explained at the Navy Department that unemployment had been constantly increasing in and around Tampico because of depression in the oil industry there due to the new tax system, and that incipient riots and increasing labor troubles had resulted in a decision to send the two warships to the Mexican port to protect American interests.

It was said, however, that the vessels would take no action unless a more serious situation arose.

Information had reached the Navy Department that oil companies at Tampico were to suspend shipments of oil June 30 and that this would result in throwing a great many persons out of employment, Secretary Denny said. In view of these reports, he added, it was thought best to order the Sacramento and the Cleveland to the scene, to protect, if necessary, Americans and commercial interests in and around Tampico. The action was taken by the Navy Department independently, the Secretary said, and had no international significance.

Suspending Operations

MEXICO CITY, July 5.—Oil companies which have closed down operations in the states of Tamaulipas and Vera Cruz "without sufficient justification" are expected to pay indemnification to employees thrown out of work in a decree issued by President Obregon last night.

Reports from the Tampico districts indicate there has been a marked cessation of work during the past week, especially among American concerns.

Reports from the Vera Cruz fields indicate that British companies are speeding up operations instead of decreasing their working forces. At Puerto Lobos, where pipe line terminals are operated by Americans, work has been closed down. Coincident with reports of this situation come dispatches from the state of Tabasco, farther south, that several oil gushers have been discovered there within the past few days, and that the field gives indication of being very rich.

JAPANESE DESIRE LIMIT ON ARMAMENT

TOKIO, July 5.—Yukio Ozaki, former Minister of Justice, declared today that if the United States proposed a conference on limitation of armaments it would meet with an eager response throughout Japan.

At the end of a speaking tour of all important cities, from Kyushu, in the farthest south, to Hokkaido, in the farthest north, addressing more than 100,000 persons at 100 meetings, at which postcards were distributed so that his hearers could vote freely on disarmament, he said the final results on the returns from these cards showed that ninety-four per cent favored limitation.

EXPLOSION CAUSES DEATHS AND INJURIES

CHICAGO, July 5.—Eight men are dead today, 56 others are injured, 13 so seriously that they may die, and property damage is unofficially estimated at $2,000,000, as the result of yesterday's explosion in the Standard Oil Company's refining plant at Whiting, Ind.

The huge steel stills burst, the brick walls enclosing them rumbled and a sheet of burning oil and gas spread for a radius of 200 yards, trapping the night force. Five men were burned to death, three died later in Chicago hospitals, and the condition of ten others is serious.

Most of those injured were caught in the shower of flame, but others were struck by the falling brick and steel walls of the stills. Excessive pressure or a leak of gas were the two probable causes of the explosion advanced by those familiar with the operation of the stills, which are filled with crude oil under pressure in the manufacture of gasoline. Had the explosion occurred half an hour later the day force of forty men would have been at work.

MR. ALEXANDER FAULDS DROWNS IN RESERVOIR

VANCOUVER, July 5.—Mr. Alexander Faulds, 70 years old, prominent British Columbia mining engineer, was found dead in the relief reservoir at Stanley Park. The body was found floating in the water.

According to the authorities, Mr. Faulds left his home yesterday morning for a walk. It is believed that he waded into the water at Stanley Park, suddenly became dizzy, toppled over and was drowned. He was said to have been suffering from high blood pressure for a number of years.

Mr. Faulds was born at Glasgow, Scotland, in 1851, coming to British Columbia in 1899, after many years' mining work in the East. He was appointed inspector of mines for the Province in 1904, and was prominent in civic work since his arrival here.

In 1905 he investigated the Fernie explosion for the Canadian Government.

MADAME GUERIN ASKS GENERAL "POPPY DAY"

PORT ARTHUR, Ont., July 4.—Madame Anna Guerin, who is called the "Poppy Lady of France," is in Port Arthur today to ask the Dominion executive of the G.W.V.A. for co-operation in making Armistice Day "Poppy Day" throughout Canada. Silken poppies made by the women and children of France will be sold from the Atlantic to the Pacific Ocean on that day, and the proceeds would benefit the 450,000 children in devastated areas of France and the veterans of Canada. She hopes to make it an annual event.

Madame Guerin, in an interview at noon today, said that the movement was inspired by Col. John McCrae's poem:

"In Flanders fields the poppies blow.
Between the crosses, row on row—"

The verses in translated form are read in every school of France. On Armistice Day, when red poppies will be distributed throughout Canada, French children will lay poppy wreaths on the graves in France of 55,000 Canadians.

UNABLE TO CONTINUE AGRICULTURE SUBSIDY

LONDON, July 4.—The serious state of England's finances was emphasized in the House of Commons tonight, when Sir Arthur Griffith-Boscawen, President of the Board of Agriculture, and Sir Robert Stevenson Horne, Chancellor of the Exchequer, admitted the impossibility of continuing the agriculture subsidy.

Both said the Government had decided it must get rid of every vestige of the war policy of control and subsidies. The Chancellor said it was impossible to continue an expenditure of this kind with the other colossal commitments.

The Agriculture Act guaranteed minimum prices to the farmer for his produce and was estimated to entail a subsidy amounting to from twenty million pounds to thirty million pounds yearly.

OTTAWA, July 4.—Sir George Foster, acting Premier, who has been away for a week's vacation, returned to Ottawa last night, and was at his desk this morning.

GENERAL SMUTS GOES TO DUBLIN

Holds Conferences With Prominent Irish Leaders Concerning Peace in Ireland—Earl Midleton Consults Premier

DUBLIN, July 5.—General Jan C. Smuts, the South African Premier, arrived in Dublin this morning and is the guest of the Lord Mayor here.

The welcoming delegation, including the Lord Mayor, Arthur Griffith, founder of the Sinn Fein, and B. C. Barton, Sinn Fein member of Parliament for Wicklow, awaited Gen. Smuts at Kingstown, expecting to meet him there and escort him to Dublin. Through some slip, however, they missed the General, and he motored to Dublin unnoticed.

LONDON, July 5.—Conferences were under way in Dublin today between General Jan Christian Smuts, the South African Premier, and prominent Irish leaders, says a dispatch to The Evening News from Dublin this afternoon. General Smuts, who arrived in Dublin during the morning, conversed with Lord Mayor O'Neill and afterward with Eamonn de Valera, the republican leader, and Arthur Griffith, founder of the Sinn Fein, and a member of de Valera's cabinet, the message stated

Entertaining Hope

The Dublin conference was the outstanding feature in London newspapers this morning, nearly all treating it sympathetically and expressing hope that it would lead to peace in Ireland. Comment on the meeting, however, was not devoid of remarks that the conference did not affect the progress of the Sinn Fein guerilla warfare on crown forces there.

An exception to the general trend of hopefulness was found in the editorial comment by The Morning Post, which opposed any concession to the Irish Republicans. It began its editorials by criticising the Government's attitude of "eating dirt."

Great interest was manifested in the mission of General Smuts to Ireland, there being a difference of opinion whether it was prompted by the Government or undertaken at the invitation of Irish leaders. Sir James Craig, Premier of Ulster, left Belfast for London today, and it is pointed out he will have abundant time to confer with members of the Government and others whom he may desire to consult, pending a decision by Eamonn de Valera respecting the proposed conference of Irish leaders with Lloyd George.

Lord Midleton in London

Lord Midleton, one of the four Southern Unionists who took part in yesterday's conference at Dublin, arrived in England last night, and it is assumed that he intends to confer with parliamentarians here during the interval before the resumption of the Dublin conference on Friday.

Earl Midleton, when interviewed at Holyhead, declined to talk of the proceedings of the conference, saying the conferees had agreed to say nothing for publication at present, and adding that as far as he personally was concerned, he would say there was no reason to be dissatisfied with the progress made. He reiterated the statement issued at Dublin last night to the effect that certain decisions had been reached, but refused to indicate anything regarding their character.

Curtailing Provocative Acts

LONDON, July 5.—Conferences between Prime Minister Lloyd George, Earl Midleton, Southern Unionist, who conferred in Dublin with Eamonn de Valera, the Irish republican leader, on Monday, and Sir James Craig, the Ulster Premier, and the arrival of General J. C. Smuts, the South African Premier, in Dublin, were the developments today in the Irish situation.

Well-informed circles in London are hopeful that the conference between Mr. de Valera and the Southern Unionists may presage a tacit cessation of provocative acts by the crown forces and Irish republican army pending the outcome of Mr. Lloyd George's effort to bring Mr. da Valera and Sir James Craig together in a conference here.

On the Government side word has gone forth that raids are to be confined to those on premises where there is good reason to believe that munitions are stored, the orders directing that in case of doubt decision as to whether a raid is to be made shall be left to "higher authority"; in other words, to the Dublin Castle authorities. There is no reciprocal act from the Irish republican army chiefs so far as the Government has been advised, but the impression prevails that both sides are disposed not to embarrass the possibility of peace by an aggressive act.

BRITAIN WILL ISSUE NEW TREASURY BONDS

LONDON, July 5.—Sir Robert Horne, Chancellor of the Exchequer, announced in the House today that he had decided to offer for subscription an issue of 5 1-2 per cent treasury bonds maturing April 1, 1929, with the price of issue fixed at 97.

Prospectuses, the Chancellor said, would be issued July 11. No definite amount for the loan would be specified, he said.

GIRLS! LEMONS

BLEACH SKIN WHITE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly notice the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

(Advt.)

PIPERS OF 72ND WIN AT SEATTLE

Vancouver Men Will Hold the Blethen Cup for Coming Year — Large Crowd of Scots Gather for Games

SEATTLE, July 5.—In the competition of the five crack kilted bagpipe bands for the Blethen $1,000 trophy cup, the 72nd Seaforth Highlanders' Band, of Vancouver, B. C., was declared the winner. The bands marched back and forth on the field, playing two-part marches three times over, or three-part marches twice over, finishing with strathspey and reel.

In addition to the Seaforth Highlanders' Band, the other contestants were the Clan McLean Band, Vancouver, B. C.; Police Band, Vancouver, B. C.; Veterans of France Band, Victoria, B. C.; and the Rainier Noble Post Band, Seattle.

Virtually every piper is a veteran of more than one war, and many of them wear an array of medals for gallantry. The Seaforth Highlanders' Band will hold the Blethen trophy until next June 1.

At the conclusion of the contest the five bands were assembled, with the Seaforth Highlanders in the lead, and marched around the stadium track as a finale to the pipe band exhibition. The massed effect of the pipe and drum music was magnificent, bringing the huge crowd to its feet as a tremendous wave of applause swept around the vast enclosure.

As many clansmen as ever peopled a Sir Walter Scott novel danced and piped and ran their races at Denny Field University campus yesterday afternoon.

The Caledonian Society, Inc., of Seattle, organized the games in conjunction with the American Legion Committee and a large Scottish representation from Canada was in attendance. The grandstand was well filled, by far the larger number of spectators being Scottish.

The programme of sports was divided into dancing and piping contests, races of various kinds and the usual field events. In the piping and dancing contests, Canadian Scots were conspicuous as prize winners.

All of the dancing was in costume, and the contestants vied heartily with each other. In nearly every dancing and piping event there were large numbers of entrants.

The freak races were well received, the Highlanders in the audience applauding with quite evident glee the efforts of girls to carry eggs in spoons while running at breakneck speed, and of fat men with their legs bound together struggling in a kind of syncopation. The bag races and needle and thread race also caused amusement.

But the real contests were the dance and bagpipe contests. In the latter, the open competition was won by A. MacKinnon, with A. Macindewar second and A. Johnson third. They were all of Vancouver, B. C.

The last piping event, the amateur competition, was won by J. E. Mathewson, Bob Gairns and Duncan Macfarland, the latter a small boy with a small but conspicuous bagpipe.

The judges of the dances were Robert Johnston, Seattle golf club; Alec McMillan, Vancouver, B. C.; and J. G. Nicholson, Victoria, B. C.

Winners of the dances were awarded gold, silver and bronze medals, while the pipers were awarded cash prizes of $15, $10 and $5, except in the amateur contest, where medals were awarded.

The Skinner and Eddy challenge cup was given to the Vancouver, B. C., team by the default of the Seattle defenders.

U.S. AMBASSADOR TALKS IN LONDON

Col. Harvey Corrects Misapprehensions Which He Finds Existing—Lord Lee of Fareham Suggests Conference

LONDON, July 5. — Diplomatic representatives of more than thirty foreign governments were guests last night at the annual Independence Day dinner of the American Society of London. Ambassador Harvey was the guest of honor.

Lord Lee, of Fareham, First Lord of the Admiralty, toasting the guest, referred to Mr. Harvey as "a foreign envoy to whom the mumble of diplomacy had not been obstructive." He said Britain and America could expect from him "open and frank comment upon Anglo-American relations."

Referring in his reply to the revolt of the American colonies, Ambassador Harvey declared:

"Whether the territory comprising the United States could have been retained is wholly speculative. But one fact is certain—if George III. had issued a proclamation even approximating in eloquent sincerity and appealing force that uttered the other day by George V. in his faithful endeavor to reconcile a nation, there would have been no ringing of bells in Philadelphia 145 years ago this night, nor for many years thereafter."

Two Misapprehensions

Ambassador Harvey declared the mutual helpfulness which all desired could not be realized until two grave misapprehensions had been removed, one of which pervaded Europe respecting the United States, and the other of which permeated the United States as to Europe.

"I find in Europe the common impression that the United States, alone among the nations of the world, is today a land of milk and honey, whose people not only are universally prosperous, though reclacitrantly discontented, but are rich beyond the traditional dreams of avarice.

"What are the facts? Did the United States really profit from the war to such a degree as to make the lives she sacrificed seem to the cynical and sordid mind relatively insufficient?"

Ambassador Harvey proceeded to cite the tremendously increased national debt, the congressional appropriations for 1930, and the heavy income taxation. He added:

"In dollars, the cost to America of her participation in the war, when finally computed, will fall not so very far short of the entire indemnity upon Germany. I make no comparisons. There has been too much of that already.

Burdens for U. S.

"Nothing could be further from my thought or more repellant to the instinct of any American than to measure money against men," he went on. "My sole purpose is to win fair consideration from any who may have overlooked the fact that the United States, along with Europe, has her full share of material burdens to bear for scores of years, in addition to her grief at the incalculably greater loss of those who perished in the service of their country.

"The second misapprehension to which I referred, is that of my own countrymen, who have been led to doubt that the peoples of Europe have been doing the utmost for themselves before seeking help," he continued. "I have to confess that before I left home I held somewhat to that surmise myself. I do so no longer. The past two months I have not heard one complaining word nor received a single request for benefaction. It is not charity, but opportunity, they crave.

"Gladly I pay the highest tribute to the courage and pride of these sorely smitten people. Already the better understanding between Great Britain and the United States has achieved one far-reaching result. For the first time in history the turbulent Atlantic has become as a millpond and has practically been eliminated from considerations of danger so far as naval warfare is concerned. There is ground for good hope, moreover, that whatever apprehensions exist of perilous possibilities on the Pacific may be dispelled sooner than is commonly anticipated."

For Armaments Conference

Lord Lee virtually invited President Harding to call a conference between the United States, Great Britain and Japan on limitation of armaments.

"Great Britain has said she is ready for such a conference; Japan has said she is ready, too. All that remains is for someone to name the time and the place, and I hope the American Ambassador does not accept the statement as too broad a hint," said Lord Lee.

"The situation in the Pacific is one of the greatest portent and brooks no delay," he continued.

"Officials of three nations have expressed themselves in favor of such a conference. The press and people are clamoring for it, but nothing happens. It seems to me we are all dressed up, but don't know where to go."

THE NAVAL QUESTION

Naval defence is now occupying the attention of the Imperial Conference, and about this, as concerning the renewal of the Anglo-Japanese Alliance, differences of opinion have arisen. This question of naval defence should be approached from the viewpoint that, so far as it is a subject with which an Imperial Conference can deal, it has been hanging fire for fifteen years. Premier Meighen's standpoint is that the international situation should be cleared before the question of defence should be taken up, but that is advocating a postponement which may be of indefinite duration. It is only possible to speculate on what is meant by a "cleared up international situation." It would involve Russia again becoming one of a comity of nations, and animosities against Germany having completely died away in all corners of the world. It would involve both Russia and Germany becoming partners in the League of Nations. A similar partnership must be devised for the United States if there is to be any clear outlook in the international situation. Peace must be fully restored in the cockpit of the Near East, and Bolshevism must end if there is to be security against aggression. The warring factions in China must be brought into harmony, and such questions as the future of Mesopotamia, Armenia, Syria, and Germany's former colonial empire, must be finally settled.

Premier Meighen cannot entertain any substantial hope that the problems alluded to are capable of being solved within the next few years. The Great War has left legacies of trouble which will be inherited by generations yet unborn. Our whole experience of men and events gives no promise that there will be a clearance up in the international situation for a long time to come, and, indeed, perhaps it is as clear today as it will be during the next decade. The Dominions are expecting to be given a new status in the imperial domain, but to have full justice on their side in any claim they make in this regard they should be prepared to show that they are willing to bear their share of the responsibilities of Empire. Spoilt children in the commonwealth of nations, which enjoye freedom undar the British flag, will only prove a source of weakness. Canada's status will be finally decided by her willingness, or the reverse, to take over her proportionate share of imperial defence. The time has passed by when there can be any further postponement without more loss of self-respect than there has ever been in the past. The argument put forward that some conclusion affecting policy should be awaited from the naval experts is not very forceful, inasmuch as navel policy is in a continuous state of transition, although there are essentials connected therewith to meet strategic considerations that remain unchangad.

Adsquate contribution to defence by the Dominions, or by some of them, is long overdue. Canada, particularly, has lagged behind, although her spokesmen have been the most vociferous in outlining her new status in the British commonwealth. That status will be little more than a mere definition unless it is accompanied by a permanent policy designed to give effect to the country's desire to take up its full share in imperial responsibilities. That, and nothing less, will make this Dominion self-respecting, as well as enjoying the respect of other countries. Another postponement of consideration of the subject of naval defence will injure the prestige of this Dominion, and will convey an impression to the world that there is a tendency among our people to shirk what should be legitimate duties.

TAXATION ON LAND

The Municipal Act, as it now stands, says that land, and presumeably that means all kinds of lands, shall be assessed at its "actual value." Every time an assessment roll is compiled, in practically every municipality within the Province, this provision dealing with "actual value" is ignored and land is assessed mainly on the basis of a municipality's financial requirements. Land has to bear the burden of providing, not alone for administrative requirements, but also has to bear the sinking fund and interest of municipal indebtedness, and it is land alone in the cases of several municipalities which has to do this, not land plus improvements, or, in other words, the income-producing capacity of the land. The basis on which our municipal taxation system is devised has a tendency to inflate and exaggerate the value of land, and the anomaly of it all is that the Municipal Act says that assessment shall be based on the "actual value", a practice which is honored in the breach more than in the observance.

We maintain that there is a tendency to arrest progress in British Columbia by the manner in which land is assessed. Nowhere in the rest of the world would a condition be allowed to persist where land is reverting from private ownership to municipalities because those owners are unable to foot the taxation bills. This state of affairs means that there is less and less land available for taxation purposes, and no new source of taxation, worth while, has been found to make up the deficiency. During the present year the municipalities of this Province need a sum in the neighborhood of $16,000,000 to meet all so-called municipal requirements. It is well within the range of possibility that not much over $12,000,000 will be collected. It is sought to make the land bear a burden which it cannot sustain, and since all productive values come from the land, progress is being proportionately stifled. This applies to both city lots and agricultural lands within municipalities, and, so far as the latter are concerned, their assessed values have, in some instances, been shot up to fantastic figures.

The Provincial Legislature at its Autumn session has a belated duty to perform to the dwellers within municipalities in British Columbia. Through its inaction it has allowed taxation conditions to reach an impasse which has been seriously detrimental to the welfare of the Province. The Government is finding that the people are experiencing great difficulty in paying their taxes on lands acquired from the Province. It is finding trouble in collecting the income and personal property taxes, because the people are burdened in so many other ways. It is curtailing its public works programme because of the falling off in tax collections. This should be a warning that the municipal financial situation is having a reflex action on every phase of taxation in the Province, and it should be an indication that the whole system should be revised. Whatever the Government may outline as a policy at the coming session it should revise the Municipal Act to the extent of defining what is meant by "actual value" in the assessment of lands. Land taxation is inequitable unless 95 per cent of the imposts levied can be collected. Until assessments are based on the actual value of land this will be impossible, and in any revision of the Municipal Act there should be a special clause dealing with the assessment of agricultural land which should be assessed at a figure which will work out for the benefit of the development of agriculture throughout the Province.

UNIVERSITY EXPENDITURE

Although the Provincial Government has the authority to borrow some millions of dollars for the purpose of erecting new buildings for the University of British Columbia at Point Grey, it should be chary about exercising it at this time of financial stress. It should be recollected in considering this expenditure, that it was not entirely in the interests of higher education that it was sanctioned. The Loan Act was passed by the Legislature, just as much because of the clamors of Vancouver interests as because of any conclusive arguments to the effect that university work could not be carried on without the erection of colleges. No one disputes the value of university education, although there are very many who disagree with the principle that it should be state controlled. Since it is state controlled, and since the University of B.C. has no endowment save that granted by the people of this Province in their political capacity, there is all the more reason why the utmost care should be exercised to see that expenditure is not allowed to overlap the benefits which are being derived from higher education. At a time when the Provincial budget provides for a larger expenditure than ever before in the history of British Columbia there is all the greater need to exercise caution over any new capital outlays.

The Provincial Government, if it is persuaded that it has given an adequate endowment to the university in the Point Grey lands, should, if the need for new buildings is so vital, set about translating these lands into cash instead of putting a new burden of debt on the Province. Not a word of objection was raised to the endowment policy, but we are very certain that the people believed that the university could be built and maintained by the sale of these lands and not through new and ever increasing demands on the public purse. When the value of higher education, as devised and conducted through state control in this Province, has been amply demonstrated through higher standards in public life, through industrial development and through evidences of the community growing more cultured all the time, then there may be a different attitude displayed by the taxpayers, but now, outside certain interests in Vancouver, there are but few people who believe that the Provincial debt should be increased for the erection of buildings on the Point Grey site of the university.

The whole question of university extensions should be left over until the coming session of the Legislature, and, by putting the matter before that body, the Government can relieve itself of responsibility for a decision. An endowment is very little use for current purposes if its benefits are only prospective and problematical. The Point Grey lands have a saleable value now, and we do not think anything will be gained by carrying out any elaborate scheme of development so that their value may be enhanced before they are put on the market. Any such scheme would involve a large expenditure of the taxpayers' money, and probably mean new capital commitments. The true economic policy is to sell the lands now, as they are, and use the proceeds for university development. If this is done there can be no justifiable complaint from any quarter, and this method of making an endowment, something actual and of immediate value, will cause the people to realize that there is no desire to make the university a monetary incubus on the taxpaying public.

Nova Scotia Centenarian

SYDNEY, N.S., July 5.—News of the death of Mrs. George Debeck, aged 107, at Morpole, B.C., was received today with peculiar interest by Miss Margaret Mackinnon, also 107, of Grand Mira, C.B., who is now said to be the oldest living woman in Canada. Miss Mackinnon was born in Scotland in 1814

SCOTCHIE TALKS OF STRAWBERRY CROP

I dinna think I've sed yin wurd aboot the strawberry crop an' it's aboot time I wus drawin' attention tae tha fac' that this is a reeord yeer for them. Man, it maks yin's mouth water, tae think o' a' tha tone o' strawberries an' a' tha big pile o' sillar made oot o' them.

There's nae gettin' awa frae tha fac' that times are hard, an' folk are beginnin' to admeet that they are broke, dead broke, stoney broke. They tell us whin we want money tha country's broke. (It's maist prosperous if ye dinna want money.) There's guy few things arna broke if you ask for sillar. Tha banks are broke or goin' broke, even tha weather's broke. I dinna ken ony-thing that isna broke; I'm broke mysel. There's a soggestion tae stairt a jam factory, maybe I'm wrang, it's no a soggestion tee steirt yin, it's pointin' oot the nead o' yin. There's nae doot a factory run o' tha kin' o' creamery lines would be a gran' thing. You'll be wonderin' at me jumpin' frae strawberries tae fenance an' then onto a jam factory, but I'm gettin' there a' the time. I've got a gran' idee an' I dinna wush tae burst it on ye too sudden like. Here's my idee.

Folk are broke an' canna buy sugar, fruit or seeders, but they hee pots, an' a bit fire goin.' They canna mak jam for themselves; whit's tae hinner tha Governmint or tha toon, or some society, or even tha wholesalers cummin forward an' landin' fruit, sugar an' sealers tae mak jam at home? Tha labor an' frin' tae be paid for oot o' tha jam made, this way, say twa pots kept oot o' every dozen; or even yin pot kept an' tha rest returned tae the lender. Tha society, or whativer it is, wud hae a guid manufactured article, an' tha folks wha made tha jam wud hae a few pots for themselves. Encourage hame endustry that's whit it would dae, an' tha factory would cum alang as weel an' nane tha waur o' a few guid jam makers frae tha amateurs on the loan system.

I'd better gang awa an' hide for tha women folk wull be sayin' I'm makin' mair wark for them tae dae.

Cowichan Regatta and Wharf

Sir,—This wharf is condemned. The Provincial Government will not be responsible for any accidents."

Such is the printed notice on the rotten old Cowichan Bay wharf where the Island Princess dumped her passengers on Dominion Day, to get ashore as best they could to see the regatta. The passengers walked along the wharf thinking, of course, that they could get ashore, only to find a plank laid across where a great gap occurred, and could get no further. Nonplussed and looking around to see what to do next, and no effort being made by the company to get its passengers ashore, they simply looked around, and finally two or three small boats did their best to get the crowd ashore. Thanks are due to three American bluejackets, who, in their cutter, came to the assistance of quite a number. When they did get a landing, it was no easy matter for women and children to get up a boat's slipway to the road above. I saw one woman get a nasty knock on the head when she struck an iron bar that crossed the gangway. The gale that sprank up about the time the passengers had to get back on board made it extremely difficult for small boats to make a landing and many had narrow escapes.

That a responsible shipping company should land its passengers on a rotten wharf condemned by the Government is most reprehensible, and it is more by luck than good menagement that the C. P. R. is not facing claims for substantial damages.

GEORGE M. WATT.

1308 Dallas Road, Victoria, B. C., July 2, 1921.

SEEKS NATURALIZATION

German Applies to Judge Lampman for Right to Style Himself Citizen of This Country

Two naturalisation applications, one of them that of a man born in Germany, the other that of an Armenian who served in the Canadian forces overseas in the Great War, were heard by His Honor Judge Lampman, sitting in County Court Chambers yesterday.

Frank Hein said that he was a logger, working at the present time for the Nitinat Logging Company, Clo-oose, B. C. He had made his headquarters in Victoria for the last five years. He came to this country from Seattle in May, 1908. He was born in the city of Herne, Boghum, Westphalia, Germany, on October 16, 1883.

Mahran Yardumian testified that he came to Canada from the United States in 1916. He was born in May, 1897, at Camak, Armenia. He was an Armenian by birth and race. He enlisted with the 143rd Battalion, C. E. F., in this city, and served in France with the 72nd Battalion. Mr. R. A. McIntyre, secretary of the Veterans of France, and Mr. Fred G. Honey gave evidence as to the good character of the applicant.

The applications, together with the recommendations of the learned judge, will be forwarded to the Minister of Justice for final consideration.

FIFTY YEARS AGO TODAY

(From The British Colonist of July 6, 1871.)

Founding of Nanaimo.—A new townsite has been laid out at the Forks of the Shenna called Nanaimo. All the lots have been taken up and buildings are going up rapidly. Messrs. Cunningham and Hankin have put up a large store and spacious warehouse. This town is at the head of navigation on the Shenna and is at the terminus of the Shenna and Nanaimo trail. It is expected it will be a place of considerable importance.

Ecclesiastical Union.—The Synod of the Presbyterian Church of Canada, in connection with the Established Kirk of Scotland, was in session at Toronto when the last mail left. Amongst the most important subjects engaging the attention of the Synod was that of a union of all the Presbyterian Churches throughout the Dominion of Canada. A joint committee appointed last year for the purpose reported a basis of union under the denomination of "The Presbyterian Church of British North America."

FLAMES SWEEP ONTARIO WOODS

Large Territory in North Is Covered by Forest Fires — Great Destruction, Threatened If Rain Fails

ENGLEHART, Ont., July 5.—Many small forest fires are raging along the line of the Temiskaming and Northern Ontario Railway, and unless rain comes quickly to extinguish them, there is grave fear that the whole of North Ontario will be wrapped in a great conflagration.

Great clouds of smoke lie over the land, and it is impossible to present an estimate of the extent of the fire area. Big fires have been located about 20 miles east of Cochrane, in the vicinity of the lower Abitibi Lake, and there is another large blaze west of the railway, near the Montreal River, and reaching up to a point between Thornloe and Uno Park. A great deal of valuable timber is being destroyed. The whole north country is praying for rain.

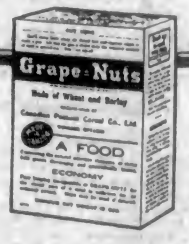

COBALT, July 5.—Continental train No. 22, southbound on the tracks of the Temiskaming and Northern Ontario and Canadian National Railways, was two and a half hours late reaching here last night, the delay being caused by the spread of a forest fire to some pulpwood and freight cars on a siding at Hearst Station.

Forest fires north of Englehart are being aggravated by the excessive heat, which yesterday reached a record in the north for the last 28 years, the official temperature readings at Haileybury showing a maximum of 102.2, the nearest approach to this temperature having been on July 2, 1910, when the thermometer read 101. The bush in these sections is literally withering under the heat, and nothing more than a slight wind will be necessary to fan the fires into a forest conflagration of serious consequences.

Talks of World Revolution

RIGA, July 5.—The Congress of the Third Internationale, meeting in Moscow, was urged yesterday by Earl Radek, Communist leader, to maintain unceasing efforts aimed at world revolution, says a wireless dispatch from the Soviet capital. "Our motto it to extract the utmost out of every situation and be ready not only to fight, but to teach to fight," he declared.

MINERAL OUTPUT IN B.C. SHOWS INCREASE

Value of Product in 1920 Over Two Millions in Excess of That for Previous Year — Industry Well Maintained

British Columbia produced in 1920 $36,543,084 of minerals.

According to the preliminary report of the Minister of Mines, Hon. William Sloan, tabled during the recent session of the Legislature, it was anticipated that the total output of the mines of the Province for last year would be $36,580,626, which shows the close check kept upon the output of the various mines throughout the Province by the Department.

There is a variation, however, in the value of the different minerals. For instance, it was expected that the value of the lode gold produced in 1920 would be $2,442,598, whereas the amount of lode gold recovered in the past year was $2,481,392. Placer gold produced amounted to $221,600; silver, $3,325,980; copper, $7,832,899; lead, $2,816,115; zinc, $3,077,979; coal, $12,975,625; coke, $474,544, and miscellaneous products, $2,426,950.

Taken by districts, the Coast section led all the rest. This included Nanaimo, Clayoquot, Alberni, Victoria and Vancouver. Second on the list was East Kootenay, with Cassiar third, West Kootenay fourth, Yale-Boundary fifth, and Cariboo sixth.

Shows Increase

Summarizing his report, Hon. Mr. Sloan shows that last year the Provincial output of minerals exceeded the previous year by $2,246,771. In 1918 the output was one of the greatest in the history of the Province, totalling $41,782,474. However, during that year, the miners and owners of smelters and concentrators received the highest prices in the history of mining in British Columbia.

The report continues:

"It is extremely gratifying that British Columbia's mining industry has been so well maintained, notwithstanding the fluctuating metal market, and despite generally unsettled conditions, that it is possible to report an increase in 1920 over the value of the production of 1919.

"It is to be remembered, too, that other mineral-producing sections of America have of late been announcing reductions in mineral output, a fact which emphasizes the very satisfactory showing of this Province.

"The gold production of the Province for the year 1920 amounted in value to $2,702,992, a decrease from the preceding year of $734,153. This might have been expected, as the mining of gold, with its fixed value, has in these times of high cost of labor and supplies for some years past offered little encouragement, and even less at the beginning of this year, on the eve of what promised to be a period of unstable prices. With what is now an assured promise of lower costs of supplies and living, it would seem that gold mining would again become profitable, and we may confidently look for an increased gold production in the near future.

"With the other metals during the past couple of years it has been a battle of prices, of wild fluctuations in the market values of the metals, causing an uncertain market demand for ores, for smelters could not buy ores in the face of an impending drop in the market values of the contained metals and the subsequent loss.

Price Fluctuations

"To indicate how fluctuating the market has been, a chart has been prepared to accompany this report, which shows the monthly fluctuations of metal market prices from 1913 to date.

"It is quite apparent from the chart, that there has been a great drop from war days in all metal prices, but, for all this, it is to be noted that the market prices even at the end of the year are not lower than the normal pre-war prices, at which profitable mining was carried on.

"By the end of the year productive copper mining all over the American continent had been greatly curtailed, with many mines closed down entirely. This state of stagnation in the copper mining industry will prevail until the prices of the elements entering into and making up the costs of mining and treatment of ores are reduced, or when the market prices of the metals are raised, and with some assurance of continuance at such higher level.

"As to the first of these alternatives, there seems to be a tendency to a material reduction in price of the essential factors making up the mining costs, which will eventually so reduce the cost of mining as to permit of operations being again profitably carried on.

"As to the second alternative, a rise in metal prices, until these meet the cost of production, this is bound to come eventually when the world's markets again approach normal conditions, and when that will be depends upon how soon the world—particularly Europe, where our great market lies—settles down to pre-war industry and is able to buy our products.

"These conditions apply particularly to the larger and lower-grade mines, necessarily working on narrower margins per ton, rather than to the high-grade ores produced in smaller quantities and with wider margins between costs of production and selling prices.

"It will be noted that during the year 1920 the prices of all the metals were held up to a fair and uniform price during the first nine months of the year, and then, about the end of August, all metal prices simultaneously dropped about forty per cent to the present prices, which are unreasonably low and below the cost of production.

Collapse in Prices

"This sudden collapse of prices was not due to any condition of mining or of the metal market, but was the reflex action of industrial conditions the world over, entirely apart from the mining industry.

"It is reassuring to find, in the face of these untoward conditions, that nevertheless the metalliferous mines of the Province, as a whole, still made a production valued at $19,665,965, as compared with a production in 1919 of $20,036,998—a nominal decrease of only $371,033, equivalent to less than two per cent.

"The fluctuations of the market already referred to, have caused some strange anomalies; for instance, the quantity of copper produced in 1920 is greater than was produced in 1919, but the average yearly price of the metal was so much lower in 1920 that the value of the product of the metal is less than in 1919.

"The production of zinc under the existing conditions was unexpectedly large and is entirely due to the increased operations of the Consolidated Mining and Smelting Company at the company's Sullivan mine in East Kootenay.

"During the last half of the year, in other places there has been little or no market for zinc ore, and a very small volume of sales of the metal; several of the larger zinc mines and refineries in the United States closed down early in the Fall.

"The collieries of the Province have more than held their own this year, having made a net coal production of 2,595,126 tons, valued at $12,975,625, and 67,792 tons of coke, valued at $474,544. The total value of the colliery products for the year was $13,450,169.

"The net coal production for 1920 exceeds that of the previous year by 327,584 tons, and, as a matter of fact, it has only twice been equalled in quantity—i.e., in the years 1916 and 1912, when it was but slightly greater.

"The old adage that 'it's an ill whid that blows nobody good' is illustrated by the falling off of the California oil supply, thus causing a greatly increased demand for coal, particularly from the Coast collieries.

"There was no coke made by the Coast collieries this past year; the Crow's Nest Pass Colliery produced 67,792 tons, an increase over its last year's output.

Marked Progress

The progress of mining in the Pacific Province is shown by the figures included in the annual report. The value of the products of lode mines, including gold, silver, copper, lead and zinc, in 1920, was $19,444,-865. In 1858 the total was only $26,-547. On the other hand, in 1858, the output of placer gold amounted to $943,400, while last year it fell to less than one-quarter of that amount.

The increase in the production of coal is most marked. During all the years from 1836 to 1881 the total value of the coal produced was less than half that of 1920. And last year was the banner year of coal production in British Columbia, exceeding that of its nearest competitor, 1918, by nearly $1,500,000.

Coke production fell off badly. Last year showed the smallest production since 1911, and the second smallest production since 1901. This was due largely to the decreased demand for coke for smelting purposes.

Placer mining is confined, as a rule, to the newer districts of the Province; hence the Cariboo and Cassiar sections led all the rest. Ninety-five per cent of all placer gold came from these districts.

The outstanding feature in copper mining was the splendid showing of the Britannia Mine. While a slight decrease is shown in the total copper production for the year, this mine produced more copper in 1920 than in any previous year.

The Granby Company also showed an increase in its annual production, despite the fact that the low-grade mines at Phoenix and the smelter at Grand Forks were not operated. The Anyox plant accounted for the increase.

Dealing with the other minerals, the report continues:

Iron Prospects

"So far there has been no metallic iron produced in British Columbia, but it has been strongly advocated in many quarters that the conditions are favorable for the establishment of an iron smelting plant somewhere on the British Columbia coast. So far nothing definite has materialized, although there is apparently a prospect of such a plant being established. As is well known, there is on the Coast, in the aggregate, an adequate supply of magnetite iron ore, quite sufficiently free from impurities as to be within the 'Bessemer limit' to supply ore for such a plant.

"Further investigation of the Tasko limonite deposits was made during 1920 by a party sent out by the Department of Mines. The deposits were also examined in detail by Dr. J. D. MacKenzie, of the Geological Survey of Canada.

"The only shipment of iron ore made this past year was 220 tons from the Iron King at Alta Lake to Vancouver.

"The well known fact of the wide occurrence of platinum throughout the Province in connection with our placer-gold deposits gives reasonable hope that such may be found in payable quantities and justifies further investigations. As far as reports received indicate, the only output this year is about $400 worth from the Similkameen district."

At the Sullivan mine in East Kootenay some 4,300 tons of iron pyrites was mined and shipped to Trail.

The value of building materials during the year showed a total of $2,176,460, as compared with $1,148,-485 for the previous year. Approximately 90 per cent of this production came from the Coast district. Over 200 per cent more cement was produced in 1920 than in 1919.

Considering the market conditions and the general financial depression throughout the country, the Minister of Mines points with pride to the showing made by British Columbia in 1920.

Mrs. WAGNER of PALM BEACH

Tells Girls How She Found Relief From Pain

West Palm Beach, Fla.—"When I was 19 years old I was irregular and I had such terrible cramps it felt like a knife going through me. I took Lydia E. Pinkham's Vegetable Compound and I was well. After I was married I had the same trouble caused by the added work of farming and heavy washings so I told my husband to get six bottles of the Vegetable Compound and by taking it regularly my troubles ceased and now I never have a pain or ache, and am regular. I recommend Lydia E. Pinkham's Vegetable Compound and think every young girl should take it. You can publish this letter and it may be the means of helping some other girl or woman."—Mrs. MARY M. WAGNER, Box 760, West Palm Beach, Florida.

While no woman is entirely free from periodic suffering it does not seem to be the plan of nature that woman should suffer so severely and when pain exists something is wrong which should be set right. Every girl who suffers from monthly cramps should give Lydia E. Pinkham's Vegetable Compound a fair trial.

TRUSTEES TO HEAR RESULTS OF PROBE

Report of Investigators Into High School Conditions Will Go Before Board Tonight—To Make Appointments

The findings of the investigators appointed by the Council of Public Instruction under Hon. J. D. MacLean, Minister of Education, relating to administration conditions at the Victoria High School will be before the School Board tonight.

A special meeting has been called to consider the report of the investigation, which was held as a result of the complaint of the "Committee of Twenty-nine" teachers at the High School, that conditions under which the school was being conducted were capable of material improvement. The report, in a sealed envelope, was guarded yesterday at the School Board offices by Secretary W. F. C. Pope.

The probe was carried on by Mr. D. L. McLaurin, principal of the Victoria Normal School, and Mr. R. Ferguson, principal of King Edward High School, Vancouver, and the strictest secrecy surrounded the proceedings. For that reason special interest is attached to tonight's meeting, when the result of the inquiry will be made known for the first time.

Several appointments are to be made tonight in addition to the other business. A new principal must be appointed for the Boys' Central School as a result of the departure of Mr. J. A. Cunningham for Toronto, where he will complete his degree at Queen's University. There are six or eight vacancies to be filled in the city's graded schools, and three at the High School.

Appointment of a municipal inspector to take the post vacated by Lieutenant-Colonel W. N. Winsby several weeks ago will be made at the regular meeting next week. Several applications are already in.

DESCRIBES HUGE PROSPERITY PLAN

Mr. Arthur Lineham Tells Kiwanians About Scheme Evolved as Result of Trip to New Zealand

The plan by which Mr. Arthur Lineham believes this Province can be become more prosperous through the influx of tourists was outlined by him before the Kiwanis Club yesterday at the weekly luncheon in the Dominion Hotel. He has already given the same talk before several other organizations in the city.

Fresh from a trip to New Zealand, Mr. Lineham spoke of a development scheme which he had evolved as the result of his visit there. British Columbia he declared, was trying to develop along wrong lines. So much attention had been paid to lumbering, fishing and mining, while the biggest asset, that of scenery, had not been given its proper place. The scenery of British Columbia was excelled nowhere in the world. The development of a greater tourist trade in British Columbia was a Government work. A commission should be appointed by the Provincial authorities to supervise the spending of a fund set aside for the purpose of increasing the tourist traffic. One hundred thousand dollars should be the sum voted for the first year, this amount to be used for publicity purposes. Tourist bureaus should be opened at the principal British Columbia points. Transportation companies should be willing to accept Government coupons, which would be issued to travelers. This was the system used in New Zealand.

It would be essential that the Government complete the interprovincial highway connecting British Columbia with Alberta. Hotels should also be established by it in the Strathcona and Jasper Parks, where roads and trails should be made. Camping places should also be established throughout the Province.

What Los Angeles has done in the way of development through tourists was told by Mr. Lineham. "We've got the goods. All we've got to do is to sell them," he declared.

FOREST FIRES SITUATION

General Favorable Weather Conditions Keep Down Number of Outbreaks in Province

Forty new forest fires were reported at various points throughout the Province during the past week, according to the weekly report by the forest branch of the Provincial Department of Lands. Conditions were, however, reported as generally safe, with showers at many points, though indications point to drier conditions. The number of fires reported increased from 241 to 281 for the season to date, an increase of sixteen per cent, with an increase in the cost of fighting fires of eighteen per cent.

In view of the fact that campers are leaving in increasing numbers for the woods, the Department urges that every care should be taken by them in lighting fires.

Conditions in the various districts are reported as follows: Cranbrook; 26 fires to date, with very warm weather, thunderstorms, high winds and local showers; Vernon, 25, cool, heavy rain; Nelson, 40, showery, all fires out; Kamloops, 43, heavy rains general, very cool; Vancouver, 56, cool, frequent showers, conditions good; Cariboo, 13, showery; Prince George, 41, all fires under control, conditions reasonably safe, with weather showery; Prince Rupert, 37, all fires out, showery.

APPLICANT NEED NOT LIVE IN CANADA

Amendments to Returned Soldiers' Insurance Act 1921 Published Through S.C.R.

The following amendments to the Returned Soldiers' Insurance Act, 1921, have been issued through the S. C. R.

A sum up to $1,000 may now be paid at death on any insurance issued under the Act. This means that a single policy for $500 or $1,000 is payable in full at death, if desired.

While the preferred beneficiary is still as before it is permissible to name an alternate beneficiary. That means that while a single man must name his "future wife" as the preferred beneficiary, he may name an alternate beneficiary, who will receive the money if the policy-holder dies unmarried and without children. The alternate beneficiary must be an immediate relative.

Insurance premiums can now be deducted from pensions if desired. This will enable the insured to turn over his pension or a part of it monthly to pay for his insurance if he wishes to do so.

It is no longer required that the applicant for insurance be living in Canada, if he served with the Canadian Forces during the war. A policy may be obtained by the Canadian ex-soldier no matter where he is living at any time before September 1, 1922.

Up to the present the value of any pension awarded to the dependents of an ex-soldier has been deducted from insurance benefits, although it has sometimes occurred that the pension was paid to a person other than the beneficiary named in the policy.

The Act now provides that in cases where the policy-holder leaves surviving a wife who is not entitled to receive a pension on account of his death, the value of any pension that may be awarded to other relatives will not be deducted from the insurance benefits.

A Great Step Forward

The invention of the New Edison marked as great a forward step in sound reproduction as that of the steam engine did in transportation. To compare this marvelous instrument with out-of-date talking machines and other sound-reproducing devices which are still widely advertised, is as absurd as to pit a twelve-cylinder 1921 automobile against a stage coach. The New Edison Re-Creates—it does not merely imitate. And our famous tone tests prove this assertion.

A MESSAGE TO WOMEN!!

LET a woman ease your suffering. I want you to write, and let me tell you of my simple method of home treatment, send you ten days' free trial, postpaid, and put you in touch with women in Canada who will gladly tell what my method has done for them.

If you are troubled with weak, tired feelings, headache, backache, bearing down sensations, bladder weakness, constipation, catarrhal conditions, pain in the sides, regularly or irregularly, bloating, sense of falling or misplacement of internal organs, nervousness, desire to cry, palpitation, hot flashes, dark rings under the eyes, or a loss of interest in life, write to me today for free trial treatment.

Mrs. M. Summers, Box 21 Windsor, Ont.

City and District in Brief

Blaze in Dwelling—A small blaze at 851 Catherine Street yesterday morning called out the fire brigade. Little damage was done.

Flannel Dance—The Moose Tennis Club are holding a flannel dance at the Knights of Columbus Hall tomorrow evening.

Extend Thanks—The Ladies' Guild for Sailors wish to express their thanks to the Next-of-Kin Association for the gift of furniture presented to the Victoria Seamen's Institute.

St. Joseph's Alumnae—The Alumnae Association of St. Joseph's Hospital announce that there will be no meetings of their association during the months of July and August.

At Cadboro Bay—The Ladies of Court Triumph will make merry at Cadboro Bay this afternoon. Music, games and a surprise packet are some of the attractions provided.

Reports Money Stolen—Miss R. F. Smith, residing at 928 Collinson Street, reported to the police yesterday that while the family were moving on Friday last, $100 was stolen from her coat. The police are investigating.

Burglaries Reported—The detective department is investigating two burglaries which were yesterday reported as having been committed during Monday night. Some jewelry was purloined from one residence and $100 from a room, the property of the lodger therein.

Magistrate Returns to Bench—Magistrate Jay presided on the bench of the City Police Court yesterday, after an absence of ten days, during which he has been confined to his home by an attack of bronchitis. He intimated that a spell of real Summer weather would be a welcome ally in his fight against an old enemy.

Picnics Today—The Garden City Methodist Church will hold a picnic at Patricia Bay today, while the Bread and Cake Manufacturers will enjoy an outing at Deep Bay. A Country Fair will be held this afternoon at Mount Tolmie by the congregation of St. Aidan's Church.

Thief Gets Watch—While walking along Yates Street on Monday afternoon, Mr. O. Cameron was approached by an individual who, without warning, made a snatch at his watch chain and, securing the timepiece, made off. Cameron reported his loss to the police Monday evening.

Victoria Dramatic Society—The next fortnightly meeting of the Victoria Dramatic and Operatic Society will be held at 8:15 tonight at the Oak Bay Theatre. After the business meeting there will be an entertainment, the conveners for which are Major Prideaux, Mrs. Cantwell and Messrs. Buckle and Barry.

Veterans of France—The semi-annual meeting of the Veterans of France will be held in the clubrooms tomorrow night at 8 o'clock, preceded by a meeting of the executive at 7:15. The half-yearly election of officers will take place and other matters of importance will be discussed. All members are requested to be present.

Appointments Made—The Esquimalt Board of School Trustees have made the following appointments to fill vacancies upon their teaching staff: Mr. John K. Saunders, to be assistant principal of Lampson Street school; Mr. John S. Dee, Miss Irene M. Burns, Miss Edith Driver and Mr. Alex. Hutchison. The last three are residents of Esquimalt Municipality.

Congregational Garden Party—This afternoon and evening, at the residence of Mr. Bert Howell, 2064 Marion Street, kindly lent for the occasion, the Ladies' Aid of the Congregational Church is holding a garden party and sale of work and home-cooking. Various lawn games and a fish pond will provide amusement for the younger visitors, and there will be a musical programme in the evening.

Lutheran Garden Party—The Women's Aid Society of Grace Lutheran Church will hold a garden fete party on the church lawn, corner of Blanshard and Queen's Avenue, Friday, July 8, in the afternoon and evening. Many useful articles will be provided by the members and offered for sale. There will also be a stall of home cooking articles, candy and ice cream. Refreshments will be served during the afternoon and evening.

Drug Addict Sentenced—"You might as well sentence me to death as send me to prison, judge," said Lorne Pomeroy to Magistrate Jay in the City Police Court yesterday, when the magistrate sentenced him to serve three months in prison on a charge of being in possession of cocaine. The accused pleaded guilty, and said he was suffering from consumption, and used the drug to obtain relief from the effects of the disease. "Your case will be investigated at Okalla," said the magistrate.

Assault Charge Withdrawn—The remanded charge against Sergeant Malcolm Blackstock, of the City Police Force, of assaulting Sidney Petch at the Stadium baseball grounds last week, was withdrawn when the case came on for trial in the City Police Court yesterday. Mr. H. C. Hall, appearing for the complainant, said that an amicable adjustment of the trouble had been made, and his client desired to have the charge withdrawn. Mr. R. C. Lowe, appearing for the defence, consented to the proposal, and Magistrate Jay so ordered it.

Test Fuel Mileage—Messrs. Jameson & Willis, Limited, local distributors of Studebaker cars, are making a public test of the fuel mileage of the new Studebaker Light Six this afternoon. The car, after being supplied with a gallon of gasoline, will make a run around the Marine Drive, through Uplands, Gordon Head and Cordova Bay districts to Elk Lake and thence back over the Saanich Road until the fuel is exhausted. Considerable interest is being taken in this test by local motorists, and it is expected that a large number will turn out to watch the demonstration.

Successful Pupils—Among the pupils of Mrs. Bridges, of Sidney, who were successful in passing the elementary examinations of the Toronto Conservatory of Music were Florence Hambley, Adeline Crossley, Phyllis Whiting and V. Clanton. Florence Hambley and Adeline Crossley passed with second honors, and Mrs. Bridges has awarded each of them a medal for their good work. Owing to Mrs. Logan and family being away from home it is not known whether Lissie Logan was successful or not.

Girl Guides—The garden party held last Saturday afternoon by the 4th Florence Nightingale Company, in the grounds of the home of the company leader, Margaret Green, Foul Bay Road, was a very successful and popular event. Mrs. Bailey, the captain, received the guests on the lawn, and amongst those present were Misses Leighton, Hunter, Unwin, Cotton, company officers. The company officers desire to express their hearty thanks to the numerous friends who donated refreshments and articles for the jumble sale.

Kiwanis Picnic—The coming picnic to be held by the Kiwanians on July 18 at Deep Cove was considered at the weekly luncheon of the club in the Dominion Hotel yesterday. Walter Ballard explained some of the general plans, and was followed by Walter Maguire, who told about the sports end of the outing. It is planned to have ten events for children, four for ladies, six for men, and two for men's teams. Messrs. Stewart and Ivel were named as captains for the baseball game, and President Graham and Vice-President Ferguson heads of the tug-of-war teams. Walter Maguire also outlined a scheme for a cricket league in which the Kiwanis, Rotary, Gyro and Elks Clubs would take part.

Motor Car Overturns—While attempting to avoid a collision with an approaching car at the intersection of lower Yates and Wharf Streets last evening at 6:30 o'clock, J. F. Dixon, of the St. James Hotel, and Alexander Ellis, of the Panama Hotel, were injured when the Ford runabout in which they were driving, completely overturned, throwing the two out on to the pavement. Mr. Dixon sustained a dislocated shoulder, and Mr. Ellis was severely bruised. In the police motor ambulance the two injured men were taken to the Royal Jubilee Hospital where their injuries were attended by Dr. Bapty. Their car was badly wrecked.

Victorian Order Nurses—Arrangements for the Baby Clinic to be held on Saturday, Monday and Tuesday next, in preparation for the Baby Show, which is set for July 13, under the auspices of the Gonzales Chapter, I.O.D.E., were discussed at the regular monthly meeting of the Victorian Order of Nurses held yesterday. Mrs. Goulding Wilson was in the chair, and seven members were present. The nurses' report showed a total of 67 cases attended, with 501 visits; 122 visits in connection with child welfare, and 15 pre-natal visits. Cash donations were acknowledged from the following: The King's Daughters, the Victoria City Dairy, Miss Livingstone, Mr. Naylor, Mrs. Gilbert Cook, Mrs. Scott-Moncrieff, Mrs. Price, Mr. William C. Ward, the City of Victoria, and Oak Bay Municipality.

WOMAN PREACHER

Miss E. Rosalind Lee to Occupy the Pulpit of Unitarian Church July 10

Miss E. Rosalind Lee, of Glamorgan, Wales, who has just completed special studies at Harvard University, is visiting the Unitarian churches in Canada and along the Pacific Coast, and will be in Victoria on Sunday, July 10, to speak at the First Unitarian Church here. After leaving here she will proceed to San Francisco to sail for New Zealand, where she will continue to preach and lecture. Rev. Albert Thornhill, of Auckland, acting for the British and Foreign Unitarian Association, is arranging the tour for Miss Lee in New Zealand.

Miss Lee contends that the war produced a new phase of internationalism, and in interviews is quoted as having referred to the Correspondence Bureau, a society controlled by the British League of Unitarian Women, as one of the useful organizations in England at the time of the war. The amount of good it did in uniting separated families, communicating with soldiers and discovering lost children was immeasurable

COUNCIL TO NAME OTTAWA DELEGATE

Ald. E. B. Andros Mentioned as Probable Representative of Council at Union of Municipalities Meeting

Victoria's official delegate to the Union of Canadian Municipalities convention to be held July 27, 28 and 29, will be named at the next meeting of the City Council, Mayor Porter stated yesterday.

Several weeks ago, during the absence of the Mayor in the East, the City Council decided to send a delegate, but left the choice to a future meeting. The convention is now so near that the Council will have very little time to get through with its arrangements for representation.

Just who will represent the Council at Ottawa is uncertain, as the matter has only been cursorily dealt with so far in Council deliberations. Ald. E. B. Andros, chairman of the Finance Committee, is regarded as the probable delegate, as he has business interests on the prairies that will necessitate his making a trip at least part of the way to Ottawa, anyway. Ald. Andros was nominated one of the delegates to the Halifax convention of the Good Roads Association, but at the last moment stepped aside.

Among the features of the convention will be:

Presidential address, Arthur Roberts, K. C., president.

Financial report, A. D. Shibley, treasurer.

Parliamentary agents' report.

Report of the executive, A. D. Shibley, secretary.

Revision of the constitution, Arthur Roberts, K. C., chairman of committee.

Formal opening by Premier Drury.

"Municipal Borrowings," Mr. J. N. Bayne, commissioner, the Local Government Board, Province of Saskatchewan.

"Recent Developments in Municipal Government in the United States," Mr. H. W. Dodds, secretary, the National Municipal League of the United States.

"Municipalities and Health," Dr. J. A. Amyot, C. M. G., M. B., Deputy Minister of Health.

"First Aid From a Municipal Standpoint" (illustrated by motion pictures), Col. C. A. Hodgetts, M. D., C. M. G., D. P. H., commissioner of the St. John Ambulance Association.

"Control of Municipal Expenditure," Mr. Horace L. Brittain, director, Citizens' Research Institute of Canada.

"Public Ownership of Public Utilities," Mr. Tom Moore, president, the Trades and Labor Congress of Canada.

"Proportional Representation in Municipal Elections," Mr. H. P. Hill, M. L. A., chairman of the Ontario Legislative Committee on Proportional Representation.

"Metropolitan Civic Administration," Mr. E. R. Decary, chairman, Administrative Commission of Montreal.

"Federal Aid for Highways," Mr. A. W. Campbell, M. E. I. C., Commissioner of Highways.

"Present Status of the Public Service," Mr. Clinton Rogers Woodruff, president, the Civil Service Commission of the city of Philadelphia.

By invitation of Mayor Plant and the City Council, the delegates will enjoy a motor tour through the parks and driveways of Ottawa.

Banquet at the Chateau Laurier by the city of Ottawa. Mayors of leading Canadian cities and representatives of legislative bodies have signified their intention of joining the delegates for this function.

Election of officers.

MONTHLY MEETING OF AGED WOMEN'S HOME

The regular monthly meeting of the Ladies' Committee of the Aged Women's Home was held yesterday afternoon at the Home, commencing at 2:30 o'clock. The members of the committee in attendance were Mesdames Clay, president; Vincent Carne, Harold Grant, Heddle and Whittier.

Bills for the last month were passed and ordered paid. The secretary, Mrs. Whittier, reported that one of the inmates of the Home, Mary Ann Graham, had passed away during the month, and that two applications had been received to fill the vacancy. Miss O'Brien, Mrs. Vincent and Mrs. Whittier were appointed as the members of the monthly committee.

The committee wishes to thank the following persons, who have so generously aided the institution with their gifts during the month: Fish, Mrs. Shotbolt; flowers, Mrs. Whittier, Mr. A. J. Woodward, Rev. W. J. Sipprell, Rev. J. L. Batty and Mr. Holmes; strawberries, Mrs. Fortune and Mrs. Nodek; papers, Mrs. Buell and a Friend; motor drives, Mr. Baxter and Dr. Scott-Moncrieff for performing an optical operation.

WANT GOVERNMENT LINE TO ALASKA

Bill Now Before Congress Would Establish Service by Shipping Board Vessels to Ports of North

WASHINGTON, July 5.—Establishment of a Government shipping line between the United States and Alaska, to connect with the Government railroad in that territory, and co-ordination of all Federal activities relating to Alaska are proposed in a bill introduced today.

Under the bill the Shipping Board would be required to transfer to the Secretary of the Interior ships of sufficient number and tonnage to run between the United States and Alaska ports for operation in conjunction with the Alaskan railway. The bill also would confer upon the President-General authority to co-ordinate, by transfer, concentration and distribution of Government agencies having to do with Alaskan affairs.

DEHYDRATION AS LOGAN SOLUTION

Continued from Page 1.

States strongly favored dehydration, and it was through this reading matter that the present evaporator had been installed in the plant.

In opening the meeting, Mr. H. H. Grist, president of Laurel Canners, Ltd., stated that the matter of a cannery had been taken up with both the Gordon Head and the Saanich Fruitgrowers' Associations, but they would not take part in the formation of a company. Something had to be done to handle the season's crop and so the present concern had been started. The directors had thought it only proper that the growers should be given first chance to subscribe to the stock, although the money was available elsewhere.

Mr. J. B. Clearihue, solicitor of the company, stated that the present provisional directors would hold office until the first annual meeting about the end of August when the shareholders would elect a new board. The capital of Laurel Canners, Ltd., was $50,000, in $50 shares, $25,000 worth going on the market at the present time. The present plant of Ede & Westgate, at Lakehill, would be taken over, the owners taking stock in place of cash.

Mr. Ede said that additions to the plant were planned at a cost of $1,100.

Cut Out Middlemen

Mr. D. H. Bryce urged that the company send an exhibit of its products and a representative East to the Grain Growers' conventions on the prairies next Winter in order to sell direct to the farmers, and cut out the middlemen.

Mr. Somers, president of the Gordon Head Fruit Growers' Association, stated that Gordon Head could take care of all its logans this year on the same basis as the strawberries, but he did not believe the arrangement could be a permanent one. He understood that Oregon had been up against the same problem as the Saanich growers and had solved it by dehydrating the fruit and creating a market.

Mr. Grist claimed he would like to have seen the canning and fruit-drying handled by the two fruit-growers' associations. A switch could be made to co-operative methods later if desired.

Mr. C. M. Maywood and Mr. Sweeney also spoke, the former urging support of the company and the latter favoring the present limited company scheme rather than anything of a purely co-operative nature.

Applications for stock were received at the conclusion of the meeting. One hundred shares must be taken up before the company can start business.

Burglary Insurance Goes Up

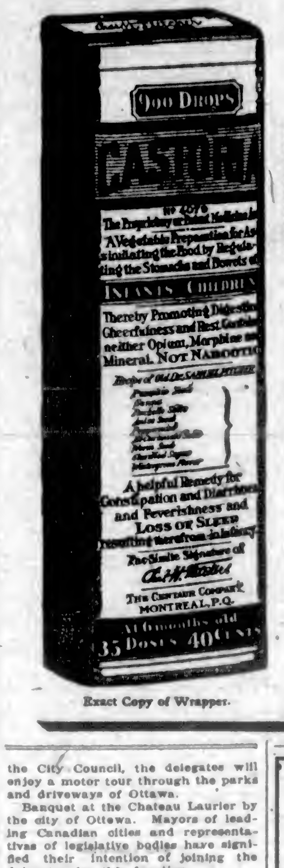

MONTREAL, July 5.—On account of the crime wave at present existing on the Island of Montreal and inadequate police protection, burglary insurance companies have advanced their rates from 25 to 100 per cent.

Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love well knows, and mother-love can not be deceived.

Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

What is the Matter with Baby?

It cries fretfully, is restless and does not sleep well, its bowels do not move or it has diarrhoea, it does not eat or it has flatulence and vomits easily. You know baby is sick. You want to help baby get well safely and quickly.

If you are wise you will use Fletcher's Castoria, the wonderful remedy for babies' ills, that was discovered by a family doctor and that has been used for over thirty years.

When you have learned the value of Fletcher's Castoria you will never be without it, you will tell other mothers what a useful remedy it is. You will be able to keep baby well and happy by using it to keep its stomach sweet and its digestive organs acting naturally. You will call Fletcher's Castoria the Children's Comfort and the Mother's Friend.

Don't say tomorrow – try it today. And above all things don't try to relieve baby with a remedy that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

Make It More Than One Week

SMITH, DAVIDSON & WRIGHT, LTD.
Manufacturers and Wholesale Stationers
Vancouver and Victoria, B.C.

"Made in B.C." week is only a concentrated effort on the part of the manufacturers to get the public to try goods manufactured within our own Province.

We can speak for School Supplies and Stationery. These are made here in our own factory and by actual comparison, price for price, they are equal to any and superior to most of the goods brought in from outside.

To demand "Made in B.C." goods is practical patriotism.

Notice to Owners of Dairy Herds

Wanted—Communications from owners of dairy herds who are prepared to ship a set daily quantity of pure milk at current prices, subject to butter fat test. If a sufficient number of reliable shippers will co-operate, definite arrangements can speedily be made to handle a supply of five hundred gallons daily, Winter and Summer. Herd owners only will be acceptable to the company about to be formed, and they are not asked to subscribe for shares or shoulder any portion of losses that might be sustained owing to a surplus of milk. The shipper will receive full value for his product, and will not be charged more than a nominal commission for transacting his business.

Apply to Box 5452, Colonist Office.

LONDON, July 5.—The trials of Lieutenant-General Karl Stenger and Major Bruno Crusius before the German Supreme Court at Leipsig, on charges growing out of the war, preferred by the French Government, have been ended, according to a Leipsig dispatch to The London Times. Sentence will be pronounced Wednesday.

BOYS AND GIRLS ARE TRAINING TEACHERS

Clamored for Permission to Enter the Summer School Classes Now Being Held at High School

There is a song called "Schooldays!" which, had they been the least inclined to consider anything of the kind seriously, the boys and girls of twenty years ago would have thought mere sentimental rubbish on the part of a lot of old fogies who had forgotten what an absolute bore books and slates could be on a Summer day when the whole world was calling them to play.

Things have changed since then, and there are even little lads and lasses who clamor to re-enter the classroom when the regular school term has come to an end to allow for the Summer holidays. At the Summer school, which opened on Monday at the High School, there is a class of some twenty small boys and girls who, when they were asked if they would like to attend the "Primer School" which is being held for the training of teachers, eagerly volunteered, and are now attending daily from 9 to 12 to learn reading, writing and the other subjects which are taught in the primary grades.

These classes were needed in order to demonstrate effectively to the teachers in training the value of certain methods of teaching. The primary grade work is in charge of Professor Coombs, who is the lecturer-in-chief, with Miss Dairymple as teacher, and Mr. Hutton in charge of the handwork. Miss Dairymple is an excellent demonstrator, and with the class of twenty children ranging between seven and nine years she gives very useful lessons in applied child psychology. The children stay from 9 to 11 each morning; incidentally, it should be remarked that their parents were delighted to have them attend the school during this time every morning.

This is not the only teachers' training class in the Summer school that uses real pupils for demonstration purposes, as a class of twenty third reader girls has been assembled for the cookery course which is being given at the Girls' Central School for the teachers in training. All the manual training course, it should be stated, is being given in Vancouver, where about twenty school teachers are taking the Summer school teachers' training in this subject, and here, too, pupils were easily found, the chief difficulty being to select from the large number of applicants the twenty boys who were required for the class. Mr. A. S. Hamilton, supervisor of manual training in South Vancouver, is in charge and is training manual instructors to take vocational subjects in technical schools. Both in domestic science work and in manual training instructors are very badly needed all over the Province, so these classes in Victoria and Vancouver which are being run under the Department of Education should go very materially toward the solution of a problem by equipping teachers in these subjects.

School Libraries

Story telling is quite a feature of the primary class work, and teachers at the Summer school are already getting many valuable "tips" on the selection of subjects and the manner of presenting the narrative so that it will appeal to the imagination of their youthful listeners, in connection with the primary class work the course in school libraries and children's literature, which is in charge of Miss Andrews, of Seattle, and Miss Howe, should be very helpful. The idea is to equip the teachers to keep the school library in an efficient way with a view to its indexing and to the best selection of literature for the pupils.

The Summer school is one of the most effectively organized to date in Victoria, and although the attendance has been much larger the scheme of study has never been quite so well worked out. After choosing his subject the student devotes his whole time to its pursuit. School opens at 9 o'clock, and the teacher-students go at once to their respective classrooms to work for two hours, the art pupils to the art classes; the music students to their music class; and the rural science and home economics students to their respective studies. From 11 to 12, however, there are "optional" classes in penmanship and physical culture, which may or may not be taken by any student in any of the other classes. The penmanship classes are in charge of Mr. Mackenzie and Mr. Mecleon, and the physical culture course is directed by Miss Brackett, of the St. Ann de Bellevue School, Ottawa.

The luncheon hour is from 12 to 1, and the afternoon class sessions are of two hours' duration, closing at 3 o'clock.

The rural science class is well attended this year, as usual, and field work has already commenced, the former site of digging and planting operations a short distance from the High School grounds being still reserved for this purpose.

Miss Coney, who was the first to teach music in connection with the Teachers' Summer School, is taking the classes again this Summer; Mr. John Kyle is also in charge of the art classes, as at the inception of the school, with Mr. Weston, of Vancouver, and Miss Baxter, of Winnipeg, as additional teachers, as the course is arranged to suit both the teachers in the elementary schools and in the High Schools. The class in this subject numbers twenty-eight.

Public Lecture

The first public lecture is to be given on Friday night, Dr. J. W. Robertson, of Ottawa, to be the speaker. Dr. Robertson's special subjects are Health Conservation and Technical Education, and although his theme for Friday evening has not been announced as yet, it is assumed that some phase of either of these questions will be dealt with.

CHINAMEN SENTENCED FOR HAVING COCAINE

Prosecution Initiated by Officers of R.C.M.P. Successful in Sending Accused to Prison for Six Months

A successful prosecution of Chinamen suspected of illicit drug dealings in Victoria resulted in the conviction of Loo Lai Hoy and Lee, in the City Police Court yesterday. They were each sentenced by Magistrate Jay to serve six months in prison with hard labor. Evidence for the prosecution was given by Corporal Harry F. Small and Constable George S. Grant, of the Royal Canadian Mounted Police. The accused, who were defended by Mr. R. C. Lowe, pleaded not guilty to the charge of having unlawful possession of cocaine and morphine.

Corporal Small testified that he and his fellow officer had been watching the movements of Loo Lai Hoy for some time, suspecting that the accused was selling illicit drugs. On June 24 last they arrested him on Pandora Street. Before they could seize him he swallowed something, which they had reason to believe was cocaine. They found seven packets of cocaine and one of morphine in the cap he was wearing.

At 527 Cormorant Street they found the registration papers and other belongings of the accused. They also found Lee there, in the act of secreting ten packets of cocaine and eight of morphine. Loo Lai Hoy shouted as they entered the house, they said, with the intention of warning Lee. The former denied that he lived there, but they found the key of the house in his pocket. There were fourteen phone calls for "Shorty"—by which name Hoy was known to the addicts of the town—while they were in the house. They also found a note in the house, which was an order for heroin. Constable Grant corroborated this evidence.

Mr. R. C. Lowe, who did not put his clients into the witness box, argued that the evidence was insufficient to warrant a conviction. Counsel said that as the law provided that half the fine imposed in these cases should go to the informants, the greatest care should be exercised by the courts in accepting the evidence for the prosecution. In this case, he contended, it was strange that the only drug alleged to be found on the person of the accused was said to have been taken from his cap.

Magistrate Jay said that all the circumstances in the case pointed to the suspicion that the accused had these drugs for illicit sale to addicts. It had been shown that they had the drugs in their personal possession. The offence was becoming too common; and it was so serious that it must be checked by stern measures. The accused would be each sentenced to six months in prison with hard labor.

Little Girl Killed by Auto

SEATTLE, July 5.—Five-year-old Sarah Berman, a daughter of Lewis Berman, was killed by an automobile here today.

OBITUARY NOTICES

SEGALERBA—The death occurred at Sidney, July 4, of Peter Emanuel Segalerba, a resident of Sidney for the past 38 years. The deceased was born in Genoa, Italy, in 1359, and came to Canada 35 years ago. The funeral will take place from the family residence, Third Street, Sidney, Thursday, July 7, at 10 a.m., proceeding to the Roman Catholic Church at South Saanich, where service will be conducted by Rev. Father Weert at 11 a.m., and interment will take place in the Roman Catholic cemetery at South Saanich. Flowers left at the B.C. Funeral Chapel will be taken to Sidney Thursday morning.

COLBERT—The death occurred at the St. Joseph's Hospital of Baby Colbert, daughter of Mr. and Mrs. E. A. Colbert, of Granite Street, Oak Bay. The funeral has been arranged to take place from the B.C. Funeral Chapel Wednesday, July 6, at 10:30 a.m., Father Buckley officiating. Interment will be in the family plot in Ross Bay Cemetery.

McILMOYL—The funeral service for Robert Stephen McIlmoyl, the two-year-old son of Mr. and Mrs. Robert S. McIlmoyl, was held yesterday afternoon at 3:30 from the Sands Funeral Chapel. Rev. Dr. Campbell officiated in the presence of a large gathering of relatives. Interment was made in the family plot, Ross Bay Cemetery.

HARTLEY—The funeral of the late Mrs. Nellie Hartley, wife of Mr. George Hartley, of 1200 Hampshire Road, will take pace from the B.C. Funeral Chapel on Thursday afternoon, at 3 o'clock, where service will be conducted by the Rev. Thomas McConnell, of St. Columba Church, Oak Bay. The remains will be laid to rest in Ross Bay cemetery.

CHIEF RABBI LEAVES HERE FOR MAINLAND

Dr. Joseph H. Hertz Is Honored at Reception in Empress Hotel After Making Motor Tour of Saanich

The visit of the Very Rev. Dr. Joseph H. Hertz, chief rabbi of the united Jewish congregations of the British Empire, was concluded last night following a reception in the Empress Hotel. Dr. Hertz, accompanied by members of his official party and a reception committee from Vancouver, left for the Mainland on the midnight boat. Messrs. Sugarman, Cohen and Marks were among those who came from Vancouver to greet the Chief Rabbi.

Lieut.-Governor Walter C. Nichol, Premier Oliver and Mayor Robert J. Porter were among those present at last night's reception, which was held in the Empress Hotel. Dr. Hertz gave an illuminating address on "The Bible as a Book," declaring that it knew of no competitor either as a force for spiritual attainments or as a narrative of fascination and instruction.

Yesterday morning Dr. Hertz addressed children of the Victoria Jewish congregation in the vestry room of the synagogue, and in the afternoon he was taken on a motor tour of the Saanich Peninsula, among the places visited being the astrophysical observatory and "Benvenuto" sunken gardens.

Mr. Albert M. Woolf, O.B.E., who accompanied Dr. Hertz in his tour of the Empire and attended yesterday's functions here, will leave the party in Vancouver and go south to San Francisco. Later, however, he will go on to Eastern Canada and rejoin the party.

COSTLY JEWEL MISSING

Mrs. William Oothout Loses Pearl Valued at $3,000 When Returning From Theatre

A magnificent pearl, valued at $3,000 by its owner, was lost somewhere between the Variety Theatre and Beach Drive, by Mrs. William Oothout, of 1069 Beach Drive, on Monday evening, according to the report she made to the police yesterday.

The bauble was one of a number in a pearl necklace which Mrs. Oothout was wearing when she attended the theatre. The string of the necklace became broken in some manner and the pearl, one the size of a pea, disappeared.

A substantial reward will be paid by the owner for the recovery of the jewel.

Death of Woman Writer

TORONTO, July 4. — Mrs. C. C. George, who, under her maiden name of Ida Webster, was a well known writer on The Toronto World, died yesterday after a long illness.

Healthy Young Womanhood

THE wise mother will watch carefully that the growing girl has regular daily elimination for upon that all health depends. If she complains of headache, biliousness, loss of appetite or sleep you may suspect constipation. Give a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, and by morning she will be well. It is a combination of simple laxative herbs with pepsin, and the full formula is on the package. When you see how wonderfully it acts you will in the future avoid drastic calomel and castor oil even if disguised in sugar-coated pills. A sixty-cent bottle of Dr. Caldwell's Laxative Syrup Pepsin lasts months.

If you would like to test Dr. Caldwell's Laxative Syrup Pepsin free of charge before buying it in the regular way of your druggist, send your name and address to Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont., and a free trial bottle will be sent you promptly, postpaid.

CITY PREPARES TO MEET UNEMPLOYMENT

No Cash or Food Doles, Mayor Announces — May Start Work on Reserve — Other Operations Near Completion

The city will make no doles of cash or food and clothing this Winter, if such action can possibly be avoided, Mayor Porter stated yesterday.

"As a means of relieving the unemployment situation this Winter, we will have a cordwood-cutting programme again, and probably the rock pile," said the Mayor. "I am absolutely opposed to making straight contributions to anyone except in cases of extreme urgency. The principle is wrong in the first place, and the city cannot afford that sort of thing, either. When the city commits itself to handing out doles and free food there is always more apparent destitution than under other conditions. Offer the men a chance to put in a day's work at the rock pile or wood yard, and you soon find that they aren't in such distress, after all."

Mayor Porter is being informed by those who claim they are in a good position to size up conditions that this Winter will bring with it hard times for many families. It is pointed out that there are a good many jobless men in the city now and that their circumstances will naturally become worse this Winter. With this situation in view, Mayor Porter is determined that the city shall be prepared, and within a few weeks the policy of the Council regarding relief work will probably be settled.

Economic Council Helps

Organization of the Economic Council is expected by members of the City Council to be of material assistance in eliminating some of the worst features of the unemployment situation. It will, at least, prevent duplication of effort and make it possible to deal with the matter in a systematic way. At its meeting Monday night the City Council endorsed the Economic Council, as proposed by the Veterans of France and supported by other service organizations.

Within a few days the sewer construction work authorized by the city principally for the purpose of absorbing labor and relieving unemployment will be completed, and there is nothing so far in sight to take its place. This means that about seventy more men will be out of city employment. The Council appears to be against making any further extension of the sewer system at the present time, as it is understood that the cost of the work now nearing completion was somewhat higher than anticipated and there is no actual necessity for proceeding with any more operations of the same nature.

Paving Nearly Finished

Completion of the paving of Government Street will also throw more men out of work. The Johnson Street Bridge project is now carrying about as many men as will be required during the preliminary stages of construction, although a fairly large number of men may be employed on the Reserve area in preparing the roadway through, connecting what was formerly Lime Street and is now an extension of Johnson Street and the bridge. There is, however, no special hurry for this, and if the city authorizes work of this kind it will be simply because of its desire to keep men at work.

There is a long period ahead before Winter, however, and members of the Council are not inclined to pessimism about the prospects. They are hoping that conditions will be better by that time, and that private enterprise will be able to keep the labor market active, but at the same time they are not forgetting that being prepared for a contingency is half the battle.

MAYOR SAYS POLICE WILL NOT GET RAISE

Holds Provincial Government's Refusal to Act Makes Council Supreme—Commissioners Have Opposite View

"If my understanding of the Provincial Government's decision is correct, the City Council has the privilege of final decision in respect to police salaries, and that means there will be no increases," declared Mayor Robert J. Porter, yesterday, after learning that the Provincial executive had referred the city's appeal back to the Council.

The executive took the stand that the Provincial Government had no authority to interfere in the matter, now that it had no direct responsibility for the Police Commission. The commission was formerly appointed by the Government. Now it is elected by the ratepayers.

"If the Government declines to act, the whole matter rests with the Council," said the Mayor. "The Police Commission asked us to increase police salaries by $15 a month and we declined to do that on account of the financial position of the city and the imperative necessity for rigid economy. We understood that it was possible to appeal to the Government. Now that the Government has turned it back to us, we are supreme. The vote was eight to three against increases the last time we put the issue to a test, so I guess it is pretty safe to say there will be no increases."

Members of the Police Commission, it is understood, take a different view. They hold that they have the authority to fix salaries, and that since the Provincial Government refused to deal with the Council's appeal, the decision of the Police Commission stands and the Council will have to find the money, which amounts to approximately $10,000.

The matter will probably come before the Council at its special meeting next Friday afternoon, and the Police Commissioners will also deal with it at their next session. The issue has been hanging fire for more than a month.

Recently Police Commissioners Hall and North, representing the Police Board, and Mayor Porter and Aldermen Sangster and Andros, for the City Council, met the Provincial Executive Council and argued the pros and cons of the matter in dispute between the Board and Council. The matter was referred by the Cabinet to Attorney-General Farris for an opinion on the merits of the respective claims, and it was upon Hon. Mr. Farris' memorandum, which was before the Cabinet yesterday, that the Government's decision not to take any action was based.

The Attorney-General advised that the right of appeal set forth in the Municipal Act is no longer effective that it is merely a relic of the old days when police commissioners were named by the Provincial Government rather than, as at present, elected by the people, and that under the latter system the right of appeal was merely archaic.

C.P.R. LECTURER GETS DATA HERE

Mr. Alfred Ward Comes for Information to Give Out to Old Country Audiences Concerning Island

"If I were retiring from business today there is no place in the British Empire that would suit me better than Victoria," said Mr. Alfred Ward, C.P.R. lecturer, in an interview with a Colonist representative yesterday. "Here all the charms of the Old Country are combined with the freedom and the immense possibilities of the new land."

Mr. Alfred Ward, J.P., F.R.G.S., is a lecturer for the Canadian Pacific Railway, and is spending the week in Victoria. "I have been engaged by the C.P.R. for the past eighteen years," said Mr. Ward, "during which time I have lectured in almost every town in England on the possibilities and resources of Canada, with the object of diffusing information to intending settlers. This is my seventh visit to Victoria, and I wish to supply myself with all data which would be interesting to farmers and others who have capital to invest. At the present I have many inquiries from men of means who are anxious to purchase fruit lands on the Island."

Yesterday Mr. Ward had very interesting conferences with Premier Oliver and Mr. Barrow, Minister of Agriculture, the latter of whom he was delighted to find was an Old Countryman. Dr. Baker, in charge of the publicity moving picture department, has promised Mr. Ward some very fine reels.

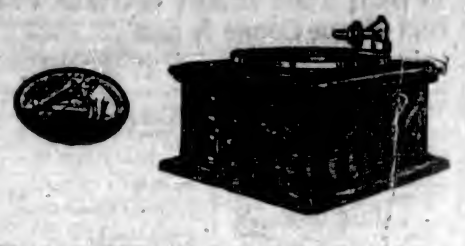

"My lectures are always accompanied by cinema illustrations," continued Mr. Ward, "and are invariably largely attended. I often have from four to five thousand of an audience, who follow every word with the most intense interest. They are hungry for information, and, I may say, that the only subject that will draw crowds in the Old Country at the present time is Canada. I visit, on an average, twenty schools, colleges or universities per week, and hold four public lectures.

"It is no exaggeration to say," went on Mr. Ward, "that through my efforts thousands have come to Canada. Many of them are located in British Columbia. While I was in Vancouver I had the pleasure of calling on twenty families who came out from the Old Country as a result of my lectures. I have also met several people already in Victoria who trace their migration to the same source."

Mr. Ward expects to remain for about five months in Canada. He has already been on the Coast three months, and has been gathering information in every quarter. His next season's lectures will include a special entitled, "British Columbia, Its Resources, Its Beauties and Its Possibilities." Up-to-date moving pictures showing the last word in lumbering, fishing, fruit growing, mining and agriculture will be used as illustrations.

Mr. Ward payed a tribute to Mr. Wade, Agent-General for British Columbia, with whom he has been in touch ever since the latter took office in London. He states that the Province could not have a better representative.

Mr. Ward is at present stopping at the Westholme Hotel, and would be very pleased to meet anyone who is interested in his work.

Enjoy This Victrola in Camp

—Then Exchange It for a Cabinet Model in the Fall!

Here is a remarkable offer that makes it easy for you to own a Victrola.

The portable Camp Model Victrola, with six records—12 selections of your own choosing—is priced at $46.00; terms, $6.00 cash and $5.00 a month. Within six months we will exchange your Victrola for a larger model and credit you with all the money you have paid.

PRAISE SEVEN TIME RESCUER FROM SEA

Great War Veterans Will Bring Plucky Achievements of Comrade Prescott Before Royal Humane Society

That the timely and heroic action of Comrade A. E. Prescott in saving the life of seven-year-old Willie Shutton from drowning off Dallas Road last Sunday afternoon may be given the fitting recognition usually accorded deeds of that nature, the Great War Veterans last night decided to take the matter up and communicate with the proper authorities. Comrade Prescott is a member of the Association, and was warmly complimented by his comrades at the meeting, not only on the score of his most recent successful feat in snatching a life from the sea, but also by reason of the six previous occasions on which he has performed in the same plucky and efficient manner.

The Association will communicate the particulars of all seven occasions to the Royal Humane Society and give that organization an opportunity to mark public appreciation of the deed by the bestowal of the society medal. It is also the intention of the G.W.V.A. to find out from the Dominion secretary whether the Carnegie Hero Fund does not contain provision for the reward of such action.

The Veterans met in their new quarters for the first time last night, and the freedom from noise and other features of the new rooms led the meeting to congratulate the executive on the move. A committee was appointed to arrange for a house warming at an early date.

A letter was read from the Conservation Board to the effect that a returned man had been given a position at the pheasant hatchery, Wilkinson Road, formerly held by a non-service man. This was brought about through the efforts of the G.W.V.A.

BREWERY PICNIC

Staff of Victoria-Phoenix Company Enjoy Outing at Deep Bay

On Sunday the employees, accompanied by families and friends, journeyed to Deep Bay per special car on the B.C. Electric. On arrival, the weather being of the finest, little time was spent before the party was well on the way enjoying the outing.

After lunch sports were held, the running events producing keen competition and lots of close finishes. The football game was pretty fast, some of the players showing form which would have earned them a place against the Scotch Internationals which visited Victoria recently. Tilting the water bucket and a beauty show were other outstanding events, and caused much amusement.

The committee looking after the arrangements saw to the comfort and entertainment of all present. Having enjoyed a real good time, the party arrived back in the city about 8:30 o'clock.

CLUB EXECUTIVE PICNIC AT CORDOVA

Presidents and Other Officers of Women's Canadian Club Had Annual Outing Yesterday

Mrs. C. W. Bradshaw yesterday threw open her charming Summer cottage, "Kathandra," Cordova Bay, for the annual picnic of the Women's Canadian Club executive, and once more the event was favored with all the conditions of sunny weather and merry spirits fitting as the accompaniments of such gracious hospitality.

The guests left town by motor at eleven o'clock, and were given a cordial greeting by their hostess when they reached their destination, after the delightful half-hour run through the pretty country. Luncheon was served indoors at about one o'clock, the abundant "spread," to which most of the ladies contributed something, being followed by an alfresco picnic on the beach, where boating, bathing, etc., were much enjoyed. An informal and brief business session was held for the discussion of plans to raise funds for the club work, and announcement in a few days of some form of garden party or bridge tea will probably result. Tea brought the entire gathering once more about the festive board, and at its conclusion Mrs. Gee proposed, Mrs. Jenkins seconding, a very hearty vote of thanks to Mrs. Bradshaw for her generosity in throwing open her cottage for the annual outing, the singing of "For She's a Jolly Good Fellow," bringing the affair to a close.

Those of the executive who attended the picnic were Mrs. Jenkins, the president, who has just recently returned from several months' visit in Seattle; Mrs. Spofford, Mrs. J. H. Fletcher, Mrs. Taylor, Mrs. Bradshaw, Mrs. Gee, Mrs. Herbert Pendray, Mrs. Frank Andrews and Miss Sara Spencer, and the following other members of the club and invited guests; Mrs. Humber, Mrs. Sutherland, Mrs. R. W. Perry, Mrs. Hunter (Nelson), the Misses McCabe, Mrs. Conyers, Mrs. Clyde, Mrs. Parry.

FAIRFIELD SCOUTS TO TENT AT GOLDSTREAM

Goldstream is to be the site of the Fairfield Troup Boy Scouts camp, if was decided at the special meeting of the Fairfield Parents' Association held last night at the headquarters, Courtney Street. The camp will be opened July 30, ten days first for the Scouts and five days for the Cubs. The grounds are three-quarters of a mile from the railroad and twelve miles from the city, good fresh-water swimming, good drinking water and a splendid sports field being reported as special attractions. The scoutmaster will furnish a list of articles needed by the Scouts. Application for such information might be made to headquarters, Mr. Hartley, of the James Bay Troup, thanked the Fairfield parents for their invitation to join the camp and intimated that they would be delighted to avail themselves of this, twelve of their boys wishing to join the camp.

The chair was taken by Mrs. S. W. Raven, and there were present Mrs. Bruce, Mrs. Livesay, Mrs. Davis, Mrs. Ward, Mrs. Moore, Mr. and Mrs. G. E. Bissell, Mr. Hartley (James Bay), Mr. Slater, Scoutmaster Frampton, Assistant Scoutmaster Mr. Raven and the secretary.

The meeting last night, being a special one, will take the place of the regular meeting, so that the next meeting of the Fairfield Parents' Association will be August 31.

It was moved that Mr. and Mrs. Bissell should be the delegates to the District Association of Boy Scouts. The meeting passed a hearty vote of thanks to Mr. Tobin and Mr. Bissell for their kindness in assisting at the club camp on July 1, 2 and 3. A much-appreciated donation of $5 was acknowledged by the secretary, the donor being Mr. F. Shapland; while a first aid outfit was reported as having been purchased by the association for the use of the Scouts and Cubs.

Corns Between the Toes Painlessly Removed

Hospital Needs Shown In the Annual Report

Jubilee Subscribers Return Board Intact to Proceed With Year's Big Work Entailed With the Erection of New Building, Etc.—Pressing Financial Conditions Indicated

The Board of Directors beg to submit to the donors, subscribers and the general public their thirty-first annual report of the work of the Provincial Royal Jubilee Hospital.

It is fitting that we should begin this report by paying tribute to the memory of our late esteemed president, Mr. R. S. Day, who for so many years filled this chair. We felt that in him we had a very pillar of the institution and never realised until his untimely death what a support to his colleagues he had always been. A friend to the nurses and patients, always faithful and attentive to the institution and its requirements, many of the most important details of the work fell upon his shoulders, which the remainder of the Board were not aware until his removal from us. Our sympathies are extended to Mrs. Day and family.

Mr. George McGregor was elected to the chair and Mr. Charles Williams to the Vice-Presidentship, and as the death of Mr. Day caused a vacancy in the city representatives on the Board, the City Council should be congratulated in having found in Mr. M. W. Graham so able a man to fill his place.

Statistical.

The total number of patients admitted to the hospital during the past year was 2,398, and is 64 less than last year. The total number of days' stay was 40,589, an average of 17 days' stay for each patient. The number of out-patients attending was 510, which does not include patients attending for X-ray treatment; 2341 patients were examined for diagnosis or received X-ray or radium treatment in the X-ray Department. The number of patients examined during the year in the laboratory was 5,243; about 2,000 of these were in-patients and the remainder were almost entirely patients examined under subsidy received from City and Provincial Governments. The cost per diet per patient was $2.95.

New Hospital.

Your Directors have recognized for a long time the necessity for increased accommodation, which had become so imperative that last March the Board had to seriously consider building an addition to the Strathcona Ward. Sketch plans were drawn by Mr. Watkins and approved by the Board. The cost of the addition would have been approximately $25,000. This would have only provided ten private ward beds and the Board at a subsequent meeting resolved, in view of the cost of the proposed addition, which would give no increased public ward beds, to take immediate steps to try and build part of the proposed new hospital instead. The Kiwanis Club, who from their inception had pledged themselves to support the building of a new hospital, were called in consultation and agreed with the Board that any money spent on extensions to the present building would be a waste of time and money and that all the money in hand should be spent in building part of the new hospital. With this purpose in view the Board interviewed the City Council with regard to the hospital by-law of 1912 and asked them to place on the market as soons as possible bonds to cover the $225,000 voted by this by-law. The City eventually agreed to do this and on this assurance the Board proceeded to take immediate action. Mr. L. P. James and his associate, Mr. K. B. Spurgin, of this city, were appointed architects and several meetings of the Building Committee have been held to consider revision of the plans prepared by Mr. Rixford to meet modern requirements. Several months prior to this communications had been passing between our late President and Mr. Rixford with regard to the plans and Mr. Day had succeeded in obtaining permission from Mr. Rixford to open the plans and place them at the disposal of the Kiwanis Club if so desired. The plans had been held in trust at the hospital until such time as the Board were prepared to go on with the new building and were the property of Mr. Rixford. The Board, however, felt that something more substantial should be done, and at a later meeting telegraphed to Mr. Rixford asking him to donate the plans to the hospital, and we are pleased to report that Mr. Rixford agreed. We telegraphed thanking him for his gift, which represented a large amount of his time and the best of his professional skill. We have to acknowledge the enthusiasm and perseverance of the Kiwanis Club, which to a great extent helped to bring this matter to a satisfactory conclusion. No obstacle now remained to prevent us going ahead with the proposed building, excepting funds, which, as we have already stated, have been promised to the Directors by the City Council according to the by-law of 1912. It is proposed by the Board at this time to build the walls of the East wing and to complete two floors of both the public and private wards as outlined in the Rixford scheme and to go further if funds are available. Excavations were made to a certain point on the site, but additional excavations, for which a contract is let, will be made to continue the tunnel to provide for steam pipes, lighting, etc., under the ground floor. The third floor of this wing is now intended to be a new Maternity Department and will provide both public and private ward accommodation, so that the whole wing when finished will comprise, besides the operating suite, accommodation for Surgical and Maternity Departments, together with a complement of private rooms on each floor. This will augment the hospital beds sufficient to meet present requirements. It has been decided to develop the Pathological and Radiological Departments in the proposed Administration Block. The Directors report this so that the donors and subscribers as well as the general public may know that definite progress is being made towards the erection of the long deferred new hospital, and we trust that at the next annual meeting we may be able to report the completion of the parts outlined.

Finance.

The Department of S. C. R., just before the annual meeting of last year, determined to remove all their patients from civilian hospitals to Esquimalt, and at the end of April, 1920, all S. C. R. patients had been removed. This financially was a serious matter for the Hospital Board, as the staff had been augmented to meet requirements, both nursing staff, office help and other help. We endeavored to make some arrangements with the Dominion Government towards keeping the patients here, even to building some temporary accommodation for them until the new hospital was built, but of no avail. This left the hospital with a larger staff on its hands than was desirable and immediately increased the cost per diem and the Board had, therefore, to seriously consider the reduction of the staff wherever possible without decreasing its efficiency. Such reductions were made, but very little could be effected in this respect owing to the scattered layout of our buildings. Necessary repairs have had to be done, but these, together with trying to keep the inside presentable has necessitated the employment of several mechanics constantly. A very large floor space has to be kept clean, including the nurses' home of three floors, maids' quarters, kitchen, dining room, Pathological and X-ray Departments, etc., of the hospital not usually seen by the casual visitor. The financial situation has been rapidly growing worse since last May, when at that time we were $35,000 behind, and on December 31 a statement was prepared showing a deficit of $40,000, mostly owing to the tradesmen of the city. An appeal was made to the City Council, who gave us $5,000 emergency grant. This relieved the situation to that extent, but the Directors realised that something more must be obtained if the hospital was to keep open its doors. Requests were made to the Provincial Government for aid, but so far they have been unsuccessful. Other hospitals in British Columbia were suffering in like manner and the B. C. Hospital Association resolved to call an emergency meeting of that body to discuss the hospital situation for the whole of the hospitals in British Columbia. They met at the Empress Hotel and drafted several resolutions addressed to the Provincial Government and met the members of the Cabinet the following day. While the financial statement shows that we are still in the same position and no relief is forthcoming, matters have not been bettered by the Dominion Sales Tax, which, of course, all hospitals have to pay like any other corporations. To partially meet the situation the Board have been compelled to raise ward rates to the maximum set by the Government for municipal charges. The rate for ward patients now is $2.50 per day, which formerly was $1 per day. We also have increased our private room charges to as much as we think they can reasonably bear, and yet we are still going behind about $1,000 a month and unless increased aid is received immediately from some source for maintenance your Directors do not see how our institution can carry on its work.

Standardization.

The B. C. Hospital Association made commendable efforts to bring all hospitals in British Columbia up to the standard of efficiency required by the American College of Physicians and Surgeons, and we are pleased to report that our hospital is able to comply with all these requirements and is ranked in the A1 class. Further work lies before the Hospital Association and by its help we should be able to also standardize the amount of income derived from various sources to meet the requirements of the hospitals and find some solution of our present difficulties. This is one of the greatest problems at the present moment and will meet with serious consideration at the next meeting of the B. C. Hospital Association.

D. S. C. R.

At the beginning of April of this year the S. C. R. authorities, owing to the building of the drydock at Esquimalt, had to close that institution and asked the hospital to provide accommodation for their patients. This we did, and found excellent quarters for them in the McBride Ward. We are now taking care of an average of from forty to forty-five S. C. R. patients daily. We cannot tell how long we may have these patients, but we have written to the Dominion Government several times to obtain this information, but without any result. In the meantime we have provided them with the best accommodation we have and if they are with us when we have the new wing completed thy will have much better quarters. A letter was sent to the Premier and the Minister of Agriculture, Hon. Dr. Tolmie, setting forth a resolution of the Veterans of France, the G. W. V. A., and other organised bodies of Victoria, who had met to consider this question. The resolution suggested that part of the new building be set aside as a war memorial for the soldiers, which would also become a permanent hospital for the S. C. R. patients of the Island; also it was requested that the Dominion Government donate to the hospital all the equipment that was in use for the S. C. R. patients at Esquimalt and an assurance that the Island S. C. R. patients would not be transferred to the Mainland, also that the Dominion Government donate to the hospital a certain sum per year towards the cost of building these permanent quarters. An acknowledgement has been received from the Premier and Dr. Tolmie, but beyond that nothing further has been heard.

On the closing of the S. C. R. Hospital at Esquimalt a number of the white help employed there were thrown on the labor market. This hospital has absorbed a number of these men, who are all returned soldiers and married men with families living in Victoria, in place of Chinamen formerly employed here.

Repairs and Improvements.

Our ordinary bill for repairs is much larger than for any previous year. Several permanent improvements have had to be made, such as enlarging the kitchen at the nurses' home, a drain from the Strathcona boiler house 500 feet long, and the installation of bell systems in the public wards; these with other much needed improvements were absolutely necessary. Besides this we report the fitting up of the laundry with machinery, and we are pleased to state that we are now able to take care of all hospital linen instead of, as formerly, sending the largest part of it out to laundries in the city. With the advent of machinery in the laundry we discharged all the Chinese help and replaced them with white girls and white men. We would point out to the donors and subscribers, however, that with white help, not only in the laundry but also in all other parts of the hospital where white help is taking the place of Chinese considerable increase in the pay roll is bound to follow.

We beg to report also that great and absolutely necessary changes have been in the kitchen. A new range and complete new equipment had to be purchased to meet our growing requirements. We beg to report too that in this department all the Chinamen have been discharged and replaced by white men, and we are pleased to report that there is a decided improvement in the food to the satisfaction of the patients and all concerned.

We are fortunate at this time in being able to report that the selection of the Board was made of men from all walks in life who have given their services unstintingly to many of the problems in their own line of business which faced the hospital during the past year.

The Board regret to report the resignation of Dr. H. B. Rogers, who intends to specialize in eye, ear, nose and throat work. The Board recognise the good services he gave the hospital for the last two and a half years and wish him all success in his new undertaking.

Acknowledgments.

We have to acknowledge once more the work of the Women's Auxiliary, who have again provided the hospital with much needed linen and equipment.

We also acknowledge with thanks the work of the Daughters of the Empire, especially the Florence Nightingale Chapter and the O. M. Jones Chapter; the Five Rays and Sunshine Club for their care and attention of T. B. patients; to Miss McGregor's Musical Class for wheel chair to the Children's Ward, and to the pupils of St. George's School for scales for the Children's Ward; to Matthew Baillie Begbie Chapter for their attention to the nursery.

The Daughters of Pity have given the Children's Ward, which is under their special care, unceasing attention and have again provided that ward with further equipment, for which the thanks of the Board are rendered.

The "J" Unit Chapter Daughters of the Empire have loaned to the soldiers' ward easy chairs and to them our thanks are due.

Our thanks are also due to the Executive of the Red Cross for two large tents which are used as recreation rooms by the soldiers and they have also provided two smaller ones for the use of bed patients. These were also furnished by the Red Cross with comfortable easy chairs, piano and victrola, etc.

The Nurses' Alumni of the Provincial Royal Jubilee Hospital have been exceptionally busy this year and we are grateful for the beds and easy chairs supplied to the Women's Ward.

The Board are deeply grateful to those mentioned in the list of donors and subscribers, and to those who have in any way assisted the directors in their work. To the generous providers of Christmas cheer, and to all those who have supplied the patients with books, magazines, flowers or fruit during the past year the Board express their thanks.

The thanks of the directors are due to the editor of The Times and to Mr. J. S. H. Matson, of The Colonist, for free copies of the daily papers supplied to the patients.

To the staff the Board extend their grateful appreciation for their services during the past year.

Bequests

From the executors of the estate of the late Sophie Rudkin, for the sum of $106.81.

From the executors of the estate of the late T. Greaves, for the sum of $14,000, which has been applied to the building fund.

Since the close of the year the directors are gratified to inform the donors and subscribers that $5,000 in war bonds has been received from the executors of the estate of the late Elizabeth Sellers.

We have also been advised that the late William Fernie left the hospital $10,000 under his will.

Treasurer's Report

The following is the treasurer's report:

I herewith beg to submit the official statement of the hospital for the year ending 31st May, 1921. The total cash receipts from all sources was $142,349.03, of which $71,205.87 was received from pay patients; $22,-956.95 from the Provincial Government; $26,116.25 from the Corporation of the City of Victoria and adjacent municipalities; $6,916.35 from the Government of Canada for care of S. C. R. patients.

The hospital also received $14,-166.87 from bequests and many other amounts from organizations and individuals interested in the work, all of which, together with interest on investments, is being kept in separate accounts, and will be used solely for extension of the work of the hospital and in the purchase of new equipment.

The question of hospital financing has occasioned great anxiety to the directors during the past year.

So far as is known the public hospitals of British Columbia are the only institutions for which adequate provision is not made by the authorities, Provincial or Municipal.

We are grateful to the Government of the Province for the per capita grant given to this institution, and to the Corporation of the City of Victoria for assistance, but there is no legal obligation on either of these to furnish the funds necessary for the carrying on of the hospital and the payment of its accounts as they fall due.

The Province is careful to provide by direct assessment or through the municipalities for the maintenance of the public schools, but somehow the hospitals are left out of the reckoning, and no one is directly responsible for their upkeep.

This is not as it should be. It is clearly the duty of some department of the public service to deal with the whole question of hospital maintenance and financing in a broad way.

Hospital difficulties are not confined to British Columbia. Those of you who have kept in touch with the situation in England will know that the voluntary system of support has completely broken down, and that the British hospitals show a deficit of more than a million pounds sterling for the past year. The famous London Hospital is already half closed for want of sufficient funds to keep it going, and immediate assistance is necessary to save the hospital situation in Great Britain.

It is also interesting to note that the New South Wales Legislature is dealing with the same subject by dividing the state into 160 hospital districts, with a compulsory regular contribution from employers and employees, all of which goes to show the necessity for similar action in the Province of British Columbia.

Once more I would like to remind the public-spirited citizens of this community that no better method of perpetuating their name exists than that of remembering the hospitals in their wills. Only a week or two ago I was handed $5,000 in Victory Bonds left to the hospital by a generous-hearted lady, which money will be used to help in the erection of a new wing, and thereby perpetuate the name of the giver in the untold benefits given to sick and suffering humanity.

The construction of the new wing, so much needed, will give an opportunity to all to assist in building and furnishing what we hope will be a part of one of the finest and best equipped hospitals on the continent, where all will receive the best that can be had in modern science for the prevention and cure of disease.

Respectfully submitted,

A. E. FORMAN,
Honorary Treasurer, Provincial Royal Jubilee Hospital.

Superintendent's Report

The following is the report of the Medical Superintendent:

"I have the honor to submit the following report for the year ending May 31, 1921:

"During the past year there were admitted to all departments of the hospital, except out-patient department, 2,398 patients. Of these eighty-four were in hospital at the beginning of the new hospital year, a decrease of sixty-four over th epreceeding year, and the total number of hospital days was 40,589, as compared with 46,114 of the previous year, a decrease of 5,525 hospital days. The average stay of patient in hospital was decreased from 18.7 days in 1920 to 16.9, and the average daily number of patients in hospital has decreased also from 126 1-2 to 111.3. These decreases are due to the fact that early in the past year the S.C.R. patients were moved from the Jubilee Hospital to Esquimalt Hospital. The number of out-patients treated has decreased from 746 to 510. The births for the year totalled 138, and the deaths were 129, an increase of twenty-nine births and a decrease of deaths from 139.

"The Maternity Department, despite the fact that three extra beds were added last year, is entirely inadequate to cope with the number of such cases applying for admission. We have had as many as five babies born in one day. The nursery accommodation for the babies is also overcrowded. These conditions should shortly be amended now that the projected new hospital is at last under way.

"The Children's Department, although crowded during the Winter months, is probably one of the best able to take care of the work thrust upon it.

"Our private rooms have also been working at capacity, and we have been forced at times to turn away five to six private patients a day because of lack of accommodation, therefore losing much revenue because private patients will not wait.

"At the present time the city's most crying need is a home for incurables. Were this established it would almost immediately increase our accommodation at the Jubilee Hospital by twenty beds at least. We have a certain number of patients, who, although not well enough to look after themselves outside, are, on the other hand, not sick enough to be hospital cases. These people, because there is no city infirmary, must be accommodated at this hospital, and then much needed accommodation for sick people is kept continually occupied.

"Much thought must be given in the near future to the care of venereal patients. At present, under the new Venereal Act, ambulatory cases are treated at the Government Clinic, but no serious thought has been given to patients requiring hospital treatment, and as public hospitals will be required to admit these cases, we should, in the near future, provide some means of negotiating these cases in their own particular department of the hospital, and should not be forced to admit them to our general wards.

"As Dr. Rogers has pointed out in his last report, and as I would like to again emphasize, the hospital is in need of an observation ward, where suspected patients could be admitted temporarily until such time as a diagnosis was made and which would eliminate the danger of admitting to the general ward all cases of a contageous or infectious nature.

"Our crowded condition of the hospital has been brought to the attention, not only of the general public, but also of the Government and City Council, and I am very glad to say that all have entered enthusiastically into the problem of the new hospital, which has been a talked of possibility for so many years, and which now gives every evidence of becoming a glorious reality.

"Our Department of Pathology, although nominally a hospital department and under our control, is really the Government laboratory for Vancouver Island. Here we do, not only our own work, but the pathology of Victoria City, Provincial Government on the Island, and also Dominion Government on the Island. Now that the Venereal Act has come into force and is working satisfactorily, the work of the laboratory has been very much increased, and with the increase of work, our staff, naturally, had to be increased. The total number of reports issued by the laboratory during the past hospital year was 5,243, covering approximately 20,000 tests of various kinds done, which means a daily average of 54.3 tests of various descriptions, requiring anywhere from fifteen minutes to six hours apiece to do. Out of 2,865 reports, aside from urinalysis, 1,953 were given on out-patients, necessitating approximately 10,000 tests. This will give some slight idea of the amount of work which is demanded of the laboratory during a year. Despite this vast amount of work and the rather small and inaccessible quarters allotted to the pathologist and his staff, the work has been carried on cheerfully, officially and satisfactorily.

Radiology

"Our radiological laboratory, which is recognized as one of the best equipped, organised and run laboratory of its type in Canada, is, as all other departments, cramped for space. The volume of work done has increased at an amazing rate during this past year. During the twelve months, 4,587 plates and films were taken for diagnostic works, and 739 treatments were given in the department, a total of 5,326, which gives a daily average for the year of 15 examinations made, plates or films taken and treatments given. When you stop to consider that some treatments take as long as three hours, the number of working hours put in by the department has been very great indeed.

"In regards to hospital standardization, as mentioned by Dr. Rogers in his last report, I wish to state that this year we were visited by the traveling inspector of the American College of Physicians and Surgeons, who went into all the details of staff, administration, case records, etc., of the hospital. Subsequently I was in receipt of a letter from the American College of Physicians and Surgeons, commending the Jubilee Hospital on its high standard of efficiency and the excellence of the case records and good work being done by the laboratories. Here I should stop to add that our present state of efficiency in these departments is due to the excellent organising and enthusiasm shown by Dr. Rogers during his term as Medical Superintendent.

"I also wish to thank the members

Easiest Way to Remove Ugly Hairy Growths

(Beauty Culture)

Here is a method for removing hair from arms, neck or face that is unfailing and is quite inexpensive: Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh. (Advt.)

MONTHLY MEETING OF ORPHANS' HOME

Sixty-Three Children Now Residing at Local Institution—Inmates Have Been Much Entertained

The regular monthly meeting of the ladies' committee of the Protestant Orphanage Home took place on Monday afternoon, with Mrs. McTavish, the president, occupying the chair. The following ladies were present: Mesdames Lang, Cameron, Walker, Morris, J. W. Spencer, Hammond, Brown and Andrews.

In the unavoidable absence of the secretary, Mrs. Sherwood, the minutes of the meeting were taken by Mrs. Spencer. There are at present sixty-three children at the Home, all of whom are reported well and happy. During the past month, two children, Margaret and Nicholas Reynard, aged 6 and 7½ years respectively, were admitted, while Irwin Belford, after eleven months' treatment in the Jubilee Hospital, has returned to the Home, and is somewhat improving, dut to the out-of-door life and companionship of the children.

The pound party which was held on June 21 was very successful, and the Home was liberally remembered with gifts of money and contributions by kind donors. The visiting committee desire to thank all those who so kindly assisted them with flowers, and in the decoration of the Home, and also those who aided in the serving of tea.

The children have been royally entertained during the past month, and they appreciate the many kindnesses which they have received. The Mildred Page Players invited them to a Saturday matinee at the Princess Theatre, and made a gift of ten pounds of candy, which was greatly enjoyed. Miss Berr and eight young ladies entertained the children one evening, and treated them to strawberries at the conclusion of the programme.

On June 24, the Orphanage school closed after a very successful team. The closing exercises included songs and recitations, after which Mrs. McTavish presented the rolls of honor. She then treated the children to ice cream, biscuits and chocolate bars, which were soon disposed of by the happy, kiddies. The Chief of Police recently 'phoned the Home asking permission to give the children an outing on July 13, and he was referred to the president to complete arrangements.

Kiwanian Outing

The Kiwanians gave the children a delightful outing at the residence of Mr. and Mrs. Newton, Beach Drive, who for many years have entertained the children on this holiday. Motors took the children to their destination at 9 o'clock in the morning, and returned at 7:30 in the evening. A happy day was spent on the beach and at field sports. The prizes offered were: Ten pairs of stockings, six pairs of running shoes, one dozen tooth brushes, sweaters and hair ribbons. Each child was given a toy during the affair, which was greatly enjoyed by the guests.

The following donations are gratefully acknowledged: Groceries, fruit and vegetables: Cloverdale, Mrs. McTavish, Mrs. Ellers, Bagley's Grocery, Saanich Fruit Growers' Association, Mrs. Curtis Sampson, Mrs. Fred Beebalcs, Mrs. Billings, Mrs. Fortune, Mrs. Head, Ruth and John McTavish, Misses Wards, Mrs. Bradshaw and Mrs. J. Raymur. Clothing and toys: Mrs. and Miss Street, Mrs. Scowcroft, Mrs. Walker, Mrs. John Day, Mrs. S. Corbett, Mrs. McMartin, Mrs. Bonaire, Mrs. J. W. Spencer, Cash; Mrs. and Miss Taylor, Mrs. Gould, Mr. John Booth, Mrs. Carne and Mrs. J. Vaughn Roberts. Professional service: Doctors Bryant and Lewis Hall; also The Colonist and Times.

SOCIAL AND PERSONAL

Mrs. Gilmour, of Victoria, has left on a visit to Parksville.

Mrs. Seabrook has returned to Victoria after a visit spent at Alberni.

Miss D. Wootton, of this city, has returned from a fortnight's visit to Cowichan Lake.

Miss Helen Bolston is spending a week as the guest of Miss Victoria Wylde at Strathcona Lodge, Shawnigan Lake.

Mr. Charles E. Campbell, proprietor of The Vancouver World, was a visitor in the city yesterday and called upon members of the Government.

Friends of Mr. W. J. Taylor, K.C., will regret to learn that he is at present a patient at the St. Joseph's Hospital.

Mr. J. H. Falconer, Vancouver member of the Liquor Control Board, went over to Vancouver yesterday on business connected with the Board.

Hon. Mr. Justice Duff and Mrs. Duff, of Ottawa, and formerly of this city, sailed on June 29 for England, where they will spend some weeks.

Hon. J. W. deB. Farris, Attorney-General, who went over to Vancouver on Monday night, will be back in the city this morning.

Mrs. Richard Day, accompanied by her child, are visiting in Victoria from California, and are the guests of Mrs. Day's mother, Mrs. Meredith.

Mrs. Cecil Hankinson, of Smithers (formerly Miss Lou Sangster), is visiting her friend, Mrs. Beall, of 2317 Belmont Avenue, for a few weeks.

Mrs. (Dr.) J. T. Martin arrived in the city yesterday from Portland, Oregon, for a few weeks' visit to her sister, Mrs. C. M. Cookson, Yates Street.

Mrs. O. Gustafson, Chemainus; Mr. and Mrs. E. S. Martin, Nanaimo; Mr. A. S. McLeod and wife, Chilliwack; and Mr. Lionel J. Peake, Nanaimo, are guests at the Dominion Hotel.

Among the guests at the Strathcona Hotel are Mr. and Mrs. E. H. Hadwen, Duncan; Mr. and Mrs. W. R. Pitchford and family, Calgary; and Mr. and Mrs. Bridle, Winnipeg.

Mr. and Mrs. Richard Bolton, of New York, are spending a few days visiting in this city, and are guests during their stay at the Empress Hotel. Mr. Bolton is a brother of Rev. W. W. Bolton, formerly of this city, and also of Mrs. Colin Cumming, who is also visiting in Victoria from Seattle, where she now resides.

Mrs. H. S. Williams, Winnipeg; Mr. A. W. Pettigrew and wife, Calgary; Mr. and Mrs. T. R. Carr and Mr. and Mrs. A. H. Beaumont, Vancouver, are guests at the Westholme Hotel.

Mr. and Mrs. S. G. Feele left yesterday morning by the Sol Duc for Port Angeles, from which point they will motor to Portland, where they will spend a vacation visiting relatives, returning home in the course of a couple of weeks.

The Rev. J. C. Kunzmann, D. D., of Seattle, is spending a few days in the city, and is the guest of Rev. F. E. Baisler and Mrs. Baisler, of 1615 Empress Avenue. Dr. Kunzmann addressed the Brotherhood at Grace Lutheran Church on Monday evening.

Among the visitors at Devonshire House are Mrs. C. E. Bland, Moose Jaw; Mrs. James Bland, Ottawa; Mrs. Evelyn Hartley, Metchosin; Miss Tarbuck, Saturna Island; Mrs. Shakespear Pike and daughter, of London, Eng.; Mrs. Booth and Miss Ruby Booth, of Medicine Hat; Miss J. H. McKay, of Edmonton.

Mr. and Mrs. Chas. E. Campbell, Vancouver; Mr. F. C. Macdonald, Calgary; Mr. J. M. Smith, Lougheed, Alta.; Mr. S. Bell, Saskatoon; Mrs. W. H. Armstrong and Miss Woodrow, Vancouver; Miss Annie Bradford and Miss Jean Miller, Winnipeg; and Mr. Wm. D. Cameron, Saskatoon, are guests at the Empress Hotel.

Monday afternoon at 3 o'clock Mrs. Walter C. Nichol formally opened the Greater Vancouver Horticultural Society flower exhibit. Miss Florence Fyfe-Smith made a presentation to Mrs. Nichol of a shower bouquet of pink roses. Dame Nellie Melba was a visitor during the afternoon, and was complimented with a bouquet of Australian blue delphinium, presented by Miss Florence Black.

Among the guests registered at the Brentwood Beach Hotel are Mr. and Mrs. Maynard, Mrs. Smith and her son and daughter, all of Victoria; Major and Mrs. McKenzie, of Vancouver; Mr. and Mrs. McElroy, of San Francisco; Mrs. Hillman and Mr. Day, of Seattle; Mr. and Mrs. Schreuder, of Seattle; Mr. and Mrs. Fickle, of Seattle; and Dr. and Mrs. Brown, of Vancouver.

The beautiful gardens at Mount Adelaide, kindly lent by Mrs. Croft for the Esquimalt Chapter, I.O.D.E., garden party, being held this afternoon, are in their best Summer dress at present, with a display of choice roses, delphiniums and foxgloves, pansies and other blooms which flourish at this season of the year. The special attraction of the afternoon, apart from the privilege of sauntering through the gardens, will be the music by the 16th Battalion orchestra, under Mr. Lou Turner, which will play from 3:30 to 6 o'clock.

Miss Gladys Irving entertained yesterday afternoon at her home, "Buncrana," on Terrace Avenue, in compliment to her two house guests, Miss Newsome, of Vancouver, and Miss Innes Bodwell, also of Vancouver. Three tables of bridge were in progress during the afternoon, while other guests arrived at the tea hour. The guests included Miss Peters, Miss Little, Miss Tait, Mrs. Taylor, Miss Turner, Mrs. George Johnston, Miss Day, Miss Eberts, Mrs. Norman Payne, Mrs. Ford, Mrs. Bullock-Webster, Mrs. John Stewart, Mrs. Chaytor Payne, Miss Ball, Mrs. Reis, of Shanghai; Mrs. C. E. Thomas, Mrs. Ray Green, Miss Ball, Miss Clay, Miss Nellie Turner, Miss Campbell and Miss McLaren.

Among the guests staying at the Strathcona Lodge, Shawnigan Lake, during the last few days are: Dr. and Mrs. L. Macmillan, Miss Marion Macmillan, Dr. B. D. and Mrs. Gillies, the Misses Gillies, Master Gillies, Mr. and Mrs. McMurphy, Mr. S. Sutton, Miss M. B. Patterson, Mrs. G. H. Worthington, Vancouver; Mr. and Mrs. R. D. Travis, G. W. Newton, Miss W. Ferriman, Mrs. W. Brown, Miss Ethel Brown, J. MacDonald, Mrs. Henry Crene, Miss Elizabeth Pierce, Miss Helen Bolston, Mr. R. E. Smith, Mr. and Mrs. Nation, Miss Nation, Master Nation, Victoria; Mr. and Mrs. Stevenson, Chilliwack; J. F. Connor and wife, Miss R. Palmer, Miss Betty Stanton, California; Dr. and Mrs. W. A. Kerr, Master Harry Kerr, Edmonton; Miss K. Charlish, England.

When the King and Queen of England pay their annual visit to Scotland they are going to stay with the Duke and Duchess of Roxburg, who are most popular in court circles. It is a ticklish proposition for the King's advisers to pick Scottish hostesses, and it is a tribute to the Duchess that she has been chosen as the recipient of the Royal patronage. But her unwavering popularity has given her a special niche in the affection of the Queen, and she is usually to be found with them in town. She was most prominent at the King's house party at Windsor Castle during Ascot week. Her attention to Princess Mary during the last months has partaken more of the character of a chaperone than that of a person who might be regarded as honored by the company of the King's daughter.

WEDDINGS

Nimerick-Lester

Yesterday afternoon, at Breadalbane, the Rev. Dr. Campbell officiated at the marriage of Mr. William Jay Nimerick and Miss Esther Margaret Lester, both of Seattle. The bridegroom is a native of Michigan and the bride of Tacoma. They left by the evening boat for Seattle, where they will make their home.

NEW YORK ROWDIES BURN BRITISH FLAG

NEW YORK, July 5.—James Barry, claiming to be a veteran of the world war, and a former member of the A. E. F., and two companions, pulled down a British flag which had been flying over the Hilltop Apartments at 14 Audubon Avenue. Later the flag was taken to a vacant lot and burned, according to The Herald, which reported the affair. The Herald states that a crowd estimated at one thousand watched while the flag was being burned, and offered no interference.

The flag had been flying in company with the French and United States colors as part of the July 4 decorations.

TURF RESULTS

Grand Circuit

CLEVELAND, Ohio, July 4.—Prince Loree, owned by Captain David Shaw, and driven by Mike McDevitt, won the Edwards 2:08 class pace, the feature of the opening day's programme at North Randall today, taking the three thousand dollars stake in two straight heats. His time 2:02 3-4 in the second heat, established a record for the stake.

LATONIA, July 4.—Exterminator, ridden by Jockey Haynes, won the mile and a half Independence handicap in 2:40 1-5. The valuation to the winner was $18,735. Wood Trap finished second and La Rable, third.

Baseball Player Killed

TORONTO, July 5.—Edward Marquis, right fielder of the Moose baseball team, of this city, died in a hospital today as the result of being hit by a pitched ball Saturday. He was dazed a few minutes after the accident, but continued in the game and batted twice more, fanning both times. The cause of death was given as internal hemorrhage. The ball struck him at the base of the skull.

WALTER HAYES WINS CLAY COURT TITLE

Regains National American Championship Won Ten Years Ago—Is Also Winner in Doubles Event

CHICAGO, July 4.—Walter T. Hayes, of Chicago, succeeded Roland Roberts, of San Francisco, as the national clay court tennis champion today, when he defeated Alex. M. Squair, of Chicago, in three straight sets in the final rounds of singles, 6-0, 6-2, 6-4. The victory returns to Hayes the cup he won in 1911 at Omaha in the second annual clay court tournament.

In the doubles final Hayes and Clifton B. Herd, of Pasadena, Calif., succeeded Roberts and Vincent Richards, of New York, as the champions. Hayes and Herd defeated John and Ralph H. Burdick, of Indianapolis, in three sets, 6-1, 6-3, 6-3.

WOULD CHARGE JACK WITH BODILY ASSAULT ON FRIEND GEORGES

NEW YORK, July 5.—Jack Dempsey, heavyweight champion, quietly left his hotel here late today, and a short time later was aboard a train bound for Salt Lake City. He was accompanied by Teddy Hayes, his trainer, and Detective-Sergeant Mike Trant, of Chicago, who has been the champion's bodyguard and constant companion since he began training for the bout with Carpentier. Jack Kearns, Dempsey's manager, did not accompany the party. The title-holder will visit his mother. Afterwards he probably will go to California.

Trouble shot from two directions toward the champion during one day. His valuable limousine was seized by a deputy sheriff, acting on a writ issued last Friday in Batavia, N.Y., in a $100,000 suit brought by Frank Spellman in connection with a motion picture enterprise. In Jersey City, counsel for the International Reform Bureau endeavored to have him hauled into court on a complaint charging him with assaulting Carpentier.

RIFLE RANGE RESULTS

The 16th Canadian Scottish Rifle Association held their Dominion Day shoot at the Clover Point range. There was a very strong, gusty wind blowing, which necessitated the marksmen shooting from the 300 and 200 yards ranges only. There were eleven rounds fired from the 200 yards range and 10 rounds fired from the 300 yards range, which made the possible score, as usual, 105 points. The scores were as follows:

Name	200	300	Tl
Sgt. W. E. Mitchell	49	39	88
Lt. S. Henson	50	36	86
Cpl. A. E. Ashe	48	36	84
Maj. R. G. Monteith	49	34	83
*Pte. A. B. Food	51	28	79

Pte. T. N. Hibben	15	26	19	65

* Spoon Winner.

Decide on Dates for Opening Game Season

Victoria and District Fish and Game Association Adopts Recommendations to Be Made to Government Board—Will Now Confer With Delegates of Up-Island Bodies

If the recommendations of the Victoria and District Fish and Game Association are adopted by the Game Conservation Board, the open seasons for shooting this year on Vancouver Island will be as follows:

Deer—Open from September 17 to November 30, bucks only to be killed; with a closed season for Saanich Peninsula.

Blue Grouse—Open from September to October 30, with a bag limit of six per day.

Willow Grouse—Open from December 15 to December 31, with a bag limit of four per day.

Quail—Open from October 15 to December 31, with a bag limit of twenty per day.

Pheasants—Open from October 15 to November 30, with a bag limit of six cocks; no hens to be shot.

European Partridges—Open from November 15 to November 30.

The season for Ducks and Geese is set by Ottawa.

These recommendations were decided on last evening at the general meeting of the Victoria and District Fish and Game Association, called for that purpose, after a free and open discussion; in which very little difficulty was experienced in arriving at an unanimous opinion in each case.

Real Business Meeting

Although the meeting was not as fully representative of the association, in point of numbers, as had been hoped, everyone present meant business, and a number of very interesting and valuable opinions were heard on the subject of opening the seasons and other matters relating to game and game preservation. Among those present were Game Wardens Gidley and Walker, and their opinions were several times called for by the chairman of the meeting, Mr. E. L. Tait, and in several cases shed a lot of helpful light on the particular question under discussion.

Members were present who were well qualified to speak from first hand of game conditions in practically all the districts adjacent to Victoria, and very welcome statements were made by men from a number of diverse districts, that from personal observation game birds are far from being scarce this year.

At the start of the meeting the energetic secretary of the association, Mr. C. E. Thomas, informed those present that the membership of the association had grown from 32 to over 400 in a year, and was still growing rapidly.

The decision to recommend a closed season for deer on Saanich Peninsula was arrived at after hearing the opinion of several members from Saanich, who stated that they were certain that the Saanich residents were in accord on that point, and it was stated that the residents of the Highland district were also in favor of this restriction.

Practically all the reports from the blue grouse districts were to the effect that the birds have had a very good breeding season and are very plentiful this year, with large coveys well advanced.

Destruction of Vermin

Following the adoption of the recommendations for open seasons, which are to be made to the Game Conservation Board, President Tait spoke on the question of vermin and bounties. Although the association has been the means of getting some bounties increased, notably on panthers and crows, he was of the opinion that a great deal more should be done. He considered that $40 as a bounty on panther was totally inadequate, as not being sufficient inducement to any man to make a business of panther destruction, and he was emphatic in his declaration that bounties should be placed on coons and mink, two of the worst enemies the small game has, with the possible exception of cats. Everyone present was entirely in accord with him on this subject, and it was agreed that everything possible should be done to aid in the war on vermin, and that, in addition to giving bounties, it was desirable that the Government be asked to remove the obstacle in the way of trapping coon and mink in the shape of the $10 licence now necessary.

Before the meeting closed, it was announced by Secretary Thomas that arrangements had been made with "Field and Stream," whereby their fine moving pictures of hunting scenes will be shown here in a local theatre on August 18. This entertainment will be free, and, as these pictures have been received with the utmost interest wherever they have been shown, it is expected that there will be no difficulty in getting a full house for their enjoyment here.

Making It Unanimous

Following the adoption of the recommendations set forth above by the local association delegates from the Victoria body will meet delegates from other Island associations at Duncan next Sunday, with a view to arriving at, as far as possible, unanimous expressions of opinion from the whole of Vancouver Island to set before the Game Conservation Board at their meeting, to be held in Vancouver, on July 14.

TENNIS TOURNAMENT WON BY PARKSVILLE

PORT ALBERNI, July 4.—The tennis tournament played on the Alberni courts on Saturday afternoon proved to be a great success. On the arrival of the guests from Parksville, luncheon was served by the Alberni ladies and the tournament started shortly after.

Tea was served about five o'clock to all present.

Parksville won eight matches to four, as follows:

Men's Singles

Mr. Thwaites (Parksville) beat Mr. Brimacombe (Alberni), 6-0, 0-6, 6-0.

Mr. Molliet (Parksville) beat Mr. Matson (Alberni), 6-1, 6-3.

Ladies' Singles

Miss Hayne (Alberni) beat Miss Todd (Parksville), 6-3, 6-4.

Mrs. Bayne (Alberni) beat Mrs. May (Parksville), 6-4, 3-6, 3-6.

Men's Doubles

Thwaites and Molliet (Parksville) beat Brimacombe and Hayne(Alberni, 6-3, 4-6, 6-3.

Forbes and Newmarch (Parksville) beat Walker and Biandy (Alberni), 6-4, 6-0.

Ladies' Doubles

Mrs. Bayne and Miss Hayne (Alberni) beat Mrs. Docher and Mrs. Thwaites (Parksville), 6-5, 2-6, 1-6.

Miss Todd and Mrs. May (Parksville) beat Mrs. Dawson and Mrs. Lee (Alberni), 6-2, 6-4.

Mixed Doubles

Miss Hayne and Mr. Hayne (Alberni) beat Mrs. Docher and Mr. Thwaites (Parksville), 6-4, 4-6, 6-4.

Mrs. Thwaites and Mr. Molliet (Parksville) beat Mrs. Bayne and Mr. Bayne (Alberni), 6-4, 5-6, 6-3.

Mrs. May and Mr. Newmarch (Parksville) beat Mrs. Birks and Mr. Birks (Alberni), 6-4, 6-3.

Miss Todd and Mr. Forbes (Parksville) beat Mrs. Brimacombe and Mr. Spratt (Alberni), 3-6, 6-0, 6-4.

AUSTRALIA WINS

LEEDS, England, July 5.—Australia won the third test match against England today by 219 runs, thus making a certainty of the rubber.

The Australians declared the second innings closed at 273 runs for seven wickets, leaving England 432 runs to get to win the match. This was a task hopelessly beyond the English team in the time at their disposal, even if sufficient batting power were available, and this, in the absence of Hobbs, who was stricken with appendicitis during the match, was scarcely conceivable.

Brown again played sound cricket, while Tennyson, Woolley and Jupp also rendered useful assistance, but the Australian bowling and fielding were at their best, and soon settled the issue, and, with it, secured final victory in the test series.

SIX RECORDS BROKEN AT PASADENA MEET

New York Runners Win All Five Relay Races, Setting New American Marks at Four Distances

PADDOCK FIELD, Pasadena, July 5.—The three-day championship meet of the A.A.U. finished here tonight. New York A.C. took all five of the relay races on the cards. A Californian, Thomson, of Los Angeles A.C., took first place in the all around championship, making a new world's record for points scored. The old record was 7,498 points and was held by Fred Thomson, a brother of today's winner, who scored 7,534 points. Shea, Pastime A.C. of New York, was second with 6,370 points.

Six records were broken in the relays. New American and A. A. U. records fell in the 440 relay, the 880 relay and the one and two mile relays. No world's records fell today except the all around championship point record.

TODAY'S CRICKET

Cricket matches in the Wednesday League, to be played today, are as follows: Five C's vs. Spencer's, at Beacon Hill; Broad Street vs. Garrison, at Jubilee Hospital. Broad Street C. C. announces its team as follows: P. Richardson, W. Cowan, Gardler, Silburn, Newman, Ackroyd, Rose, Hallam, Wormald, Beaney and Freeman.

Another Big Shipment of PHILADELPHIA DIAMOND GRID BATTERY

Has Just Arrived

THE popularity of this high-grade battery is vouched for by the numbers of them which we import in order to meet the Island demand. Because it is a good battery—guaranteed for two years—it is dependable all the time, and it is far cheaper in the end than an inferior battery.

WEILER AUTO SUPPLY HOUSE

Douglas St. at Broughton (New Otto Weiler Building)
TELEPHONES: Office, 659; Battery Dept., 669; Night Phone, 69

JUNIOR BASEBALL

The Bay sluggers treated the offerings of two Fairfield twirlers with contempt last night, and won the session, 15-3.

Roskamp started on the slab for the Bays, and the Fairfields succeeded in garnering two runs off his delivery in the first inning, but from there on "Dutch" was invincible. Hank Campbell relieved him in the seventh and went along well, allowing only one run.

Tommy Moffat was the Fairfield choice, but his arm gave out in the latter part of the game, and Belford finished on the mound.

The Fairfield fielding was very shaky, a large number of miscues being credited to them, while the Bay aggregation handled their chances in snappy style. Score:

	R.	H.	E.
Bays	15	13	2
Fairfields	3	3	3

Batteries—Roskamp, Campbell and Temple; Moffat, Belford and Worthington.

Wards Beat Centrals

The Centrals had their slugging bats with them last night, and collected a total of 13 hits, but the jinx that has been following them all season was still on their trail.

For the fourth time they were ahead one run at their half of the ninth. Then came that eventful ninth inning rally. Ray, the Wards' second bagger, stepped to the pan and proceeded to knock the ball for three bases. He was followed by Holman, who also seemed to like Lorens's offerings. His home run drove in the tieing and winning runs.

Lorens pitched a good brand of ball, and besides holding his opponents to nine hits, fanned ten men.

McNaughton seemed to have little on the ball to fool his opponents, except for seven men who fanned. He was accorded very good support.

Bentley played sensational ball in right field, accepting four hard flies without an error.

	R.	H.	E.
Centrals	13	13	1
Wards	14	9	2

Batteries—Lorens and Price; McNaughton and Thacker.

UNITED SERVICES GOLF

In the monthly medal competition of the United Services Golf Club for July Mr. Darcus won the men's spoon and Miss Noonan the ladies'. The ladies' eclectic competition will close August 15. All players must pass in four cards of nine holes each, or two cards of eighteen holes each.

Scottish Team

FORT WILLIAM, Ont., July 5.—In another exhibition of brilliant playing which consisted of clever headwork, neat passing and hard shooting, the Scottish footballers defeated the Fort William All-Stars tonight by a score of 7 to 1.

Last Races Sailed in International Regatta

SPORTING NEWS

Tacoma Opens Series With Caps Here Today

HANDICAP EVENTS CONCLUDE REGATTA

Pacific International Yearly Sailing Meet Brought to Successful Termination at Cadboro Bay Yesterday

The final events of the Pacific International Yachting Association's regatta, which started on July 1, were run off at Cadboro Bay yesterday, when the second and third races of the dinghy and kitten handicaps were run off. Some splendid contests were witnessed by the large number of spectators, and the annual sailing meet was brought to a successful conclusion.

In the first race of the series, which was held at Cowichan Bay on Friday, The Black Cat No. 13, owned and sailed by Mr. Winslow, of Vancouver, crossed the winning line first, closely followed by Messrs. Blanchard, Ashe and Wiley, in their dinghies, the latter two of Victoria. In yesterday morning's race, Mr. Winslow was the successful yachtsman, but in the afternoon he had to acknowledge defeat to Mr. Blanchard, of Seattle, whose kitten boat made a splendid showing.

Distance 4 Miles

The first race was scheduled to start at 10:30 o'clock, but it did not get under way until half an hour later. The judges of the events, Mr. Alex. Marshall, of Vancouver, and Mr. F. J. O'Reilly, of Victoria, stood on the Royal Victoria Yacht Club's landing, which was the judging point. The participants were required to proceed twice around a triangular course of two miles, the first buoy of which was located in the vicinity of the Willows, with the second mark standing in the straits at the entrance to Cadboro Bay.

Sixteen dinghies and kitten boats started the race promptly at 11 o'clock, and were aided by a brisk wind, which carried the small vessels along at a brisk pace. Four of the boats were running more or less even most of the time, but the Black Cat took the lead on the home stretch and crossed the line at 13:41:42, followed by Mr. Patterson, of Seattle, whose kitten boat came in 1 minute and 39 seconds after Mr. Winslow's pride. Mr. Bell-Irving, of the Terminal City, crossed at 13:45:41, and the fourth arrival was Miss Mills, of Seattle, who completed the race at 13:48:13.

Afternoon Tussle

The afternoon tussle was also very interesting, and proved a pretty race. Thirteen vessels started in the race, although only eleven finished the contest. Many of the morning boats took part in the second race. The wind was not quite as strong at this juncture, but the boats appeared to make the best of the breeze, although before the termination of the race it freshened considerably, and a fine finish was observed. The tussle was close from first till last, but several kitten boats maintained an even spacing throughout the afternoon. The kitten boat of Mr. Blanchard, of Seattle, crossed the line first at 4:11:47, with the Black Cat No. 13 close upon her, although 1 minute and 12 seconde in the rear. Mr. Patterson, also of the American port, came in third at 4:13:31, while the next boat to complete the circuit was Mr. Bell-Irving's Favorite of Vancouver.

The local dinghy boats were at a decided disadvantage throughout both races owing to the superiority in size of the kitteg or cat boats over them, and it is expected that the handicaps will prove insufficient to give the Victoria participants a chance to claim the honor of winning either of the matches. Many of the visiting yachtsmen left for their homes last night after the day's programme had been run off, while the balance will undoubtedly leave today after taking part in one of the most successful regattas over held on the Pacific Coast.

THE SQUARED CIRCLE

BUTTE, Mont., July 5.—Dave Shade, of Portland, was given the judge's decision over Joe Simonich, of Butte, in their 15-round bout here last night. They are welterweights.

DES MOINES, Ia., July 5.—Homer Smith, of Kalamazoo, Mich., fought a draw with Hughie Walker, of Kansas City, here yesterday. The men are heavyweights.

LEAGUE BASEBALL

Coast

At Los Angeles—	R.	H.	E.
Los Angeles	4	13	1

Cricketers Peeved

LONDON, July 5.—Protest is being made by cricketers against the football season extension overstepping that of cricket. The football council has appointed a commission to inquire into the situation, but no alternative is suggested.

Japs Win Baseball

SEATTLE, July 5.—Waseda University, of Japan, triumphed over the University of Washington at baseball here today, 5 to 3.

Lacrosse Practice

The Shamrocks lacrosse players will hold a practice this evening on the High School grounds at 7 o'clock.

TACOMA WILL OPEN WITH CAPS TODAY

Interesting Series Expected Between Mullen and Hansen Clans—Game Will Start at 2:30 o'Clock at Stadium

Groomed to make a new start and fight their way into the lead of the second half of the Pacific International Baseball League and thereby earn the right to play off with Yakima for the championship in the post-season series, the Capitals returned to Victoria yesterday, and this afternoon at 2 o'clock will hook up with the Tacoma Tigers in the first of a four-game series.

The Capitals rode the bumps in Tacoma, but all games were lost by a very close margin, the Caps forcing the Tigers to go thirteen innings in one of Monday's games before the issue was decided.

President Rithet is hoping that the fans will turn out in full force to welcome the Caps home and give them a good start on the second half of the season. Manager Hansen is rounding the team into shape, and hopes for far better progress from now on. It is possible that another pitcher will be obtained to bolster the team.

The Capitals have returned from the road in good shape. All the players are looking for is a little warmer weather, which will loosen up their joints and put some pep into their play. The cold evenings have not been conducive to the best play.

Victoria will spend next week in Vancouver, and will then return here for a series with Yakima. This latter series should prove exceptionally close and exciting. Victoria and Yakima always get mixed up in some hard slugging games which keep the fans in a state of excitement all the time.

The Tacoma team, which will be here today, is not as heavy with the willow as the Crabapples, but they are slick in the field, and manage to get enough clouts to win most of their games. The series this week with the Tigers should prove very close and even, and the Cape should get better than an even break.

NANAIMO SPORT NEWS

NANAIMO, July 5.—The Nanaimo Gun Club held its sixth trophy shoot of the season on Sunday. James Gordon, with 24, was first in class "A" for the James Caldwell trophy. J. Carr was high for the D. Spencer trophy with 16; while P. McKie with the same score was first for the Geo. A. Fletcher trophy.

The Nanaimo baseball team goes to Granby tomorrow to play a mid-Island game. The local team will be Zaccarelli, Piper, Woods, Thompson, Shepherd, Killsen, Aitken, Bailey, W. Beattie, A. Beattie, Bowen.

The Elks defeated the Native Sons in a baseball game on the cricket grounds on Sunday, the score standing 14 to 1.

Arrangements have been completed for an exhibition soccer match to be played on the cricket grounds on Saturday afternoon between Nanaimo City and Ladysmith, the game to commence at 4 p.m.

On Friday last the Nanaimo City team made a fine showing in Vancouver by defeating the Vancouver Celties by a score of 2 to 1, while the Ladysmith boys sent their fans delirious with delight on Saturday by defeating the Cumberland aggregation, B.C. champions, in the final of the Connaught Cup series.

Saturday's game will, therefore, be an interesting one, and should attract a big crowd. Local followers of the game will have their first opportunity of seeing Nanaimo's new right full back, Anderson, in action. The lineup has not yet been announced.

Motor Bike Record

DODGE CITY, Kas., July 5.—Frank Hepburn, 30-year-old rider, set a new world's record for three hundred miles in winning a motorcycle race here yesterday in three hours, thirty minutes, three seconds. The old record was 3:30:30, and was set by Carl Goudy, at Chicago, in 1915. Hepburn averaged 96 miles an hour and stopped only three times.

KANSAS CITY, Mo., July 5.—Catcher William S. Skiff, of the Pittsburg Pirates, has been purchased by the Kansas City American Association club, it was announced today.

SPORTS AT ALBERNI

PORT ALBERNI, July 2.—On the morning of July 1 the sports in Old Alberni started off with a splendid crowd. The children from every quarter of the district seemed to be present and took part in races and sports.

At 11:30 three men started the five-mile race, and Edward Sherrish came in first, the time being thirty-six minutes. Cameron Duff came in second.

In the afternoon the sports for the older boys started—100 yards dash, 1st, G. W. Blandy; 2nd, J. Forrest. Old men's race, 1st, G. Drinkwater; 2nd, J. E. Blandy. Sack race, 1st, Jack Cook; 2nd, R. George. 220 yards dash, 1st, G. W. Blandy; 2nd, J. Forrest. Running high jump, 1st, G. W. Blandy; 2nd, G. Spencer. Shot put, 16 lbs., 1st, W. H. Deshair; 2nd, Jack Peters. Tossing the caber, 1st, E. White; 2nd, John Redford. One mile race, 1st, Alex. MacIntyre; 2nd, Edward Tatoosh. Running broad jump, 1st, G. W. Blandy; 2nd, G. Spencer. Pole vault, 1st, G. Spencer; 2nd, Jack Cook. 440 yards race, 1st, Cameron Duff; 2nd, Alex. MacIntyre. Standing broad jump, 1st, G. W. Blandy; 2nd, G. Spencer. One mile relay race, 1st, Alberni; 2nd, Indians. The Alberni team had as its members F. Miles, P. Miles, J. Forrest, G. W. Blandy.

Swimming race across river—1st, Edward Clutsi; 2nd, Philip Mack.

The showers of rain did not seem to dampen the spirits of the many people who attended the celebrations, and the ladies and girls will feel themselves repaid for their labors to make the day a success financially. All the proceeds will go to the West Coast General Hospital.

Instead of selling tags, balloons were sold, and from the looks of the grounds everyone present helped to increase the proceeds.

The open air dance held in the evening proved to be a great attraction. Beside those who came to dance many came to view the evening's performance. Music was furnished by the local orchestra.

INDICTMENT STANDS IN BASEBALL CASE

CHICAGO, July 5.—Judge Hugo Friend, in the criminal court today, overruled a motion to quash the general conspiracy indictment against eighteen former baseball players and alleged gamblers in connection with the 1919 world series scandal, and ordered the trial to continue. Attorneys representing the indicted men moved to quash the indictment, alleging no conspiracy had existed.

The state announced that Judge K. M. Landis, high commissioner of baseball, will be called to the stand soon, and that night sessions of court would be sought to speed up the trial.

The selection of a jury from a special venire of 100 men begins today.

CASUALTIES HEAVY AT MOTOR RACES

One Man Killed and Several Injured in Meets at Missoula and Yakima; Accidents Stop Race

MISSOULA, Mont., July 5.—Burnell Liston, of Missoula, was killed, and James Reynolds, of Boulder Hot Springs, Mont., was perhaps fatally injured in a 35-mile free-for-all automobile race at the fair grounds here yesterday afternoon, when the car Reynolds was driving plunged through the fence, down a 10-foot embankment and through the side of a barn. Liston was acting as Reynolds' mechanic.

YAKIMA, July 5.—George Cromwell, a local automobile driver, received a broken arm, and several other persons were slightly injured in accidents during automobile races at the state fair ground yesterday afternoon. Charles Latta won the five-mile race in 4:48, and the six-mile pursuit race in 5:31. A 25-mile race was called off because of accidents, after being partly run.

TOMMY MORRISON IS ALBERTA GOLF CHAMP.

CALGARY, July 5.—Tommy Morrison, St. Andrew's Club runner-up last year, won the amateur golf championship of Alberta here yesterday by defeating Tom Gillespie 2 and 1. Miss Gardiner, St. Andrew's Club, defended the ladies' championship by defeating Mrs. McDougal, 5 and 4, in the final match.

PLAYER SUSPENDED FOR HITTING REFEREE

Must Refrain From Soccer for Five Years — Allowances Are Granted Injured Players by B.C.P.F.A.

VANCOUVER, July 5.—At a meeting of the B. C. P. F. A., held last night, Player McDowell, of Wallace's, was suspended for five years for assaulting Referee Baron during the progress of the Wallace-Ladysmith game played at Athletic Park, June 25, when McDowell, who was a spectator on the day in question, went on the field after the referee had ordered one of the Wallace players off the field and struck the referee a violent blow.

It was agreed to allow $70 from the injured players' fund to J. Main, of Southhill, who was injured in the test match played at Cambie Street before the selection of the team to play the Scottish team. A sum of $50 was allowed J. Enefer, also of Southill, who had the misfortune to break his leg in a second division league game against the G.W.V.A. some months ago. A benefit game is also being arranged to help make up the expenses which Enefer's injury has incurred.

C. K. Morton, secretary of the association, was delegated to attend, with Jack Russell, the annual meeting of the D. F. A., which is to be held at Montreal on Monday, August 1.

BOUT WITH GIBBONS MAY BE ARRANGED

Carpentier Waiting for Broken Hand to Heal—Meanwhile Books Passage for Trip to Old Country

MANHASSET, N. Y., July 5.—Georges Carpentier will spend some weeks quietly following the doctor's orders, Francois Descamps, his manager, announced today. His hand, broken in his battle with the victorious Jack Dempsey, probably will take about six weeks to heal, his physician has estimated, and it was not believed the European champion could do any boxing before that time. This, Descamps said, precluded the possibility of a bout between Carpentier and Gibbons in the big arena on Labor Day.

Tex Rickard, promoter of the recent encounter, announced last night that he might arrange such a bout on the day named, but said he had not conferred with any officials of the Frenchman's camp. Descamps, however, said he was highly in favor of the match as soon as Georges' hand is healed and he has had sufficient time to train.

The defeated challenger has shown no moroseness over his defeat; but, on the contrary, is patiently waiting until he can again appear in the ring to defend his title of light heavyweight champion. He has received hundreds of messages congratulating him upon the game fight he put up against his heavier opponent.

Books His Passage

QUEBEC, July 5.—Georges Carpentier, defeated claimant to the title of heavyweight champion of the world, has booked a passage on the Empress of Scotland sailing from Quebec for Liverpool on July 31.

Jess Must Train

NEW YORK, July 5.—Tex Rickard will make an effort to match Georges Carpentier and Tom Gibbons, St. Paul light heavyweight, in a twelve-round bout in Jersey City Labor Day, he announced last night.

The promoter said he would make an offer to the Frenchman at a conference this week, but would not state whether he had made any arrangement with the Western boxer.

Rickard said he had no present intention of trying to match Jess Willard, former title holder, with Jack Dempsey.

"Of course," Rickard added, "if Willard will prove to me that he is in condition to fight, I will gladly match him with the champion."

Willard Is Willing

LAWRENCE, Kas., July 5.—Jess Willard is willing to meet Jack Dempsey again, he said today.

The ex-champion added that he was anxious to get a chance to recapture the world's heavyweight championship, which he lost two years ago at Toledo.

Jess said it was a lucky punch in the first round that ruined him.

"I've led the simple life; I am in splendid shape today," he added. "I would need four months for training and conditioning—then I will be ready for Jack Dempsey."

DAVIS CUP TEAM FOR ENGLAND IS PICKED

Woosnam Will Be Captain, and Lowe Is the Veteran of the International Tennis Four

LONDON, July 4.—Announcement that Maxwell Woosnam, P. G. Lowe, O. G. Neville Turnbull, and Major Cecil Campbell will make up the British Davis Cup team, was made here yesterday. The tournament will be played at Forest Hills, N.Y., from September 2 to September 5 next. The first three have already accepted places on the team, but Major Campbell's acceptance is conditioned upon his receiving leave from the army.

Woosnam, who will act as captain of the team; is a comparative newcomer in international tennis, but his work during the present year, as well as the showing he made during the Olympics in Antwerp, has stamped him as a star of the game.

Lowe is a veteran of the game. He began with great promise on the court in 1906, when he represented Cambridge against Oxford, and on three occasions he won the world's covered court championship. He has taken honors in many tournaments, and is considered one of Great Britain's best players.

Turnbull represented Great Britain in the Davis Cup match against France in 1919, won a gold medal in the doubles with Woosnam in the Antwerp Olympics, and paired with Manuel Alonso, the doubles champion of Spain, in 1920.

Major Campbell was winner of the singles championship of Ireland in 1919.

WHITE STAR LINE DONATED GARMENTS

Sent Luckless Tourists Ashore at Quebec to Make Up Clothing Deficiencies and Footed the Bill

An event, unprecedented in shipping, occurred when the White Star liner City of London left Montreal for Liverpool. A first class cabin passenger appeared in the smoke room lounge and in the dining-room, minus a collar. The passengor was Charles Meiss, of New York, en route to Antwerp, and it came to light later that Mr. and Mrs. Meiss had lost their hand grips in New York. They had nothing to travel with but the clothes they stood in.

The incident gavo rise to another and more interesting event when a special tender came out to the City of London while she was passing Quebec. Mr. and Mrs. Meiss were taken ashora to a dry goods store, which was openod by special appointment.

Thoy were told to order whatever they wanted and the White Star Line would foot the bill.

Officials of the White Star in Montreal, who were present at the time the purchases were made, are still laughing at the recollection of Mrs. Meiss' face whon she was given a whole dry goods store to herself and told to go ahead and charge the bill to the company.

It appeared that in the rush from New York Mr. Meiss had not only lost his grips, but also a collar which he had taken off owing to the heat. He was looked at rather dubiously in the first class lounge when the liner was running between Montreal and Quebec.

CONTEST FOR SEABIRD SETTLED BY JUDGMENT

War Time Career of Sloop Whose German Master Was Interned at Vernon Recalled by Decision of Judge

The war-time career of the auxiliary gasoline sloop Empress IX, ex-Seabird, and of some of the claimants to its possession, including in the latter a citizen of Germany interned at Vernon during the war, was referred to in the judgment handed down in the Supreme Court yesterday by Mr. Justice Gregory, in the case of Kohse vs. Winterbourne, which was tried here three months ago.

The action was one of replevin, and was brought by the plaintiff, Frederick Kohse, to recover possession of the Seabird, alleged to be wrongfully detained by the defendant Winterbourne. The learned judge dismisses the action without prejudice to the right of the plaintiff to bring such fresh action as he may be advised to bring.

The history of the Seabird, as given at the trial of the action, began some time before the war, when the boat was sold by the sheriff under a writ of execution against J. S. Fullerton. The boat was sold to Frederick Kohse, a German subject. It was shown that the plaintiff did not get a bill of sale from the sheriff; although the latter testified that Kohse bought the boat. At that time Kohse had a boat and launch business in the Inner Harbor.

Kohse installed a new engine in the boat, rebuilt her, and changed her name from Seabird to Empress IX. Shortly after the declaration of war he started north in the boat, with a party aboard. At Union Bay the boat was seized and Kohse arrested by the naval authorities, who alleged that Kohse had a wireless equipment aboard. Kohse was thereupon interned at Vernon, where he was kept until after the armistice was signed.

While Kohse was interned at Vernon, one Schnarr, an American citizen, claimed an interest in the boat, which was released to him by the naval authorities. Schnarr beached the boat in the Inner Harbor, where it remained for some months. While the boat was lying on the beach, G. W. Murray, her registered owner, took possession of her and sold her to William Hatch, who, in turn, sold her to the defendant Winterbourne. When Kohse was released from Vernon he started his action for replevin.

At the trial of the action, Kohse, who was represented by Mr. Frank Higgins, K. C., contended that the Empress IX was no longer the Seabird, inasmuch as he had completely rebuilt the boat on her old lines. He alleged that he had renewed her keel, timbers and planking, altered her cabin arrangements, and given her a greater carrying capacity and tonnage. Kohse also contended that Murray had actually sold the boat to one Gideon and his associates, who were the real sellers to Fullerton.

The defendant, who was represented at the trial of the action by Mr. R. C. Lowe, pleaded that Kohse could not retain ownership of the boat because of his German citizenship. This contention did not enter into the judgment of Mr. Justice Gregory, who held that the boat was still the old Seabird, and that the want of registration in the name of Kohse was fatal to the plaintiff's claim.

The learned judge includes in his judgment a finding that there was no doubt Kohse installed a new engine in the boat, and should be permitted to remove it. But he adds that he can see no way in the proceedings before him to give the plaintiff further relief. The Seabird is at present lying on the beach of the Inner Harbor, where she has been for many months. Much work on the boat of many owners and devious voyages will be necessary before she will be of service to her legal owner.

SOCKEYES RUN WELL IN FRASER RIVER

NEW WESTMINSTER, July 5.—The sockeye season has commenced in earnest. One boat on the North Arm reports a catch of 30 fish during the night, and similar reports are coming in from both the North Arm and main river, where many boats were out at 6 o'clock last night, the finish of the weekly closed season. Commencing on Sunday next, the aerial bomb will be fired at 6 o'clock as a signal for the boats to commence operations.

The Dominion authorities have everything in readiness for the annual patrol service. Boats have been overhauled and are being sent out this week. While no official predictions are given out, it would not surprise the officials to have the 1921 sockeye season one of the best in years.

HONGKONG COMPETES FOR WORLD SUPREMACY

Huge Water-Borne Traffic Continues to Increase — Liners Landed More Than Million Passengers in Year

Some idea of the enormous importance of Hongkong as a seaport may be gleaned from the annual report of the harbor master for 1920, which sets forth the total of shipping entering and clearing the colony at 683,497 vessels, of 40,122,527 tons. The harbor on one occasion hold 84 ocean-going steamers at the same time, aggregating nearly 200,000 tons.

Trading junks represented 50.4 per cent of the number and 10.8 per cent of the tonnage. The figures as a whole showed a substantial increase over the provious year.

Of most interest is the ocean going trade, and here British steamers show an increase of 505 over 1919, representing 1,500,000 tons; and foreign steamers 144 of 1,597,729. The averages show the general trend towards bigger ships. Actually, 927 ships came into the port during the year, compared with 957 in 1919. The fact that they entered a little more frequently accounts for the bigger numbers of registrations and the greater tonnage. The following shows the flags and tonnage:

	1919	1920
British steamers	299	330
" sailing	2	—
Japanese steamers	379	279
" sailing	1	—
Norwegian	13	19
Chinese	84	67
Danish	6	9
Dutch	39	37
French	17	34
Portuguese	5	6
Russian	9	9
Siamese	3	25
Sarawak	—	1
Swedish	1	3
U.S.A. steamers	90	129
" sailing	1	—
Italian	—	5
Inter-Allied	3	3
Brazilian	—	1
Totals	957	927

Thus the actual number of individual ocean-going vessels of European constructing during the year 1920 was 927, of which 320 were British and 597 foreign. In 1919 the corresponding figures were 957, of which 391 were British and 566 foreign. These 927 ships measured 5,523,518 tons. They entered 4,367 times and gave a collectivo tonnago of 8,301,620 tons. Thus 30 fewer ships entered 388 more times and gave a collective tonnage greater by 1,558,921 tons, an average of 67,195 tons per entry.

Passengers Numerous

Passengor vessels landed no fewer than 7,779,192 peoplo during the year and took 7,772,037 away. The steam launches account for most of those big totals. The ocean-going steamors brought 1,127,465 passengors and took 1,121,373 away, not mentioning 195,258 emigrants.

The following table gives the figures of past years of number and tonnage of vessels in foreign trade entered and cleared:

Year	No. of Vessels	Tonnage
1909	43,794	23,416,126
1910	39,727	23,067,391
1911	44,978	25,062,198
1912	46,603	24,249,270
1913	47,520	26,321,652
1914	51,214	25,279,624
1915	50,143	22,515,023
1916	48,550	23,303,211
1917	45,626	20,547,119
1918	43,436	16,955,332
1919	41,935	21,073,129
1920	43,364	24,194,623

SHIPPING NEWS

The Holt liner Teucer clears for the Orient Friday from this port. On this trip she will go through to Singapore, India and Cairo, as this is her homo trip. The Ixion replaces her on the Pacific. The Blue Funnel ships are sent to Liverpool after a year's service on this route.

The Niagara sails on Saturday from Vancouver and from this port. She should be alongside the dock here at noon to pick up Victoria passengers and late mails. A large list for Honolulu and Antipodes is expected to go out by the vessel, including Dame Nellie Melba, now at Vancouver.

The Canadian Observer, second of the ships intended to maintain the coastwise service of the C. G. M. M., has reached Vancouver. Her cargo of sulphur will be unloaded at Coast pulp and paper mills. After discharging she will take on paper for her regular run to San Francisco. The Canadian Rover, due to sail south yesterday, inaugurates the route.

Guaranteed absolutely harmless.
AT ALL DRUG STORES.

WATERLOGGED FISH BOAT SEEN IN GULF

A Columbia River fishing boat, deserted and half full of water, was observed adrift eleven and a half miles north of Entrance Island, in the Gulf of Georgia, yesterday morning, by the steamer Princess Patricia, bound from Vancouver to Nanaimo. The craft was newly painted, and, as far as could be made out, was marked Y N O 8. The information was wirelessed the Jenaates station hore by Captain Gilchrist, of the Patricia, at 8 p.m. yesterday.

THREE SHIPS POSTED TO DOCK TOMORROW

Hawaii Maru Delayed and Will Arrive Thursday Morning—Monteagle and Talthybius Follow Behind

The Japanese liner Hawaii Maru has been delayed slightly in making her way towards port, and now reports that she will not dock until tomorrow morning. The vessel was originally expected to reach quarantine this afternoon.

Unless the other ships also heading this way are held back as well, three ocean liners will berth at the Outer Wharf during the course of tomorrow. The Hawaii will be the first to arrive, probably early in the morning, as soon as cleared by the quarantine officials at dawn. The Canadian Pacific Ocean Services steamship Monteagle will follow her into port, and by last advices is due sometime before noon. The third vessel to dock will be the Talthybius, the Blue Funneler being looked for alongside late in the afternoon. The waterfront staff will have a busy day of it. In addition to the offshore ships, the Queen is scheduled to make this port from San Francisco late on Thursday. She has now resumed the California run, after having her engine trouble attended to in the South, and is back on her regular schedule.

Both the Hawaii and the Monteagle have small passenger lists for Victoria, while it is probable that the Holt vessel will bring in the usual consignment of Chinese steerage.

WIRELESS REPORT

(By Government Wireless)

Point Grey: Clear; calm; 30.76; 58; sea smooth.

Cape Lazo: Clear; calm; 30.78; 58; sea smooth.

Estevan: Cloudy; calm; 30.12; 54; sea smooth.

Albert Bay: Cloudy; calm; 30.82; 52; sea smooth. Spoke 3:26 p.m., steamer City of Seattle, 325 miles north of Seattle; southbound.

Bull Harbor: Cloudy; northwest; light; 30.72; 61; sea moderate.

Dead Tree: Cloudy; calm; 30.82; 52; sea smooth.

Prince Rupert: Overcast; southeast; light; 30.16; 52; sea smooth.

Ocean Falls: Cloudy; calm; 30.11; sea smooth. Passed in, steamer Prince Rupert, 5 p.m.; northbound.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish High Water from Low Water. Where blanks occur in the tables, the tide rises or falls continuously during two successive tidal periods without turning.

The Height is in feet and tenths of a foot, ab.ve the average level of lower low Water.

Equimalt-To find the depth of water on the sill of the Drydock at any tide, add 12.0 feet to the height of High Water as above given.

Four whalers of the Consolidated Whaling Company have been hauled out at Yarrows for cleaning and painting. The quartette of small ships is handled on the cradle at the same time. Yarrows overhauled the other four vessels of the fleet some time ago.

TWO-YEAR HOLIDAY NOW GIVEN CHINESE

Orientals Wishing to Revisit China Have Time Extended From One Year to Two—Increased Travel

Chinese resident in Canada wishing to visit their native soil are now permitted to prolong the trip throughout two years, and increased Oriental travel across the Pacific is resulting. The movement homeward of late months has been fully as heavy as that from the other direction. Under the old regulations only one year was allowed Chinese wishing to revisit the scenes of their childhood. If they were laggard in returning, and exceeded that limit, they were compelled to pay the $500 head tax on their arrival in the same manner as on their original entry into the country. The same restrictions are now in force with the exception that a recent enactment of the Government permits them to spend two years instead of one in China.

Before embarking from this port or from whatever port they sail, each Chinese passengor must register with the Department of Immigration. The controller enters up particulars of residence, occupation and description of each one. This facilitates identification on return.

No Burials at Sea

If during the voyage a Chineman should die aboard ship, the captain must arrange for the conveying of the body to port and put it ashore in the regular manner, for should the custom of sea burial be followed the Chinese would blacklist the ship and the boycott would prove effective. It is the desire of all Chinese to be buried in their native land, and that prejudice is very strong. It is said that several vessels, formerly carrying large lists of Chinese passengers, have been withdrawn from the Oriental service because of this characteristic of the Chinese due to the ships' masters having ordered a deceased Chinese over the side at sea.

In the steerage quarters on the ship incense is kept burning to fend off evil spirits, which is another Chinese custom. If a Chinese should fall overboard and be drowned at sea, and the body not recovered, incense is burned and food is scattered on the waters where the accident occurred. It is said that Chinese passengers on ships passing such a spot for years afterwards will strow food on the waters where the victim disappeared, it being a belief that the spirit of the departed hovers about the scene and requires nourishment.

HOSPITAL NEEDS SHOWN IN THE ANNUAL REPORT

Continued from Page 8

of the medical profession who have served on the consulting staff of the hospital, and also those who have rendered me assistance in attending sick members of the staff, to the Interns, Mr. Carver, our managing secretary-treasurer, the matron, graduate and undor-graduato nurses, and also male nurses for their faithful services during the past year, their loyal and cheerful support on all occasions since my installation as Superintendent of the Provincial Royal Jubilee Hospital.

"I have the honor to be

"P. H. PATERSON,
"Medical Superintendent."

Training School

The annual report of the Training School for Nurses was read by Miss Mackenzio:

"The following is the thirty-first annual report of the Provincial Royal Jubilee Hospital Training School for Nurses:

"The nurses who have received their training up to the present time number 208. This year we have graduated twenty-nine nurses. Florence Fullerton received the bursary presented by the Victoria Graduate Nurses' Association. Four have taken a course in public health at the University of British Columbia, which resulted in Muriel Harman winning the prize of $100 offered by the British Columbia Branch of the Canadian Red Cross Society. Louise Buckley securing first class honors, Winifred Ehlers and Madge Griffiths taking second class honors. Miss Griffiths is on the public health staff in Winnipeg. Marion Wismer and Dora Brey took the public health course under the Victoria Order of Nurses and are now holding positions in Edmonton and Waldo respectively. Margaret Bowman, Ethel Rhodes and Amy Wilson are now holding positions as supervisors at the Duncan Hospital, Kathleen Flood is on the staff of supervisors at the Provincial Royal Jubilee Hospital, Barbara Pollard, Isobel Mann and Mildred Gibson have married. Seven are on private duty and nine are still in training.

"By offering better facilities for class work, attractive living quarters and endeavoring to supervise the social life of the nurses, I feel we have done much towards attracting young women to train as nurses. It is very gratifying to myself and the Board of Directors to announce we have in connection with our hospital a splendid, loyal and most interested alumni, who have entered fully into the spirit and put into practice the sentimant of their motto, 'Non Sibi Sib Toti.' They have adopted the Women's Ward, and although they have not yet attained their first birthday, they have presented the ward with seven beds and a Morris chair; entertained the graduating class to a drive and picnic at Mill Bay and a dance in the evening. They are realising 'Nothing succeeds like success.'

"The Daughters of Fity are ever unceasing in their efforts to obtain funds with which to carry on their splendid work of supporting the Children's Ward. This year they added materially to their funds by making talent money.

"The Women's Auxiliary are ever devoted to us. Without their loyal support it would be impossible for us to enjoy the many necessities which we require. In addition to supplying the linen and crockery, they have presented the Training School with seventy-five slides of the Life of Florence Nightingale and the History of Nursing.

"For the first time in the history of the hospital, it had been agreed throughout Canada and the United States to make May 12, the 101st anniversary of Florence Nightingale's birthday, a national Hospital Day. The real object of this day is to have the public get better acquainted with their hospitals. The Provincial Royal Jubilee Hospital threw its doors open to the public, hundreds of visitors viewing the wards, X-ray and laboratory departments. The success of the day was due to the Florence Nightingale Chapter of the Daughters of the Empire for the able manner in which they convened the tea, programma and decorations. Unstinted praise is due them, and we hope they will make it an annual affair.

"We are indebted to the O. M. Jones Chapter of the Daughters of the Empire for their loyal support.

"The Bishop Cridge Chapter is doing a work of mercy in entertaining weekly the patients in the Tuberculosis Ward.

"We feel honored that once more we are permitted within the walls of our own hospital to care for the overseas men. We thank the many friends who are assisting us in entertaining them.

"May I be permitted to thank the visiting and resident staff for the splendid theoretical lectures and demonstrations given, and their medical attention to the training school during the year.

"The Five Rays and the Sunshine Clubs must not be forgotten in their weekly donation of fresh eggs to the Tubercular Ward.

"At last we have awakoned from a long dream and find ourselves on the threshold of a new era in the history of the Provincial Royal Jubilee Hospital. With excellent plans for the care of patients, splendid utility service for nurses, an administrative block, built for efficiency, with arrangements for laboratory, X-ray, and social service, we expect one year henco to enjoy part, if not all, of our new hospital. Myself and staff of nurses cannot but thank the Board of Directors for the progress which they are making.

"In the tragic death of our president, Mr. R. S. Day, the Training School lost an earnest, sincere and untiring friend, who devoted unstinted time and energy to the educational and social life of the nurses, ever ready to assist in whatever undertaking would tend to elevate the standing of the school.

"We regret very much that Dr. Herbert Rogers, our Medical Superintendent, decided to sever his connection with us to do private practice. We wish him success in his new field.

"I wish to thank the Board of Directors for their sympathetic, loyal and consistent support. In closing my report, I wish to thank Mr. Carver, our secretary, for his untiring efforts and assistance; Miss McGregor's Musicale Class for a wheel chair for the Children's Ward; the pupils of St. George's School for scales for the Children's Ward; the Matthews Baillie Beggio Chapter of the Daughtors of the Empire, who have adopted the Nursery; the 'J' Unit Chapter for easy chairs loaned to the soldiers in the Richard McBride Ward; the Red Cross for a piano, Victrola and amusement tonts loaned the military patients; the Florence Nightingale Chapter for a wheel chair for the Women's Tubercular Ward; the friends of the hospital for their cheer which they have brought from time to time in the form of magazines, fruit, flowers, etc.; the clergy and the press for their co-operation and support at all times.

"Respectfully submitted.

"JESSIE F. MACKENZIE."

Spanish Ministry Resigns

MADRID, July 5.—The Cabinet of Premier Allende Salazer resigned today. There has been dissension in the Cabinet for some time. The situation culminated yesterday in Manuel Arguelles, Minister of Finance, tendoring his resignotion on the ground that the new tariff law and the commercial treaties were inimical to the interests of labor.

What's at the Playhouses?

PRINCESS THEATRE Tonight, at the Princess, the musical comedy is to be "The Stubborn Cinderella," a New York production of such recent success that it must still be fresh in the minds of many. Miss Page will appear as Cinderella, and James Coots as the man she falls in love with. Leeland Jaxon and Genevieve Berkeley are sweethearts and have some dashing scenes, in which Mr. Campbell, as the "hated rival," will furnish his full share of the fun. Byron Aldean, as the grouchy brakeman on the wrecked train, in the second act, will add to the splendid bill; and the singing and dancing numbers, all the way through, are quite up to what they should be, and the scenic effects from beginning to end are really quite equal to what might be expected of a big road production.

VARIETY THEATRE Girls! What type of man is your ideal? Is he dark or fair? Tall or short? If he is tall, say about six feet two, and good-looking, you will find him in the Robertson-Cole super-special production, "The Mistress of Shenstone," featuring Pauline Frederick, the famous emotional star, which is at the Variety Theatre. There has seldom been seen in one motion picture so many perfect specimens of manhood as appear in "The Mistress of Shenstone." First there is Roy Stewart, who plays the leading role opposite Miss Frederick. Roy stands six feet one in his stocking feet. Surely there isn't a girl in the land who isn't familiar with Roy's smiling face. Emmett King, who plays Doctor Burton, is just six feet, and if you are fond of a serious sort and if you are fond of a serious sort just a touch of grey in his locks, Mr. King will suit.

ROYAL VICTORIA Joseph M. Schenck believes in getting what he goes after. A striking example of that producer's zeal is contained in the announcement that Mr. Schenck has secured almost the entire original stage cast of "Mamma's Affair" for the motion picture adaptation, which stars Constance Talmadge and is now to be seen at the Royal Victoria Theatre. When Mr. Schenck first obtained the screen rights to Rachel Barton Butler's Harvard College prize play, he attempted to secure the services of Effie Shannon, Katherine Kneired, George Le Guere and Gertrude Le Brandt, to support Connie in the picture. Owing to the fact that these players were under contract to Oliver Morosco for the stage presentation, Mr. Schenck tucked away the play in his desk and secured "Good References" as a starring vehicle for "Connie." In addition to the feature, Miss Eva Hart, so well known to Victoria audiences, will render in her usual artistic style two songs, "A Little World of Love" and "The Last Rose of Summer." A very funny comedy and Screen Snapshots make up the balance of a good entertainment.

DOMINION THEATRE Jack Holt, who plays the leading male role in "All Souls' Eve," the new Mary Miles Minter picture, which is now at the Dominion Theatre, is a man with an unusually interesting personal history. In the first place, he was born in the historic Marshall mansion in Virginia, from which Sheridan made his historic ride "to Winchester, twenty miles away." His grandfather was Colonel Tom Marshall, of the 7th Virginia Cavalry, while included in the list of his ancestors one finds the name of the famous Chief Justice who did so much for the struggling young republic. Perhaps it was in the blood that young Jack should have followed paths of adventure, for he was just a youngster when he went to Alaska with an exploration company. There for several years he carried mail for the government and freighted for the road commission. After five years of life in the frozen north he returned to America and settled down on an Oregon cattle ranch. Those who love dogs—and especially the furry, fluffy dogs which are native to the polar regions—will be enormously pleased with "The Bottom of the World," the Sir Ernest Shackleton South Pole expedition picture, which will be shown at the Dominion this week. This great expedition, which was one of the most completely outfitted of all expeditions that ever have started for polar regions, needed hundreds of dogs.

PUBLIC DEMAND REPETITION OF RECENT ALFRESCO PLAY

It is generally admitted that "The Birth of Perseus," as played by a very large cast of Victoria's leading amateurs, was an artistic triumph, which has rarely, if ever, been equalled in Western Canada. On Monday, June 27, the beautiful gardens of the old Pemberton home, "Gonzales," were crowded with 1,300 spectators, who formed the best possible advertisement for the play. It is as a result of their report on the production that the general demand for further performances of this wonderfully impressive and spectacular drama has necessitated the engagement of the largest theatre available.

Special arrangements are being made to cope with the very great demand for seats.

BRITISH PICTURE TO BEAT ALL RECORDS

Moving pictures that are humorous without being either vulgar or grotesque are rarities. "Alf's Button" is a charming compound of the humor of Barrie, Anstey and Chaplin, without the custard pie obligato. Less skilfully handled the theme might have lent itself to a good deal of coarseness, but whenever the author saw a chance to get a laugh by a broad suggestion, he avoided it, and let the audience make their own suggestions if that way inclined. This same restraint is observable in the paucity of the captions. This was made possible by the skill of the actors, and that there is an actor now performing before the American cameras who has more thoroughly mastered the art of pantomime than Leslie Henson (Alf), or John McAndrews is to be doubted. Indeed, the very fact that pantomime was highly developed on the English stage long before there was a moving picture, suggests that the Old Country had an advantage over the American stage in this most important department from the beginning.

There is no good reason why British films should not hold their own against all comers. In fact, "Alf's Button" has broken all records wherever it has been played. It comes to the Pantages next Monday to Wednesday, twice daily. The seat sale opens on Thursday.

CABARETS DEFINED

City Solicitor Pringle's new draft of the proposed cabaret by-law was ready for the City Council on Monday night, but it was tabled for another week because of the time required to thresh out other matters.

Mr. Pringle has at last hit upon a definition for cabarets that he believes will stick. Here it is: "A place of public entertainment, regularly open for business, in which the serving of refreshments is associated with dancing."

Most of the clauses in the bylaw have previously been dealt with by the Council and the Police Commission, and are therefore not new. Twelve o'clock midnight is given as the closing hour except on special occasions. Prostitutes, drunks and disorderly persons are debarred from cabarets, and the fine for conviction is not more than $50 for each offence.

"Vamping" by cabaret artistes is prohibited, and young women under the age of 21 must not be employed.

Mexican Customs Officer Shot

NACO, Ariz., July 6.—Jose Matriciato, a Mexican customs officer, was shot and killed a few feet across the border here yesterday by a man wearing a United States army uniform. Matriciato, it is said, halted the man as he crossed the border, to search him for weapons. The slayer fled to the United States.

URGENT APPEAL MADE BY FRIENDLY HELP

Unemployment Problem Taxes Society to Utmost Capacity in Providing for Women and Children

The far-reaching effects of the unemployment problem are weighing heavily on the members of the Friendly Help Association, and no more zealous workers are to be found in the alleviation of suffering which follows the families whose wage-earners are temporarily out of work. The Friendly Help Association have their headquarters in the Market Building, and it is to this address that the generous public are urged by the secretary, Miss Lawson, to send donations of either cash or kind.

In a quiet and unostentatious manner the Association has been carrying on an unfailing relief campaign, and in this cause they were faced with complete bankruptcy at the end of June. Donations of cash, no matter how trifling in amount, foodstuffs of all kinds, clothing of every description, all these are earnestly solicited by the Association, and will be gratefully received at the Market Building for distribution.

A meeting fo the Friendly Help was held yesterday morning, when seventeen members were present, and eighty-eight families were reported as having received assistance during the month of June.

Donations Acknowledged

The Association acknowledges with grateful thanks the following donations received in June:

Cash—The City; A. Montixambert; A Friend; Miss Jessie Murray, Sooke; E. L. W.; Mrs. Jones; Remembrance of Fifth of June; Mrs. Thomas; Mrs. Hay; Five Ten Dollars; Pilot Friend; Miss Douglas; Mrs. Saunders; J. D. Virtue, Esq.; Mrs. McGowen; Christ Church Cathedral Fund; Mrs. Pilgrim; Miss Alice M. Carr; F. E. Winslow, Esq.; Mrs. H. J. Scott; M. B. Wellburn; Mrs. Thomson; Miss Kathleen Hall; Mrs. Robbins; Mrs. Gregory; W. Trunbull; Mrs. Gill; J. E. Painter & Son; Axiom Class; Macey-Abell Co.; Wm. Wilson; H. Lethaby; Miss Phipps; Miss LePage; Dingle & Frisk; Victoria City Dairy; Rose Farm Dairy.

Clothing and Shoes—Mrs. Graham; Mrs. French; Mrs. Bales, Cobble Hill; Miss Mitchell; Brenda Stonham; Mrs. Davis; Mrs. C. Church; Mrs. Clayton; Miss Z. Crease; Mrs. Blackwood; Five Rose Club of Victoria; Chapter No. 17, Order Eastern Star; J. D. Virtue; Mrs. Stevenson; Mrs. Gilmore; Mrs. Coed; Mrs. McGowen; Miss Hall; Mrs. F. Ward, Ocean Falls; Mrs. Shadwell; Mrs. Gunter; Mrs. H. G. Helsterman; Mrs. Vought; Miss Kathleen Hall; Mrs. Willis; Mrs. Raymur; Miss Reid; Mrs. Stimpson; Miss Williams; Mrs. J. Wilson; Mrs. Winslow; Mrs. Napier Denison; Mrs. Minnis; Mrs. Colpman.

Groceries—Mrs. Johnson, Miss McDould, Mr. Peddie, butter; A Friend.

Potatoes—Mrs. Loveland; Mrs. Dunsmuir; Mrs. Geo. Gillespie; Mr. Phillips.

Jam—Mrs. Oldfield; Mrs. Helsterman; A Sincere Friend; Mrs. Frank Smith.

Flour—Mrs. Mitchell.

Chickens—Mr. Smith.

Bedstead and Mattress — Mrs. Holmes.

A.Y.P.A. FETE TODAY

Sale of Work at "Precincts" to Aid New Cathedral Fund

This afternoon the grounds of Old Bishop's Close on Burdett Avenue, now known as "The Precincts," will be the scene of a garden fete and sale of work arranged by the Anglican Young People's Association of Christ Church Cathedral, in aid of the New Cathedral Buildings Fund.

Among the most attractive stalls will be one displaying articles of fancy and plain needlework, in charge of Miss Annie Beanett. Miss Violet Josephs and Miss D. Cass will superintend a table of miscellaneous articles, including dolls, handkerchiefs, pin cushions and Teddy bears. The home cooking stall will be looked after by Miss Witchell. Clock golf, various competitions and contests will be arranged in different parts of the grounds, and afternoon tea will be served under the direction of Miss Shadwell and her assistants.

Mrs. Quainton will open the sale at 3 p.m. In case the weather is unsuitable for holding the sale in the grounds of "The Precincts," the stalls will be set up in Christ Church Cathedral schoolroom.

BASKET PICNIC TODAY

L. A. to Army and Navy Veterans Arranging Event to Be Terminated at Manoa

A basket party will be held this afternoon at the City Park, Gorge Road, under the auspices of the L. A. to the Army and Navy Veterans. It was decided at a meeting of the society yesterday afternoon at the Hamley Building, when the president, Mrs. Chapman, was in the chair. Mrs. Spavin will be in charge of the picnic arrangements, and the members will meet at 10:30 at the terminus of the Gorge car line. Throughout the day sports and races will be carried out, and in the evening the members will attend the performance at Massenet's "Manon" at the Willows.

Arrangements also were made for a silver tea to be held on the 22nd of July at the Hamley Building. A distressing case of a returned soldier was brought up at the meeting and is receiving the consideration of the association.

The next meeting will be held on July 19, after which there will be no gathering until September.

WOULD PUT WATER BY-LAW IN SAANICH

Councillor Kingwell Believes Building of Extensions to Present System Would Provide Work During Winter

Councillor Kingwell, of Saanich, is prepared to move for the placing before the ratepayers of a by-law for the raising of $100,000 to be used for water extensions within the municipality for the purpose of solving the unemployment problem during the coming Winter months.

The proposal of Councillor Kingwell is that the extensions to be made include a system for Gordon Head. He would have the work done by day labor, with supervision probably by a firm of engineers. By this means he believes that Saanich's unemployment problem will be solved for the Winter. The money markets are easier and prices of material are down since the by-law was last considered, the councillor points out, and he adds that while it may be that costs may drop even farther in the future, still, unless some work is started, Saanich will have to pay out money in doles, and thus offset what might be gained through a delay in order to secure lower prices.

ESQUIMALT ENDORSES ECONOMIC COUNCIL

Municipal Council Decides to Revise By-Laws—Housing Question Aired, But No Money Forthcoming

Councillors Mosher and Tribe were appointed by the Esquimalt Council on Monday night as its representatives on the Economic Council, which has recently been formed with a view to solving the problem of unemployment during the coming Winter. The Council approved of the new organization, and its delegates will attend the next meeting, which will be held at the Veterans of France headquarters, on Friday next, at 5 o'clock.

Owing to the failure of several prosecutions in the Esquimalt Court recently, the Council thought that its by-laws should be revised and brought into conformity with the provisions of the new Municipal Act. Municipal Clerk Pullen, Engineer Bourne and Chief of Police Dawley were requested to submit by-laws from their respective departments at the next meeting that they considered should be placed in the hands of the legal advisers for revision.

Two municipal trucks will be used to convey persons to the Merchants' Association picnic at Goldstream on July 27, according to the decision of the Esquimalt Council when the matter was raised. Also many applications for camping and tenting spaces were passed to the Chief of Police for his investigation and approval.

Campers upon the beaches near Macaulay Plains will be required to pay a fee of $1 for their camping licenses, owing to the installation of a standpipe which will be erected for their convenience. By-law 116, a measure to amend the motor traffic regulations in Esquimalt, was passed, and provides equal justice to jitneys and other hired cars.

The housing question was aired at the Council session, when it was intimated that no response had been received to the applications for another $35,000 under the Better Housing Act. The councillors were of the opinion that more money would be forthcoming to the municipality for the erection of houses under the present scheme, which has been a great success in Esquimalt. Already six applications are on hand awaiting the further allotment of money for continuing the present system of house building.

Sir Sam Hughes Improving

LINDSAY, July 5.—General Sir Sam Hughes is reported to be in about the same condition, with slight improvement. Today he had another transfusion of blood.

Vancouver Sale of Permits

VANCOUVER, July 5.—Although they did not go on sale until nearly the middle of the month, liquor permits sold in Vancouver in June brought in $11,100, it was announced today.

Sherlock Holmes Stories

Copyright, 1921, by Harper & Bros. Published by special arrangement with The McClure Newspaper Syndicate

The Adventure of the Six Napoleons

PART ONE.

It was no very unusual thing for Mr. Lestrade, of Scotland Yard, to look in upon us of an evening, and his visits were welcome to Sherlock Holmes, for they enabled him to keep in touch with all that was going on at the police headquarters. In return for the news which Lestrade would bring, Holmes was always ready to listen with attention to the details of any case upon which the detective was engaged, and was able occasionally, without any active interference, to give some hint or suggestion drawn from his own vast knowledge and experience.

On this particular evening, Lestrade had spoken of the weather and the newspapers. Then he had fallen silent, puffing thoughtfully at his cigar. Holmes looked keenly at him.

"Anything remarkable on hand?" he asked.

"Oh, no, Mr. Holmes—nothing very particular."

"Then tell me about it."

Lestrade laughed.

"Well, Mr. Holmes, there is no use denying that there is something on my mind. And yet it is such an absurd business, that I hesitated to bother you about it. On the other hand, although it is trivial, it is undoubtedly queer, and I know that you have a taste for all that is out of the common. But, in my opinion, it comes more in Dr. Watson's line than ours."

"Disease?" said I.

"Madness, anyhow. And a queer madness, too. You wouldn't think there was anyone living at this time of day who had such a hatred of Napoleon the First that he would break any image of him that he could see."

Holmes sank back in his chair.

"That's no business of mine," said he.

"Exactly. That's what I said. But then, when the man commits burglary in order to break images which are not his own, that brings it away from the doctor and on to the policeman."

Holmes sat up again.

"Burglary! That is more interesting. Let me hear the details."

Lestrade took out his official notebook, and refreshed his memory from its pages.

"The first case reported was four days ago," said he. "It was at the shop of Morse Hudson, who has a place for the sale of pictures and statutes in the Kennington Road. The assistant had left the front shop for an instant, when he heard a crash, and hurrying in he found a plaster bust of Napoleon, which stood with several other works of art upon the counter, lying shivered into fragments. He rushed out into the road, but, although several passers-by declared that they had noticed a man run out of the shop, he could neither see anyone nor could he find any means of identifying the rascal. It seemed to be one of those senseless acts of Hooliganism which occur from time to time, and it was reported to the constable on the beat as such. The plaster cast was not worth more than a few shillings, and the whole affair appeared to be too childish for any particular investigation.

"The second case, however, was more serious, and also more singular. It occurred only last night."

"In Kennington Road, and within a few hundred yards of Morse Hudson's shop, there lives a well-known medical practitioner, named Dr. Barnicot, who has one of the largest practices upon the south side of the Thames. His residence and principal consulting-room is at Kennington Road, but he has a branch surgery and dispensary at Lower Brixton Road, two miles away. This Dr. Barnicot is an enthusiastic admirer of Napoleon, and his house is full of books, pictures, and relics of the French Emperor. Some little time ago he purchased from Morse Hudson two duplicate plaster casts of the famous head of Napoleon by the French sculptor, Devine. One of these he placed in his hall in the house at Kennington Road, and the other on the mantelpiece of the surgery at Lower Brixton. Well, when Dr. Barnicot came down this morning he was astonished to find that his house had been burgled during the night, but that nothing had been taken save the plaster head from the hall. It had been carried out and had been dashed savagely against the garden wall, under which its splintered fragments were discovered."

Holmes rubbed his hands.

"This is certainly very novel," said he.

"I thought it would please you. But I have not got to the end yet. Dr. Barnicot was due at his surgery at twelve o'clock, and you can imagine his amazement when, on arriving there, he found that the window had been opened in the night, and that the broken pieces of the second bust were strewn all over the room. It had been smashed to atoms where it stood. In neither case were there any signs which could give us a clue as to the criminal or lunatic who had done the mischief. Now, Mr. Holmes, you have got the facts."

"They are singular, not to say grotesque," said Holmes. "May I ask whether the two busts smashed in Dr. Barnicot's rooms were the exact duplicates of the one which was destroyed in Morse Hudson's shop?"

"They were taken from the same mold."

"Such a fact must tell against the theory that the man who breaks them is influenced by any general hatred of Napoleon. Considering how many hundreds of statues of the great Emperor must exist in London, it is too much to suppose such a coincidence as that a promiscuous iconoclast should chance to begin upon three specimens of the same bust."

"Well, I thought as you do," said Lestrade. "On the other hand, this Morse Hudson is the purveyor of busts in that part of London, and these three were the only ones which had been in his shop for years. So, although, as you say, there are many hundreds of statues in London, it is very probable that these three were the only ones in that district. Therefore, a local fanatic would begin with them. What do you think, Dr. Watson?"

"There are no limits to the possibilities of monomania," I answered. "There is the condition which the modern French psychologists have called the 'idee fixe,' which may be trifling in character, and accompanied by complete sanity in every other way. A man who had read deeply about Napoleon, or who had possibly received some hereditary family injury through the great war, might conceivably form such an 'idee fixe' and under its influence be capable of any fantastic outrage."

"That won't do, my dear Watson," said Holmes, shaking his head, "for no amount of 'idee fixe' would enable your interesting monomaniac to find out where these busts were situated."

"Well, how do you explain it?"

"I don't attempt to do so. I would only observe that there is a certain method in the gentleman's eccentric proceedings. For example, in Dr. Barnicot's hall, where a sound might arouse the family, the bust was taken outside before being broken, whereas in the surgery, where there was less danger of an alarm, it was smashed where it stood. The affair seems absurdly trifling, and yet I dare call nothing trivial when I reflect that some of my most classic cases have had the least promising commencement. You will remember, Watson, how the dreadful business of the Abernetty family was first brought to my notice by the depth which the parsley had sunk into the butter upon a hot day. I can't afford, therefore, to smile at your three broken busts. Lestrade, and I shall be very much obliged to you if you will let me hear of any fresh development of so singular a chain of events."

The development for which my friend had asked came in a quicker and an infinitely more tragic form than he could have imagined. I was still dressing in my bedroom next morning, when there was a tap at the door and Holmes entered, a telegram in his hand. He read it aloud:

"Come instantly, 131, Pitt Street, Kensington.—Lestrade."

"What is it, then?" I asked.

"Don't know—may be anything. But I suspect it is the sequel of the story of the statues. In that case our friend, the image-breaker, has begun operations in another quarter of London. There's coffee on the table, Watson, and I have a cab at the door."

In half an hour we had reached Pitt Street, a quiet little backwater just beside one of the brisket currents of London life. No. 131 was one of a row, all flat-chested, respectable, and most unromantic dwellings. As we drove up, we found the railings in front of the house lined by a curious crowd. Holmes whistled.

"By George! it's attempted murder at the least. Nothing less will hold the London message-boy. There's a deed of violence indicated in that fellow's round shoulders and outstretched neck. What's this, Watson? The top steps swilled down and the others case dry. Footsteps enough, anyhow! Well, well, there's Lestrade at the front window, and we shall soon know all about it."

Established 1908

"Advertising is to business as steam is to machinery."

A SERIOUS STATE OF AFFAIRS

—but one that can be rectified—Canada's imports for the year ending 31st May last increased $11,400,003 compared with the previous year, and exports decreased $60,300,000. This is one of the reasons why your dollar is not worth 100c in the U.S., and one of the reasons of unemployment. The blame for this rests largely upon the shoulders of those who, while enjoying the privilege of living in this great Dominion, fail to buy Canadian made goods. If you want better times, and you do, support home industry. This is not sentiment, but a duty.

ARE you looking for a farm or acreage? We have the largest and cheapest listings on Vancouver Island. Crown Realty Co.

DAIRY FARM FOR SALE.
We have had listed with us the ranch and one of the most noted milk producing herds on Vancouver Island, which the owner has been obliged to put on the market through ill-health. Located close to Victoria, with good transportation facilities, both Electric Railway and main road, it consists of thirty-three acres, eighteen of which are in crop, the remainder in pasture and wood lot, beautifully located. The stock consists of about seventy head, about thirty head of which are milking and others coming in fresh. There is a five-roomed house and large barn, and all necessary outbuildings, together with all the machinery for the cultivation and successful running of the ranch.
We shall be pleased to supply all details to a PRACTICAL dairyman, and the owner will welcome the closest inspection in connection with the business.
This is a real opportunity for a man who wants a first-class dairy farm, a desirable home close to Victoria, and a fully equipped going concern.

COURTENAY PROSPEROUS

COURTENAY, July 4.—Courtenay is moving in spite of apparent bad times. During the past week three lots have been sold for new business sites. A new drug store, a dining hall, a millinery and two other stores are being opened. As regards residential property there are a number of substantial residences under course of construction with all modern conveniences. With the water works system being installed, it will do away with the old pump handle.

Mr. P. Sadler is building a five-roomed bungalow on Union Bay Road, which will be completed at the end of the month. Mr. A. W. Regler is the contractor.

No. 1 Camp of the Comox Logging Co. has closed down for a short time, but it is expected that it will resume operations very soon.

Messrs. Pidcock, Willemer & Waine have built an addition to their garage which gives them more room for the storage of cars.

Mr. Dixon, of the Riverside Hotel, is building an addition to his premises. He is going to open a poolroom, with two rooms and a bathroom above.

Mr. McDonald is putting up a two-story building, 30 x 30, on Union Bay Road. There will be two stores on the ground floor, which will be used for a garage and electrical supplies.

Mr. William M. Hawthorn is calling for tenders for a two-story building, 40 x 50, on Union Street. There will be two stores, one fitted up for a tearoom and the other is already rented. The upper part will be turned into a hall, or possibly fitted up as a rooming house, with up-to-date plumbing.

Poisoned by Wrong Medicine

VANCOUVER, July 5. — Death under peculiar circumstances came to Mrs. Porter on Monday, according to information given to the police. It is alleged that the unfortunate woman had been taking medicine provided by an unqualified person, and that death took place as the result.

NANAIMO COUNCIL WILL CONVERT BONDS

Arrangement Will Net the City Handsome Sum—Explanation of the Anglo-Japanese Alliance

NANAIMO, July 5.—At last night's meeting of the City Council Mayor Busby and the City Treasurer were authorized to arrange for the transfer of $46,400 Victory Bonds held by the city, for $50,000 Provincial Government Bonds, bearing interest at 6 per cent, and due in 1941, a transaction which will net the city some $9,000.

There were forty applications before the Board for the position of city truck driver. The position was awarded to Mr. A. W. Martin.

Mr. G. Mustart, secretary to Premier Meighen, wrote the Council in regard to the Anglo-Japanese Alliance. Mr. Mustart stated that there had been some question regarding the alliance affecting immigration, but he wished to inform the Council that the treaty in no way affected immigration.

On motion of Ald. Hart it was decided to invite Inspector of Municipalities Baird to pay a visit to Nanaimo.

The Land Sales By-law was finally adopted and the corporate seal and signature ordered attached.

The dog tax and pound by-law was taken up and read a third time, following an amendment that the yearly tax be $1 for dogs and $2 for bitches. The by-law called for a $2 tax for dogs and $3 tax for bitches. The amendment providing for a tax of $1 for dogs and $3 for bitches was passed.

Four applications for loans under the Better Housing Scheme were received. The applicants were J. McMyn, Marie Ann Petrie, J. Fatkin and W. A. Rollins. All the applications were placed on the waiting list.

Fire Chief Parkin wrote pointing out the necessity of the fire department being notified when the streets are closed to traffic and when ditches are being opened. The Chief reported that during the month of June the department had answered three alarms, the damage being trivial.

Mr. W. Aikenhead was granted permission to install a gasoline tank in front of his premises on Wallace Street, subject to the supervision of the Fire Chief.

During the week ending July 2 Street Foreman McKenzie reported an expenditure of $293.75, and the Waterworks Department, during the same period, an outlay of $160.50.

DOMINION DAY SPORTS

COURTENAY, July 2.—A Dominion Day picnic under the auspices of the G. W. V. A. was held at Kye Bay and there was a good turnout in spite of the unsettled weather. There was a good programme of sports and races of all kinds, for old veterans, young veterans, women and children, and all were well pleased with their prizes. Capts. Bates and Richardson were in charge of the sports committee. The ladies took well-filled baskets, and ice cream was served free all day, which pleased not only the children.

Good Fishing

COURTENAY, July 2.—Dominion Day was very favorable for fishing, the weather being unsettled. Some catches were made on the Courtenay River. One lucky fisherman caught three fine spring salmon, and others made smaller catches. Mr. Dick Creech landed a 12-pound salmon. Another local angler caught one weighing 16 pounds.

CHEESE AND EGGS ADVANCE IN PRICE

No Difficulty in Filling Strawberry Orders—Raspberries and Logans Now Arriving—Pork Up Another Cent

There are a number of pronounced changes upon the wholesale market, most of which have an upward tendency. This is true of eggs, which since last market day have jumped to 40c per dozen, while creamery brick butter is now up one cent for each of the different grades.

Ontario cheese has again advanced, and what could formerly be obtained by the retailer at 21½c 21¾c and 22½c, are now quoted at 22½c, 23c and 24c wholesale, according to brand. Cantaloupes and tomatoes, which went up in price on Saturday, remain firm at the last quotations published in these columns.

Vegetables are very steady, and only two variations are noted. Cucumbers, which are coming in more plentiful, have dropped 25c, while leaf lettuce has jumped from 50c per crate to 75c. Plenty of radishes are coming in daily, and can be secured on wholesale row at 4c a dozen. Local new potatoes remain at $3.75 per sack, and carrots and peas are arriving in more liberal quantities.

The first arrival of raspberries is noted, and a limited amount are available at $4.50 a crate, while the first of the loganberries are reaching the local wholesale houses, and the retailer can secure same at $3 a crate. Strawberries are greatly in demand, and the wholesalers are having no difficulty in disposing of them as soon as they arrive from Keating and Gordon Head.

Bing cherries, which a short while ago were quoted at 30c, and then fell as low as 27c, are up again, and the latest quotation for them is 29c. It is expected that preserving cherries will be available on wholesale row towards the end of this week. Black and red currants have made their appearance on the local market, and can be obtained at the wholesale establishments for $3 and $2.25. Gooseberries record an advance from $1.60 to $1.75 in the last three days.

A large consignment of rhubarb recently arrived, and there has been a considerable demand for it. Plums are becoming more plentiful, and are firm at $3.75, while peaches are quoted at $2.50 per crate wholesale.

Pork has gone upward another cent, and the retailer is now required to pay 21c per pound for same. Flour and feed prices remain entirely stationary, while white and yellow sugar show no change in prices.

WINNIPEG GRAIN MARKET

WINNIPEG, July 5.—A firmer tone was evinced on the wheat market today after the marked weakness of yesterday and with lower prices in Chicago the spreads went back to the levels before the holidays. Business, however, was not very active. The trade appears to be awaiting for more definite crop reports. July advanced to a high of 178⅝, reacted later, and closed at a gain of ⅛c from yesterday's close. October reached 137⅛, but declined later and closed with a loss of ⅜c.

Coarse grains were very dull, but prices were well maintained. Oats closed ⅛c to 1⅛c lower; barley ⅛c lower; flax 2c to 3⅛c lower, and rye 1c higher.

With an active demand existing for cash wheat the premiums were unchanged to ⅛c better. Canadian millers were the principal buyers, while a few shippers were in the market for small lots. No new business was reported and the offerings generally were very light. Certain grades of cash oats were in good demand and about a quarter of a million bushels changed hands at from ⅛c to ⅛c over the deliverable price. There was a better inquiry for barley, but offerings continue light. Other coarse grains were quiet.

OIL SHARES SUFFER EXTENSIVE DECLINE

Withdrawal of American Producers From Mexican Fields Has Depressing Effect—Steels Also Weak

NEW YORK, July 5.—Resumption of business on the stock exchange after the triple holiday was signalised by fresh weakness in the foreign oils, especially Mexican and South American issues.

Withdrawals from the Mexican field by American producers because of confiscation through war tax caused Mexican Petroleum to add 3¼ points to its steady decline, the stock falling to 90¼, a new low record, with only a feeble rally.

Pan-American Petroleum, the controlling factor in Mexican Petroleum, also was heavy throughout. On the other hand, Royal Dutch, chief of the European oils, made a substantial gain.

Lower prices announced by the Bethlehem Corporation caused extreme losses of 1 to 3 points in that group, and also among equipments, including Bethlehem and Baldwin.

United States Rubber was under marked pressure the first half of the session, but finished at a fractional gain in anticipation of favorable dividend action by the directors at Thursday's meeting. Sugars, shippings and several of the high-grade rails forfeited fractions to a point, with Southern Pacific a noteworthy exception.

Sales were 000,000 shares.

Call money opened at 3 per cent, but release of July interest and dividend payments eased the rate to 3½ per cent on the exchange later, a 5 per cent rate ruling in private negotiations.

German and Austrian exchange rates were firm, but British, French and most other European remittances moved against home centres. Rates to the Far East, especially China, Japan and India, strengthened.

Liberty bonds were irregular, but most other domestic issues and internationals, including United Kingdom and Dominion of Canada, were firm. Total sales, $11,-375,000.

VANCOUVER ISLAND AUTHORS' ASSOCIATION

The Vancouver Island Branch of the Canadian Authors' Association held their first meeting in the office of the British Campaigners last evening.

It is the endeavor of the Island Branch to make the Association a benefit to its members, and with this end in view the secretary is writing to Mr. Murray Gibbon, Dominion president, suggesting that a department be created in The Canadian Bookman, the official organ of the Association, for the dissemination of information relative to available markets for Canadian manuscripts.

Twenty-five application forms are now in the hands of the prospective members. The secretary requests that these forms be filled in and handed to him at the earliest opportunity, as it is desired that a full meeting be held as soon as possible.

All communications relative to the Authors' Club should be addressed to the secretary of the Branch Association, Mr. C. C. Pemberton.

NANAIMO NEWS NOTES

NANAIMO, July 5.—Over five hundred persons attended the picnic held on Sunday by the ambulance class of the Canadian Western Fuel Corporation, which was held on Newcastle Island. A game of rounders, with ten on each side, five ladies and five gentlemen, was a feature of the day. Captain Moore's team won after a close contest. Captain Moore's team was presented with a cup in honor of the event. In the afternoon a fine programme of field sports was run off, the various prizes being distributed by Mr. John Hunt. There were plenty of refreshments, and a most enjoyable day on the Island was spent.

The financial statement in connection with the Alexandra Rose Tag Day, on June 18, has been issued. The receipts for the day were $324, with an expenditure of $19.52. Mrs. W. W. Lewis, convener, wishes to thank all those who in any way helped to make Alexandra Rose Tag Day the success it was, and especially to thank the officers and members of the Collishaw Chapter for their valuable assistance. The tag day was held in aid of the Nanaimo Hospital.

The following were the winners at a whist drive held last evening by Ladies' Auxiliary of the G. W. V. A.: Ladies, first, Mrs. J. Murray; second, Mrs. Dorricourt; third, Mrs. Craig. Gentlemen, first, Mr. McGirr; second, W. Bailey; third, J. Parkin.

Mr. and Mrs. C. N. Westwood, who have been visiting Mr. and Mrs. B. Westwood, Comox Road, returned to their home in Victoria yesterday.

Mr. and Mrs. F. W. Hughes (nee Miss Edith Brown), returned to their home in Vancouver yesterday after spending the week-end with relatives here.

Miss Mabel Wallace, of Victoria, is on a week's visit to friends here. During her stay in Nanaimo Miss Wallace will be the guest of Miss Nellie Booth, Selby Street.

Miss Nora Balotti, of the Cumberland Hospital staff, who is spending her vacation here, met with a painful accident yesterday at Departure Bay. While carrying a plank into a tent which was being erected she slipped and, striking the plank, broke her nose.

NORTH SAANICH INSTITUTE MEETS

SIDNEY, June 6—The North Saanich Women's Institute held its monthly meeting at the Wesley Hall yesterday afternoon, the president, Mrs. Bertha Deacon, being in the chair. The treasurer's report, read and adopted, showed a good balance in the bank. The Dominion Day happenings were discussed and all the business in connection with that holiday was settled up. As a result of the Institute's activities on June 3, $33.18 will be added to the children's playground fund.

Mrs. D. Harvey and Mrs. J. T. Taylor were appointed a committee in connection with the purchasing of tablecloths for the Institute. Mrs. Deacon was asked to appoint a committee to arrange for the Institute picnic, to be held in the latter part of July.

A resolution sent by the Shawnigan Lake Women's Institute regarding the reduction of rural school classes from forty to thirty pupils was endorsed, as was also one from the Strawberry Vale W. I., concerning labelling of fruit bottles.

COMOX PERSONAL NOTES

COURTENAY, July 2.—Mr. Samuel Kobaya Rawes, one of the local baseball team, and Mr. B. Campbell left here on Saturday afternoon with their motor cycle and sidecar for Butler Lake, a distance of 60 miles, for a few days' fishing and camping.

Mr. T. Menzies, M. P. P. for Comox, has left with his family for Victoria, where he intends to take up his residence.

Mrs. Luff and family are going to camp at Comox Lake.

MONTREAL, July 4.—This city experienced the two hottest days of the year, Saturday and yesterday, when the mercury reached 92.5 degrees each day.

NEW ITALIAN CABINET HAS MIXED RECEPTION

ROME, July 5.—Catholic leaders in Italian politics express their satisfaction with the new cabinet formed by Signor Bonomi. This is not because the Catholic members of the ministry have been increased from two to three, but because for the first time the Catholics have obtained the much-desired portfolio of Justice. It is pointed out that this post is most important, as it deals with ecclesiastical questions.

The Fascisti, the Nationalists and Conservatives are declared to be opposed to the cabinet, while the Socialists will not be open in their opposition if the new administration will disband the Fascisti groups which have been carrying on a bitter campaign against radicals in Italy for some months.

Six Months for Liquor Selling

NEW WESTMINSTER, July 5.—H. Takeda, a Japanese storekeeper, was sentenced to six months at Okalla this morning on a charge of giving liquor to two Hindus for a consideration. This is the first case of its kind under the Moderation Act.

"Movie" Theatre Wages

TORONTO, July 4. — The moving picture operators of this city have agreed to a fifteen to twenty per cent wage reduction during the months of July and August, with the understanding that the theatre owners will return to the old scale of wages on September 1.

Death Through Firecrackers

SANTA BARBARA, Cal., July 5.—Putting a piece of lighted punk in a pocket containing firecrackers, Evelyn Rudkin, 9 years old, yesterday suffered burns from which she died a few hours later.

CHINA

Chinese Reorganization Loan of 1913 is secured by revenues derived from the Salt Administration and surplus revenues of the Maritime Customs. Figures for 1919 show the revenue of the Maritime Customs to be $33,940,000, which is large enough to pay the interest and Sinking Fund on the entire foreign debt of China. Imperial Maritime Customs was established under foreign control in 1854, the office of Inspector-General now being held by Sir Francis Aglen, who supervises the collection of duties on imports and exports, tonnage duties on shipping, and also is responsible for the lighting of the coast and some inland waterways, and at Shanghai they maintain a force of river police. The Inspector-General will be a British subject so long as British trade predominates in China. The total number of employees is over 7,178.

The Salt Tax is also collected under the direction of Great Britain. It is interesting to note that the interest on all Bonds and the Sinking Fund requirements have been paid promptly for the last twenty-five years, during which time China has been through several political upheavals, such as the Boxer uprising and the ousting of the Manchu dynasty.

These Bonds yield 9%, and have been increasing in value the same as the Japanese securities, which the public are familiar with.
